Singapore | Washington DC | Melbourne

# CONTENTS

<b>Series Editor's Introduction</b>	<b>xi</b>
<b>Preface</b>	<b>xiii</b>
<b>Acknowledgments</b>	<b>xvii</b>
<b>About the Authors</b>	<b>xix</b>
<b>Chapter 1: Introduction</b>	<b>1</b>
1.1 Invariant Measurement	2
• <i>Research Traditions in Measurement</i>	3
• <i>Invariant Measurement and the Scaling Tradition</i>	5
1.2 Rasch Measurement Theory	6
1.3 Components of Scale Development Based on Rasch Measurement Theory	13
1.4 Four Measurement Problems	18
<b>Chapter 2: Constructing a Rasch Scale</b>	<b>21</b>
2.1 Building Blocks for a Rasch Scale	21
• <i>Latent Variable</i>	22
• <i>Observational Design</i>	24
• <i>Scoring Rules</i>	25
• <i>Rasch Model</i>	26
2.2 Illustrative Analyses	28
2.3 Summary	33
<b>Chapter 3: Evaluating a Rasch Scale</b>	<b>35</b>
3.1 Rasch's Specific Objectivity	35
3.2 Model-Data Fit	37
3.3 Invariant Calibration of Items Across Subgroups of Persons	42
3.4 Illustrative Analyses	45
3.5 Summary	56

<b>Chapter 4: Maintaining a Rasch Scale</b>	<b>63</b>
4.1 Comparable Scales for a Construct	64
4.2 Invariant Measurement of Persons Across Scales	65
4.3 Illustrative Analyses	68
4.4 Summary	70
<b>Chapter 5: Using a Rasch Scale</b>	<b>73</b>
5.1 Three Foundations of Testing	74
• <i>Validity</i>	74
• <i>Reliability</i>	79
• <i>Fairness</i>	82
5.2 Standard Setting	85
5.3 Summary	91
<b>Chapter 6: Conclusion</b>	<b>95</b>
6.1 Key Themes by Chapter	96
6.2 Applications of Rasch Measurement Theory	98
6.3 Concept Map for Rasch Models	101
6.4 Final Words	103
<b>Glossary</b>	<b>105</b>
<b>References</b>	<b>109</b>
<b>Index</b>	<b>121</b>
