

<b>List of contributors</b> .....	<b>xi</b>
<b>Preface</b> .....	<b>xiii</b>
<b>Introduction</b> .....	<b>1</b>
<b>Jan M. Døderlein</b>	
Why risk research?	1
Comments on the objectives of the seminar	2
Some key problems of risk	3
References	8
<b>Discussion: Introduction</b> .....	<b>9</b>

## Section A. Concepts and Measures

<b>Chapter 1. Probability: Interpretations and Estimation</b> .....	<b>13</b>
<b>E. Spjøtvoll</b>	
Introduction	13
Probability as a mathematical concept	14
The frequency interpretation of probability	14
Subjective probability—The Bayesian approach	15
<i>Comparison of the two approaches</i>	16
Assessment of subjective probabilities	20
James-Stein estimators	21
Empirical Bayes and Bayesian methods	21
Probability in risk calculations	22
References	24

<b>Chapter 2. The Psychology of Risk .....</b>	<b>25</b>
<b>B. Brehmer</b>	
Introduction	25
Individual differences	25
Perception of risk	26
Definition of risk	26
Varieties of research on perceived risk	27
The structure of judgements about risk and acceptability	32
Conclusion	36
References	38
<b>Chapter 3. Risk from a Safety Executive</b>	
<b>Viewpoint .....</b>	<b>41</b>
<b>E. N. Bjordal</b>	
Definitions	41
Management and risk	42
Risks and safety	42
Risk philosophy	44
Knowledge of risks	44
Organization and risks	44
Acceptance of risk	45
<b>Chapter 4. Risk: Culture and Concepts .....</b>	<b>47</b>
<b>J. Hovden and T. J. Larsson</b>	
Introduction	47
Risk exposure and risk handling at different levels of decision-making	48
Attribution and conceptual models of accidents and risks	50
Groups and subcultural norms	54
Risks and risk perception in the 'good old days'	55
Today's risk panorama—Attitude changes	57
Conclusion	58
References	58
<b>Discussion: Concepts and Measures .....</b>	<b>60</b>
References	63

## Section B. Risk and Behaviour

### Chapter 5. Subjective Risk ..... 67 A. R. Hale

Introduction	67
Definitions and systems approach	68
Relevant research	71
Dimensions of risk	71
General comment on dimensions	79
Implications for the concept 'risk'	80
References	82

### Chapter 6. Risk Cognition ..... 87 A. I. Glendon

Introduction	87
The importance of the environment	89
Individual differences and the environment	91
Towards an attempted synthesis	96
One-, two- and three-dimensional approaches to risk	99
Conclusion	104
References	106

### Chapter 7. Risk and Information Processing ..... 109 J. Rasmussen

Introduction	109
Technological trends	110
Objective and subjective risk	111
The nature of human error	112
Design of error-tolerant systems	115
Causes and reasons	116
Normative models and empirical evidence	118
Advice acceptance	119
Ethical questions of design	120
Conclusion	120
References	121

<b>Chapter 8. Risk, Organization and Safety on an Oil Platform .....</b>	<b>123</b>
<b>J. Marek, E. Iversen and O. H. Hellesøy</b>	

Introduction	123
Working model and method	124
Results and discussion	128
Conclusion and summary	134
References	136

<b>Chapter 9. Major Hazards and Behaviour .....</b>	<b>139</b>
<b>A. Hedge</b>	

Introduction	139
Taxonomies of risk and the perception of major hazards	140
Major hazards and emergency decision-making	148
Conclusion	151
References	152

<b>Discussion: Risk and Behaviour .....</b>	<b>154</b>
---	------------

## **Section C. Risk and Public Policy**

<b>Chapter 10. Risk: National Policy-Making .....</b>	<b>161</b>
<b>J. Hovden</b>	

Introduction	161
The meaning of politics	162
Value conflicts and parties	163
Means and institutions for a policy of risk-handling by society	165
The roles of mass-media	166
The roles of risk-analysis and experts	167
An approach for research on safety policy issues	170
Conclusion	171
References	172

<b>Chapter 11. Risk-Handling by Institutions .....</b>	<b>173</b>
<b>W. T. Singleton</b>	

Introduction	173
Risk and the law	173
Risk and occupational safety and health	175
Risk and the basic industries	178

Conclusion	180
References	180
<b>Chapter 12. Risk in Industry .....</b>	<b>183</b>
<b>T. Sande</b>	
Introduction	183
What is 'safety'?	184
Development of safety control in industry	185
The cost of safety	186
How does industry monitor safety?	187
The offshore oil industry in Norway	187
Future trends	188
<b>Chapter 13. Risk in Defence .....</b>	<b>191</b>
<b>M. Page</b>	
Risk in defence thinking	191
Appreciation of risk	195
Operational utility and deterrence	199
Summary and conclusions	203
Further reading	204
<b>Chapter 14. Cancer Risks from Food and Drugs .....</b>	<b>207</b>
<b>F. J. C. Roe</b>	
Introduction	207
The two-stage theory of carcinogenesis	207
Genetic versus environmental	208
Cancer risks from food and drugs	209
The causation of human cancer according to Doll and Peto	210
Dietary carcinogens and anticarcinogens	210
Overnutrition, endocrine state and cancer risk	212
Discussion	213
References	215
Appendix—Premature Death	215
<b>Discussion: Risk and Public Policy .....</b>	<b>217</b>
<b>Chapter 15. Final Discussion .....</b>	<b>219</b>
<b>W. T. Singleton and J. Hovden</b>	
<b>Name index .....</b>	<b>225</b>
<b>Subject index .....</b>	<b>229</b>
