

1	Introduction	1
2	What Is Artificial Intelligence?	9
	2.1 Introduction	9
	2.2 The Background of AI	11
	2.3 Autonomy	18
	2.4 Adaptability	22
	2.5 Interaction	30
	2.6 Concluding Remarks	33
	2.7 Further Reading	33
3	Ethical Decision-Making	35
	3.1 Introduction	35
	3.2 Ethical Theories	37
	3.3 Values	39
	3.4 Ethics in Practice	41
	3.5 Implementing Ethical Reasoning	44
	3.6 Concluding Remarks	46
	3.7 Further Reading	46
4	Taking Responsibility	47
	4.1 Introduction	47
	4.2 Responsible Research and Innovation	49
	4.3 The ART of AI: Accountability, Responsibility, Transparency	52
	4.4 Design for Values	62
	4.5 Concluding Remarks	67
	4.6 Further Reading	68
5	Can AI Systems Be Ethical?	71
	5.1 Introduction	71
	5.2 What Is an Ethical Action?	72

5.3	Approaches to Ethical Reasoning by AI	75
5.4	Designing Artificial Moral Agents.....	81
5.5	Implementing Ethical Deliberation.....	86
5.6	Levels of Ethical Behaviour	87
5.7	The Ethical Status of AI Systems	89
5.8	Concluding Remarks	91
5.9	Further Reading.....	92
6	Ensuring Responsible AI in Practice.....	93
6.1	Introduction	93
6.2	Governance for Responsible AI.....	95
6.3	Codes of Conduct	99
6.4	Inclusion and Diversity.....	100
6.5	The AI Narrative	101
6.6	Concluding Remarks	103
6.7	Further Reading.....	105
7	Looking Further	107
7.1	Introduction	107
7.2	AI and Society	109
7.3	Super-intelligence.....	116
7.4	Responsible Artificial Intelligence.....	119
7.5	Further Reading.....	119
