| <b>Preface</b>   | ix         |
| <b>Acknowledgments</b>   | xiii       |
| <br>   |            |
| <b>Part I. The Growth of Futures Research</b>                            | <b>3</b>   |
| The Emergence of Futures Research <i>John McHale</i>                     | 5          |
| The Global Diffusion of Futures Research <i>Eleonora Barbieri Masini</i> | 17         |
| Futures Research in Japan <i>Yujiro Hayashi</i>                          | 31         |
| <br>   |            |
| <b>Part II. The Difficulties of Futures Research</b>                     | <b>39</b>  |
| Probing the Future <i>Roy Amara</i>                                      | 41         |
| Methodological Shortcomings in Futures Research<br><i>Ida R. Hoos</i>    | 53         |
| The Ideologies of Futurists <i>Ian Miles</i>                             | 67         |
| Self-altering Predictions <i>Richard L. Henshel</i>                      | 99         |
| The Problem of Values in Futures Research <i>Jib Fowles</i>              | 125        |
| <br>   |            |
| <b>Part III. The Procedures of Futures Research</b>                      | <b>141</b> |
| The Practice of Intuition <i>Jay S. Mendell</i>                          | 149        |
| The Utility of Science Fiction <i>Dennis Livingston</i>                  | 163        |
| Images of the Future <i>Bettina J. Huber</i>                             | 179        |
| Scenarios <i>Ian H. Wilson</i>   | 225        |
| Trend Extrapolation <i>Kim Quaille Hill</i>                              | 249        |
| The Delphi Technique <i>Harold A. Linstone</i>                           | 273        |
| Cross-Impact Analysis <i>John G. Stover and Theodore J. Gordon</i>       | 301        |
| Simulation Modeling <i>J. Michael McLean</i>                             | 329        |
| Simulation Gaming <i>Richard D. Duke</i>                                 | 353        |
| Technological Forecasting <i>Joseph P. Martino</i>                       | 369        |
| Technology Assessment <i>Joseph F. Coates</i>                            | 397        |
| Social Indicators and Social Forecasting <i>Denis F. Johnston</i>        | 423        |

|   |     |
|---|-----|
| <b>Part IV. Substantive Areas for Futures Research</b>  | 449 |
| The Optimistic Outlook <i>Herman Kahn and William M. Brown</i>  | 455 |
| The Pessimistic Outlook <i>Victor Ferkiss</i>   | 479 |
| Sharpening the Debate Over the Future <i>Jay W. Forrester</i>   | 497 |
| The Postindustrial Economy <i>Daniel Bell</i>   | 507 |
| The Emerging Countereconomy <i>Hazel Henderson</i>  | 515 |
| Future Population Growth <i>Tomas Frejka</i>  | 533 |
| The Prospects for Food <i>Lester R. Brown</i>   | 551 |
| Forecasts for Nonrenewable Resources <i>Indira Rajaraman</i>  | 571 |
| Energy for the Future <i>James O'Toole</i>  | 591 |
| The Impending Environmental Catastrophe <i>Barry Commoner</i>   | 605 |
| Urban Futures <i>H. Wentworth Eldredge</i>  | 617 |
| Communications in the Future <i>Arthur C. Clarke</i>  | 637 |
| Biomedical Issues for the Future <i>Thomas R. McFaul</i>  | 653 |
| Technology and the Future <i>Christopher Dede</i>   | 675 |
| Futures in the Political Process <i>William L. Rentfro and Marvin Kornbluh</i>                        | 693 |
| Futures in Education <i>Harold G. Shane and Roy A. Weaver</i>   | 709 |
| Global Futures <i>Ervin Laszlo</i>  | 731 |
| Settlements in Space <i>Magoroh Maruyama</i>  | 745 |
| <b>Part V. The Challenges for Futures Research</b>  | 761 |
| The Research Tasks Before Us <i>Olaf Helmer</i>   | 763 |
| The Planning Mission Before Us <i>Frank Snowden Hopkins</i>   | 779 |
| Changes and Challenges for Futures Research<br><i>Willis W. Harman and Peter Schwartz</i>             | 791 |
| <b>Appendix: Journals, Periodic Reports, Graduate Programs, and Organizations in Futures Research</b> | 803 |
| <b>Glossary</b>   | 807 |
| <b>Index</b>  | 809 |
| <b>Notes on Contributors</b>  | 817 |
