

## SECTION II

### CONTENTS — TABLE DES MATIERES

	Paper-No.	Page
<i>Program of Technical Sessions — Programme des Séances Techniques</i> .....		IX
<i>Program of Panel Discussions — Programme des Panel Discussions</i> .....		XIII
<i>Problems of developing oil deposits in the USSR</i> .....	II—33	1
<i>A. P. Krylow — A. V. Afanasiyeva — B. T. Baishev — Y. P. Borisov —  V. N. Vasiliyevsky — A. S. Virnovsky — V. V. Voinov — L. A. Zinoviyeva —  M. I. Maximov — M. M. Maximov — V. N. Maidebor — I. P. Novikov —  E. V. Sokolovsky — V. A. Sushilin — I. D. Umrikhin</i>		
<i>Development of methods for analysis of Iranian Asmari reservoirs</i> .....	II—14	13
<i>K. H. Andresen — R. I. Baker — J. Raoofi</i>		
<i>Origin of carbon dioxide and its effects in an oil and gas reservoir exploitation Tres Hermanos Field — Veracruz, Mexico</i> .....	II—19	29
<i>S. R. Gómez — M. M. Ríos</i>		
<i>Underwater drilling and completion methods</i> .....	II—31	39
<i>J. R. McEntee — R. L. Geer — B. G. Collipp</i>		
<i>The economics of corrosion control in oil and gas production</i> .....	II—23	61
<i>M. H. Dubrow — J. J. Reynolds — H. F. Coffey — J. E. Landers</i>		
<i>Access, transportation and material handling in oilfield development</i> .....	II—21	77
<i>R. T. Pirie — W. H. Sharp</i>		
<i>The role of computers in studying reservoir performance and petroleum conservation</i> .....	II—28	89
<i>P. P. Reichertz — W. C. Skinner — W. L. Wahl — G. C. Wallick</i>		
<i>Evaluation of reservoir rocks of low permeability</i> .....	II—9	101
<i>Martin Rieckmann</i>		
<i>An example of an extremely undersaturated and low permeability oil reservoir — San Andrés Field, Mexico</i> .....	II—20	117
<i>F. Garaicochea P. — C. Pérez Rosales — M. J. Ortiz de Maria</i>		
<i>Scientific principles of gas and condensate field development in the USSR</i> .....	II—32	129
<i>B. B. Lapuk — V. P. Savchenko — F. A. Trebin</i>		
<i>Outstanding aspects of production and utilization of natural gas in Venezuela</i> ...	II—37	141
<i>L. A. Plaz — B. R. Luongo</i>		
<i>Capillary pressure measurement of porous medium by vapor pressure method</i> ...	II—18	155
<i>Hikaru Saito</i>		
<i>Sand consolidation experiences in Nigeria</i> .....	II—39	163
<i>J. A. du Mée — W. J. de Ruiter — E. W. Jonkers</i>		

	Paper-No.	Page
<i>Electrical modelling, control and automation of oil-well pumps</i> . . . . .	II-34	169
A. S. Virnovsky – P. A. Ivankov – O. S. Tateishvily – A. L. Abrukin		
<i>Découverte et développement de champs de pétrole dans le Néocémien du Bassin de Paris</i> . . . . .	II-4	181
F. P. Bernard – R. J. Duplan – R. F. Vincent		
<i>Champ de Cazaux – Géologie et production</i> . . . . .	II-5	199
J. P. Dupuy – G. Oswaldt – J. Sens		
<i>History and development of the Alborz and Sarajeh fields of Central Iran</i> . . . . .	II-13	215
J. Abaie – H. J. Ansari – A. Badakshan – A. Jaafarie		
<i>Recent developments in well logging in the U.S.A.</i> . . . . .	II-25	233
H. G. Doll – M. P. Tixier – F. Segesman		
 <b>Panel Discussion 5</b>		
<i>Trépons en concrétion diamantée pour le rotary et le turboforage</i> . . . . .	II-1	255
Jan F. Renard		
<i>A technical appraisal of drilling operations Dome et Al Winter Harbour # 1</i> . . . . .		
<i>Canadian Arctic Islands</i> . . . . .	II-2	275
R. K. Irvine – R. E. Sparrow		
<i>Les turbines de forage et leur emploi en France</i> . . . . .	II-6 A	287
<i>L'optimisation des performances des trépons dans le cas du turboforage et du forage au diamant</i> . . . . .	II-6 B	301
W. Tiraspolsky – R. Rouvière – L. Laguilharre – J. Charé		
<i>Bond of cement compositions for cementing wells</i> . . . . .	II-10	313
H. Becker – G. Peterson		
<i>Results of experimental research on fatigue rates in used drilling pipes using non-destructive methods</i> . . . . .	II-16	329
G. Baldini		
<i>Optimization – the key to reduced well costs</i> . . . . .	II-24	343
H. Pistole – W. H. Tompson		
<i>The role of floating platforms for marine drilling and well completion operations</i> . . . . .	II-26	359
C. M. Shields		
<i>Problems of deep-drilling</i> . . . . .	II-35	369
E. I. Taguiev – A. O. Assan-Noory – N. S. Timofeyev		
R. A. Ioannessyan – M. T. Goosman		
<i>Stress limits of drill pipe strings in deep well drilling</i> . . . . .	II-38	377
V. Hauk		
<i>Lubricating properties of drilling fluids (E. P. Muds)</i> . . . . .	II-36	387
R. J. Tailleux		

	<u>Paper-No.</u>	<u>Page</u>
<b>Panel Discussion 6</b>		
<i>A reservoir begins production: A study in planning and co-operation</i> .....	II-12	407
H. A. Freeman — S. G. Natanson		
<i>Performance history of the Pembina Cardium Pool, Alberta, Canada</i> .....	II-40	415
J. W. Gregg — J. Wahl		
<i>Vertical flow of gas and liquid mixtures in wells</i> .....	II-22	451
H. Duns Jr. — N. C. J. Ros		
<i>Displacement tests with porous rock samples under reservoir conditions</i> .....	II-11	467
W. Rühl — Chr. Schmid — W. Wissmann		
<i>Experimental research on gas saturation behind the water front in gas reservoirs subjected to water drive</i> .....	II-17	483
G. L. Chierici — G. M. Ciucci — G. Long		
<i>Calculs numériques de déplacements de fronts</i> .....	II-7	499
P. Jacquard		
<i>Controlled PVT Oil production process</i> .....	II-3	513
E. Ospina-Racines		
<i>Evolution de la répartition des pressions autour d'un sondage en cours d'injection et lors de l'arrêt de celle-ci</i> .....	II-8	527
CH. Delclaud — A. Houpeurt — R. Iffly — G. Souquet		
<i>Oil recovery by thermal methods</i> .....	II-29	539
S. E. Szasz — V. J. Berry Jr.		
<i>New development in water flooding for improving oil recovery efficiency</i> .....	II-30	549
R. C. Earlougher — E. T. Guerrero		
<i>Improved oil recovery by miscible displacement</i> .....	II-27	563
E. R. Brownscombe — C. R. McNeese — C. C. Miller		
<i>Index of authors and discussors</i> .....		579
