

Table of Contents

Zusammenfassung	IV
Abstract	V
1 Introduction	1
1.1 Subarachnoid hemorrhage	1
1.2 Delayed Cerebral Vasospasm after SAH	1
1.3 Early brain injury following SAH	2
1.3.1 ICP	3
1.3.1.1 Peak-ICP	5
1.3.1.2 Steady state	6
1.3.2 CCP	7
1.3.3 CBF	8
1.3.4 Cerebral autoregulation	9
1.4 Animal models to study intracranial hypertension	11
2 Research objective	14
3 Materials and methods	15
3.1 Animals	15
3.2 Animal preparation	15
3.3 Rat SAH model	15
3.4 Experimental groups	17
3.5 Monitoring	19
3.6 Data processing	19
3.7 Cerebral autoregulation	20
3.8 Viscosity measurement	20
3.9 Statistical analysis	21
3.10 List of Materials	21
4 Results	23
4.1 Blood Gas Analysis	24
4.2 Viscosity	24
4.3 Intracranial Pressure	25
4.4 Arterial Blood Pressure	30
4.5 Cerebral Perfusion Pressure	35
4.6 Cerebral Blood Flow	40
4.7 Cerebral autoregulation	45

4.8 Summary of Results	49
5 Discussion	51
5.1 ICP	52
5.2 CPP	53
5.3 CBF	54
5.4 Cerebral autoregulation	54
5.5 Model reflection and outlook	55
6 Summary	58
7 References	59
8 Appendix	72
9 Acknowledgement	78
10 Affidavits	79
11 Curriculum vitae	81
