

SECTION VI

CONTENTS — TABLE DES MATIERES

	Paper-No.	Page
<i>Program of Technical Sessions — Programme des Séances techniques</i>		VII
<i>Program of Panel Discussions — Programme des Panel Discussions</i>		XI
<i>Fuel requirements for supersonic transport</i>	VI-20	1
E. A. Droegemueller		
<i>Cleanliness standards for aviation fuels</i>	VI-7	15
W. R. Hawks et al.		
<i>Research studies on lubricating grease compositions for extreme environments</i> ..	VI-16	29
D. B. Cox et al.		
<i>The study of passenger car octane number requirements</i>	VI-15	41
F. R. B. King et al.		
<i>The application of lead alkyls as antiknocks in motor gasoline</i>	VI-6	59
C. L. Goodacre et al.		
<i>Mixed lead alkyls — volatile and selective antiknocks</i>	VI-23	85
R. J. Riggs et al.		
<i>Factors affecting the performance of additives in gasolines</i>	VI-22	111
W. E. Bettoney et al.		
<i>Recent developments in petroleum products for agriculture</i>	VI-24	131
N. Alpert et al.		
<i>Performance requirements for road bitumens and their expression in specifications</i>	VI-14	145
C. J. Krom et al.		
<i>Some studies on the physics of paraffin wax and wax/polymer systems</i>	VI-21	161
D. S. Barmby et al.		
<i>Requirements of one fluid for all vehicle functions</i>	VI-18	179
R. B. Singer		
<i>Trends in automatic transmissions and their fluid requirements</i>	VI-9	193
L. W. Manley et al.		
<i>The development of crankcase and transmission additives to meet the European market</i>	VI-8	227
A. Towle		
<i>Viscosity and the cranking resistance of engine oils at low temperatures</i>	VI-17	241
T. W. Selby		
<i>Anti-wear and anti-friction properties of mineral oils and other lubricants</i>	VI-28	259
G. V. Vinogradov et al.		

	Paper-No.	Page
<i>Synthesis of friction wear-reducing additives, and investigation of the mechanism governing their action</i>	VI-27	271
P. I. Sanin et al.		
<i>Advance in technology of motor oil detergents</i>	VI-19	285
R. E. Karll et al.		
<i>The use of pour depressants in middle distillates</i>	VI-1	293
J. L. Tiedje		
<i>Recent developments in the field of metal-working oils</i>	VI-5	309
R. Rost		
<i>Modern development methods for marine diesel cylinder lubricants</i>	VI-13	321
H. Pouderoyen et al.		

Panel Discussion 10

<i>The challenge of unvonventional uses for oil</i>	VI-11	343
N. A. White		
<i>Communication sur l'emploi des produits pétroliers dans les hauts-fourneaux</i>	VI-4	357
J. Cordier, P. Dhenein, P. Hazard, R. Laurent		
<i>Injection of residual fuel into blast furnaces</i>	VI-24	377
H. E. W. Burnside, D. L. Campbell, E. H. Manny, H. R. Sanders, W. J. Sweeney		
<i>Deparaffinage, microbiologique avec production d'un concentré protéines-vitamines</i>	IV-4	385
A. Champagnat, Ch. Vernet, B. Laine, J. Filosa		
<i>Oil-fired MPD electrical power generation</i>	VI-29	401
B. C. Lindley		
<i>Utilisation des hydrocarbures et des grands intermédiaires de la pétrochimie comme comstubiles électrochimiques</i>	VI-3	417
O. Bloch, P. Degobert, M. Prigent, J. C. Balaceanu		
<i>Soil reclamation by means of petroleum products</i>	VI-10	439
G. P. Richard, T. L. Les		
<i>A new process for reducing seepage from canals</i>	VI-25	453
C. E. Watson, V. A. Rundle, M. V. Hunter, J. K. Cornell		
<i>Uses of petroleum products in space exploration</i>	VI-30	463
<i>Index of authors and discussors</i>		471

Note.

Paper on "Produktion of synthesis gas by an internal combustion engine"

T. Yamamoto – K. Kaneko – K. Kuwal – K. Hiratsuka
 formerly Paper No. VI-12 now Section IV-42
