How To Use Bates' Guide to Physical Examination and History Taking xix

UNIT 1

Foundations of Health Assessment 1

CHAPTER 1

Approach to the Clinical Encounter 1

FOUNDATIONAL SKILLS ESSENTIAL TO THE CLINICAL ENCOUNTER 1

APPROACH TO THE CLINICAL ENCOUNTER 2

STRUCTURE AND SEQUENCE OF THE CLINICAL ENCOUNTER 4

Stage 1: Initiating the Encounter 5
Stage 2: Gathering Information 12
Stage 3: Performing the Physical Examination 15
Stage 4: Explaining and Planning 15
Stage 5: Closing the Encounter 17

DISPARITIES IN HEALTH CARE 17

Social Determinants of Health 18
Racism and Bias 19
Cultural Humility 21

OTHER MAJOR CONSIDERATIONS 23

Spirituality 23
Medical Ethics 25
Documenting the Clinical Encounter 30

REFERENCES 40

CHAPTER 2

Interviewing, Communication, and Interpersonal Skills 43

FUNDAMENTALS OF SKILLED INTERVIEWING 44

Active or Attentive Listening 44

Guided Questioning 45
Empathic Responses 47
Summarization 48
Transitions 48
Partnering 48
Validation 48
Empowering the Patient 49
Reassurance 49

APPROPRIATE VERBAL COMMUNICATION 50

Use Understandable Language 50
Use Nonstigmatizing Language 50

APPROPRIATE NONVERBAL COMMUNICATION 52

OTHER CONSIDERATIONS IN COMMUNICATION AND INTERPERSONAL SKILLS 53

Broaching Sensitive Topics 53
Informed Consent 53
Working with a Medical Interpreter 54
Advance Directives 56
Disclosing Serious News 57
Motivational Interviewing 58
Interprofessional Communication 59

CHALLENGING PATIENT SITUATIONS AND BEHAVIORS 60

Patient Who Is Silent 61
Patient Who Is Talkative 61
Patient with Confusing Narrative 62
Patient with Altered State or Cognition 62
Patient with Emotional Lability 63
Patient Who Is Angry or Aggressive 63
Patient Who Is Flirtatious 64
Patient Who Is Discriminatory 64
Patient with Hearing Loss 65
Patient with Low or Impaired Vision 66
Patient with Limited Intelligence 66
Patient Burdened by Personal Problems 66
Patient Who Is Nonadherent 67
Patient with Low Literacy 67
Patient with Low Health Literacy 67
Patient with Limited Language Proficiency 67
Patient with Terminal Illness or Who Is Dying 68

BEING PATIENT-CENTERED IN COMPUTERIZED CLINICAL SETTINGS 68

LEARNING COMMUNICATION SKILLS FROM STANDARDIZED PATIENTS 69

REFERENCES 74

CHAPTER 3

Health History 77

HEALTH HISTORY 77

- Different Kinds of Health Histories 78
- Determining the Scope of Your Patient Assessment: Comprehensive or Focused? 78
- Subjective versus Objective Data 79

COMPREHENSIVE ADULT HEALTH HISTORY 80

- Initial Information 81
- Chief Complaint 81
- History of Present Illness 82
- Past Medical History 88
- Family History 90
- Personal and Social History 90
- Review of Systems 101

RECORDING YOUR FINDINGS 103

MODIFICATION OF THE CLINICAL INTERVIEW FOR VARIOUS CLINICAL SETTINGS 106

- Ambulatory Care Clinic 106
- Emergency Care 106
- Intensive Care Unit 107
- Nursing Home 107
- Home 108

REFERENCES 111

CHAPTER 4

Physical Examination 113

ROLE OF THE PHYSICAL EXAMINATION IN THE ERA OF TECHNOLOGY 113

DETERMINING SCOPE OF THE PHYSICAL EXAMINATION: COMPREHENSIVE OR FOCUSED? 114

- Comprehensive Adult Physical Examination 114

HEAD-TO-TOE PHYSICAL EXAMINATION 126

- General Survey 126
- Vital Signs 126
- Skin 126
- Head, Eyes, Ears, Nose, Throat 126
- Neck 127
- Back 127
- Posterior Thorax and Lungs 127
- Breasts and Axillae 127
- Anterior Thorax and Lungs 127
- Cardiovascular System 127
- Abdomen 128
- Lower Extremities 128
- Nervous System 128
- Additional Examinations 129

ADAPTING THE PHYSICAL EXAMINATION: SPECIFIC PATIENT CONDITIONS 129

- Patient on Bedrest 130
- Patient Using a Wheelchair 130
- Patient Who Is Postprocedure 130
- Patient Who Is Obese 131
- Patient in Pain 131
- Patient on Special Precautions 131

RECORDING YOUR FINDINGS 132

REFERENCES 134

CHAPTER 5

Clinical Reasoning, Assessment, and Plan 135

CLINICAL REASONING: PROCESS 136

- Basic Structure of the Clinical Reasoning Process 137
- Clinical Diagnostic Errors 145

CLINICAL REASONING: DOCUMENTATION 146

- Document the Problem Representation (Summary Statement) 146
- Assessment and Plan 148

RECORDING YOUR FINDINGS 152

PROGRESS NOTE AND PATIENT PROBLEM LIST IN THE ELECTRONIC HEALTH RECORD 152

- Patient Problem List 153

ORAL PRESENTATION 154

REFERENCES 159

CHAPTER 6

Health Maintenance and Screening 160

CONCEPT OF PREVENTIVE CARE 160

GUIDELINE RECOMMENDATIONS 162

- U.S. Preventive Services Task Force Approach 162
- Grading of Recommendations, Assessment, Development, and Evaluation 163

SCREENING 164

- Basic Approach to Screening 164

BEHAVIORAL COUNSELING 166

- Motivational Interviewing 168

IMMUNIZATIONS 168

SCREENING GUIDELINES FOR ADULTS 169

- Screening for Unhealthy Weight and Diabetes Mellitus 169
- Screening for Substance Use Disorders, Including Misuse of Prescription and Illicit Drugs 170
- Screening for IPV, Domestic Violence, Elder Abuse, and Abuse of Vulnerable Adults 171

COUNSELING GUIDELINES FOR ADULTS 172

- Weight Loss 172
- Healthful Diet and Physical Activity 174

SCREENING AND COUNSELING GUIDELINES FOR ADULTS 176

- Unhealthy Alcohol Use 176
- Tobacco Use 178
- Screening and Counseling for STIs 180

IMMUNIZATION GUIDELINES FOR ADULTS 183

- Influenza Vaccine 183
- Pneumococcal Vaccine 184
- Varicella Vaccine 186
- Herpes Zoster Vaccine 186
- Tetanus, Diphtheria, Pertussis Vaccine 186
- Human Papillomavirus Vaccine 187
- Hepatitis A Vaccine 187
- Hepatitis B Vaccine 188

PREVENTIVE CARE IN SPECIAL POPULATIONS 188**DISEASE-SPECIFIC RECOMMENDATIONS 188****REFERENCES 189****CHAPTER 7****Evaluating Clinical Evidence 193****USING ELEMENTS OF THE HISTORY AND PHYSICAL EXAMINATION AS DIAGNOSTIC TESTS 194****EVALUATING DIAGNOSTIC TESTS 195**

- Validity 196

APPLYING CONCEPTS TO SCREENING TESTS 201

- Fagan Nomogram 201
- Natural Frequencies 203
- Reproducibility 203

CRITICALLY APPRAISING THE CLINICAL EVIDENCE 205**COMMUNICATING CLINICAL EVIDENCE TO PATIENTS 208****REFERENCES 210****UNIT 2****Regional Examinations 211****CHAPTER 8****General Survey, Vital Signs, and Pain 211****HEALTH HISTORY: GENERAL APPROACH 211**

- Fatigue and Weakness 212
- Fever, Chills, and Night Sweats 212
- Weight Change 212
- Pain 214

PHYSICAL EXAMINATION: GENERAL APPROACH 214**TECHNIQUES OF EXAMINATION 214**

- General Survey 215
- Vital Signs 220
- Acute and Chronic Pain 232
- Types of Pain 233
- Assessing Acute and Chronic Pain 234

RECORDING YOUR FINDINGS 235**HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 236**

- Screening for Hypertension 236
- Blood Pressure and Dietary Sodium 237

REFERENCES 239**CHAPTER 9****Cognition, Behavior, and Mental Status 241****ANATOMY AND PHYSIOLOGY 241****HEALTH HISTORY: GENERAL APPROACH 244**

- Anxiety, Excessive Worrying 246
- Depressed Mood 247
- Memory Problems 249
- Patients with Medically Unexplained Symptoms 251

PHYSICAL EXAMINATION: GENERAL APPROACH 251**TECHNIQUES OF EXAMINATION 252**

- Appearance and Behavior 252
- Speech and Language 253
- Mood 255
- Thought 255
- Perceptions 258
- Cognitive Functions 259
- Higher Cognitive Functions 260

RECORDING YOUR FINDINGS 262**HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 262**

- Screening for Depression 263
- Assessing for Suicide Risk 263
- Screening for Neurocognitive Disorders 264
- Screening for Substance Use Disorders, Including Misuse of Alcohol and Prescription and Illicit Drugs 267

REFERENCES 278**CHAPTER 10****Skin, Hair, and Nails 282****ANATOMY AND PHYSIOLOGY 282**

- Skin 282
- Hair 283

Contents

- Nails 283
- Pilosebaceous Glands and Sweat Glands 284
- HEALTH HISTORY: GENERAL APPROACH 284**
- Lesions 285
- Rashes and Itching (Pruritus) 285
- Hair Loss and Nail Changes 285
- DESCRIBING SKIN LESIONS 286**
- Primary Lesion 286
- Size 290
- Number 290
- Distribution 290
- Configuration 290
- Texture 290
- Color 290
- PHYSICAL EXAMINATION: GENERAL APPROACH 291**
- Lighting, Equipment, and Dermoscopy 291
- Patient Gown 292
- Handwashing 292
- TECHNIQUES OF EXAMINATION 292**
- Standard Technique: Patient Position—Seated Then Standing 293
- Alternative Technique: Patient Position—Supine Then Prone 295
- Integrated Skin Examinations 296
- SPECIAL TECHNIQUES 296**
- Patient Instructions for the Skin Self-Examination 296
- Examining the Patient with Hair Loss 297
- Evaluating the Bedbound Patient 298
- RECORDING YOUR FINDINGS 300**
- HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 301**
- Epidemiology 301
- Skin Cancer Prevention 302
- Skin Cancer Screening 302
- Screening for Melanoma: The ABCDEs 303
- REFERENCES 333**

CHAPTER 11

Head and Neck 335

ANATOMY AND PHYSIOLOGY 335

- Head 335
- Neck 337

HEALTH HISTORY: GENERAL APPROACH 341

- Neck Mass or Lump 342
- Thyroid Mass, Nodule, or Goiter 342

PHYSICAL EXAMINATION: GENERAL APPROACH 342

TECHNIQUES OF EXAMINATION 343

- Hair 343
- Scalp 343
- Skull 343
- Face 343

- Skin 343
- Cervical Lymph Nodes 343
- Trachea 345
- Thyroid Gland 346
- Carotid Arteries and Jugular Veins 348

RECORDING YOUR FINDINGS 348

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 349

- Screening for Thyroid Dysfunction 349
- Screening for Thyroid Cancer 349

REFERENCES 354

CHAPTER 12

Eyes 355

ANATOMY AND PHYSIOLOGY 355

- Visual Fields 358
- Visual Pathways 358
- Autonomic Nerve Supply to the Eyes 360
- Extraocular Movements 360

HEALTH HISTORY: GENERAL APPROACH 361

- Vision Changes 362
- Eye Pain, Redness, or Tearing 363
- Double Vision 364

PHYSICAL EXAMINATION: GENERAL APPROACH 364

TECHNIQUES OF EXAMINATION 365

- Visual Acuity 365
- Visual Fields 366
- Color Vision 367
- Contrast Sensitivity 368
- Eye Position and Alignment 368
- Eyebrows 368
- Eyelids 368
- Lacrimal Apparatus 369
- Conjunctiva and Sclera 369
- Cornea and Lens 369
- Iris 370
- Pupils 370
- Extraocular Muscles 371
- Ophthalmoscopic (Funduscopy) Examination 373

SPECIAL TECHNIQUES 377

- Eye Protrusion (Proptosis or Exophthalmos) 377
- Nasolacrimal Duct Obstruction 378
- Everting Upper Eyelid to Search for Foreign Body 378
- Swinging Flashlight Test 379

RECORDING YOUR FINDINGS 379

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 380

- Visual Impairment 380
- Screening for Glaucoma 381

UV-Related Eye Injuries 381

REFERENCES 395

CHAPTER 13

Ears and Nose 396

ANATOMY AND PHYSIOLOGY 396

Ear 396

Nose and Paranasal Sinuses 399

HEALTH HISTORY: GENERAL APPROACH 400

Hearing Loss 400

Earache and Ear Discharge 401

Tinnitus 401

Dizziness and Vertigo 401

Rhinorrhea and Nasal Congestion 402

Epistaxis 403

PHYSICAL EXAMINATION: GENERAL APPROACH 403

TECHNIQUES OF EXAMINATION 404

Auricle 404

Ear Canal and Tympanic Membrane 404

Testing Auditory Acuity or Gross Hearing 406

Testing for Conductive versus Sensorineural Hearing Loss: Tuning Fork Tests 407

Surface of the Nose 409

Nasal Cavity and Mucosa 409

Nasal Septum 410

Paranasal Sinuses 410

RECORDING YOUR FINDINGS 411

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 411

SCREENING FOR HEARING LOSS 412

REFERENCES 418

CHAPTER 14

Throat and Oral Cavity 419

ANATOMY AND PHYSIOLOGY 419

Mouth, Gingiva, and Teeth 419

Tongue 420

Pharynx 421

HEALTH HISTORY: GENERAL APPROACH 422

Sore Throat 422

Bleeding or Swollen Gums 422

Hoarseness 423

Malodorous Breath 423

PHYSICAL EXAMINATION: GENERAL APPROACH 423

TECHNIQUES OF EXAMINATION 424

Lips and Oral Mucosa 424

Gums and Teeth 425

Roof and Floor of the Mouth and the Tongue 425

Pharynx 426

RECORDING YOUR FINDINGS 427

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 428

Oral Health 428

Oral and Pharyngeal Cancer 428

REFERENCES 440

CHAPTER 15

Thorax and Lungs 441

ANATOMY AND PHYSIOLOGY 441

Locating Findings on the Chest 441

Breathing 448

HEALTH HISTORY: GENERAL APPROACH 449

Shortness of Breath (Dyspnea) and Wheezing 450

Cough 450

Hemoptysis 451

Chest Pain 451

Daytime Sleepiness, Snoring and Disordered Sleep 453

PHYSICAL EXAMINATION: GENERAL APPROACH 453

TECHNIQUES OF EXAMINATION 454

Initial Survey of Respiration and the Thorax 454

Posterior Chest 455

Anterior Chest 464

SPECIAL TECHNIQUES 466

Clinical Assessment of Pulmonary Function 466

Forced Expiratory Time 466

Identification of a Fractured Rib 466

RECORDING YOUR FINDINGS 467

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 467

Lung Cancer 467

Latent Tuberculosis 468

Obstructive Sleep Apnea 469

REFERENCES 487

CHAPTER 16

Cardiovascular System 489

ANATOMY AND PHYSIOLOGY 489

Surface Projections of the Heart and Great Vessels 489

Cardiac Chambers, Valves, and Circulation 492

Events in the Cardiac Cycle 492

Splitting of Heart Sounds 495

Contents

Heart Murmurs 496
Relation of Auscultatory Findings to the Chest Wall 497
Conduction System 497
The Heart as a Pump 498
Arterial Pulses and Blood Pressure 498
Jugular Venous Pressure and Pulsations 499
Changes Over the Life Span 500

HEALTH HISTORY: GENERAL APPROACH 501

Chest Pain 502
Palpitations 503
Shortness of Breath 504
Swelling (Edema) 504
Fainting (Syncope) 505

PHYSICAL EXAMINATION: GENERAL APPROACH 505

TECHNIQUES OF EXAMINATION 506

Blood Pressure and Heart Rate 506
Jugular Venous Pressure 507
Carotid Arteries 510
Heart 513

SPECIAL TECHNIQUES: BEDSIDE MANEUVERS TO IDENTIFY MURMURS AND HEART FAILURE 528

Standing and Squatting 528
Valsalva Maneuver 528
Isometric Handgrip 529
Transient Arterial Occlusion 529

RECORDING YOUR FINDINGS 529

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 530

Challenges of Cardiovascular Disease Prevention 531
Health Disparities in Cardiovascular Disease 533
Screening for Cardiovascular Risk Factors 534
Promoting Lifestyle Change and Risk Factor Modification 538

REFERENCES 557

CHAPTER 17

Peripheral Vascular System 561

ANATOMY AND PHYSIOLOGY 561

Arterial System 561
Venous System 564
Lymphatic System 565
Transcapillary Fluid Exchange 567

HEALTH HISTORY: GENERAL APPROACH 567

Peripheral Arterial Disease 568
Peripheral Venous Disease (or Venous Thromboembolism) 570

PHYSICAL EXAMINATION: GENERAL APPROACH 570

TECHNIQUES OF EXAMINATION 571

Arms 571
Abdomen 573
Legs 574

SPECIAL TECHNIQUES 578

Assessing for Peripheral Arterial Disease 578
Evaluating Arterial Perfusion of the Hand 580

RECORDING YOUR FINDINGS 581

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 581

Screening for Lower Extremity Peripheral Artery Disease 582
Screening for Abdominal Aortic Aneurysm 582

REFERENCES 590

CHAPTER 18

Breasts and Axillae 592

ANATOMY AND PHYSIOLOGY 592

Female Breast 592
Axilla 594
Male Breast 595

HEALTH HISTORY: GENERAL APPROACH 596

Breast Lump or Mass 596
Breast Discomfort or Pain 596
Nipple Discharge 596

PHYSICAL EXAMINATION: GENERAL APPROACH 597

TECHNIQUES OF EXAMINATION 597

Female Breast 598
Axillae 603
Male Breast 604

SPECIAL TECHNIQUES 604

Examination after Mastectomy or Breast Reconstruction 604

RECORDING YOUR FINDINGS 605

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 605

Breast Cancer in Women 605

MALE BREAST CANCER 609

REFERENCES 612

CHAPTER 19

Abdomen 613

ANATOMY AND PHYSIOLOGY 613

Abdominal Cavity and Contents 614
Pelvic Cavity and Contents 616

HEALTH HISTORY: GENERAL APPROACH 617

Abdominal Pain 618
Abdominal Pain and Associated Gastrointestinal Symptoms 624
Difficulty Swallowing (Dysphagia) and/or Painful Swallowing (Odynophagia) 625
Change in Bowel Function 626
Diarrhea 626

Constipation 627
 Jaundice 628
 Urinary Symptoms 629
 Flank Pain and Ureteral Colic 631

PHYSICAL EXAMINATION: GENERAL APPROACH 632

TECHNIQUES OF EXAMINATION 633

Abdomen 634
 Liver 638
 Spleen 641
 Kidneys 644
 Urinary Bladder 645
 Aorta 645

SPECIAL TECHNIQUES 646

Assessing Possible Ascites 646
 Assessing Possible Appendicitis 647
 Assessing Possible Acute Cholecystitis 648
 Assessing Ventral Hernias 648
 Abdominal Wall Mass 649

RECORDING YOUR FINDINGS 649

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 649

Viral Hepatitis 649
 Colorectal Cancer 652

REFERENCES 674

CHAPTER 20

Male Genitalia 677

ANATOMY AND PHYSIOLOGY 677

Genitalia 677
 Groin 678
 Lymphatics 679
 Male Sexual Development and Function 679

HEALTH HISTORY: GENERAL APPROACH 680

Penile Discharge or Lesions and Scrotal or Testicular Pain, Swelling, or Lesions 680
 Sexually Transmitted Infections 681

PHYSICAL EXAMINATION: GENERAL APPROACH 682

TECHNIQUES OF EXAMINATION 682

Penis 682
 Scrotum and Scrotal Contents 684

SPECIAL TECHNIQUES 685

Evaluating Groin Hernias 685
 Testicular Self-Examination 688

RECORDING YOUR FINDINGS 689

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 689

Testicular Cancer 689

REFERENCES 696

CHAPTER 21

Female Genitalia 697

ANATOMY AND PHYSIOLOGY 697

Vulva 697
 Vagina 698
 Uterus 699
 Adnexa 699
 Pelvic Floor 700
 Lymphatics 701

HEALTH HISTORY: GENERAL APPROACH 701

Menarche and Menses 702
 Abnormal Bleeding 703
 Menopause 704
 Pelvic Pain—Acute and Chronic 704
 Vulvovaginal Symptoms 705

PHYSICAL EXAMINATION: GENERAL APPROACH 705

Positioning 706
 Examining Equipment 707

TECHNIQUES OF EXAMINATION 708

External Examination 708
 Internal Examination 709
 Hernias 715

SPECIAL TECHNIQUES 715

Assessing Urethritis 715

RECORDING YOUR FINDINGS 715

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 716

Cervical Cancer 716
 Menopause and Hormone Replacement Therapy 718
 Ovarian Cancer 718

REFERENCES 727

CHAPTER 22

Anus, Rectum, and Prostate 728

ANATOMY AND PHYSIOLOGY 728

HEALTH HISTORY: GENERAL APPROACH 730

Change in Bowel Habits 731
 Pain on Defecation 731
 Anal Warts and Fissures 731
 Weak Urinary Stream 731

PHYSICAL EXAMINATION: GENERAL APPROACH 732

TECHNIQUES OF EXAMINATION 732

Patient with a Prostate 733
 Patient without a Prostate (Woman or Man with Prostatectomy) 736

RECORDING YOUR FINDINGS 736

HEALTH PROMOTION AND COUNSELING: EVIDENCE AND RECOMMENDATIONS 737

Contents

Prostate Cancer 737
