

Contents

1	Some Basic Demographic Interrelationships	1
1.	A Discussion of Mortality,	4
2.	A Discussion of Fertility,	7
3.	A Discussion of the Age Structure of a Population,	23
4.	A Discussion of the Crude Rate of Natural Increase,	27
5.	The Net Reproduction Rate,	28
6.	Stable and Stationary Populations,	32
	Notes,	34
2	The Methodology	35
1.	The Techniques,	35
2.	Fertility Assumptions,	37
3.	Mortality Assumptions,	41
4.	Sources and Quality of Data,	43
5.	Geographical Scope,	44
6.	The Logic of the Set of Analytical Tables,	47
	Notes,	49
3	Growth Alternatives of the World Population: An Abstract of Findings	51

1. Alternatives of Worldwide Population Growth, 52
2. Population Growth Alternatives of the More Developed Regions of the World, 66
3. Population Growth Alternatives of the Less Developed Regions of the World, 71
Notes, 81

- 4 Population Growth Alternatives of the Major Areas: An Abstract of Findings 83

- 5 Population Growth Alternatives of Selected Countries 94
 1. Population Growth Alternatives of Countries of Europe, the U.S.S.R., North America, and Other More Developed Countries, 95
 2. Population Growth Alternatives of Countries of East Asia, 106
 3. Population Growth Alternatives of Countries of South Asia, 108
 4. Population Growth Alternatives of Countries of Africa, 122
 5. Population Growth Alternatives of Latin America, 126
Notes, 134

- 6 Modifications of Alternatives of Future Population Growth 135
 1. Fertility Declining to an NRR of 0.9, 136
 2. A Logarithmic Fertility Decline, 141
 3. A Temporary 15% Increase in Fertility Followed by a Linear Fertility Decline to an NRR of 1.0, 143
 4. Constant Fertility Followed by Fertility Decline to an NRR of 1.0, 145
 5. Changes of Fertility Patterns by Age, 148
 6. Linear Fertility Decline to an NRR of 1.0 with a "Slow" Decline of Mortality, 154

7.	Demographic Conditions Needed to Generate an Absolute Discontinuation of Population Growth, 156	
8.	A Summary, 161 Notes, 162	
7	Population Growth Alternatives of the United States	164
1.	The Issue, 164	
2.	Modified Population Growth Alternatives of the United States, 166	
3.	A Review, 169 Notes, 171	
8	A Crude Evaluation of Proclaimed Population Growth Objectives	173
1.	Comments on Statements Referring to Growth Probabilities or Objectives of the World Population, 175	
2.	The Feasibility of Attaining Proclaimed Objectives of Population Growth of Individual Countries, 182 Notes, 189	
9	Some Implications for Other Types of Projections	191
1.	Long-Term Implications of National and International Projections, 191	
2.	Demographic Trends Implied by the Stabilized World Models of <i>The Limits to Growth</i> , 195 Notes, 200	
	Epilogue	201
	List of Sources	204
Appendix 1	Technical Notes on the Methodology	211
Appendix 2	Detailed Tables—Standard Sets of Projections for the World, the More Developed Regions, and the Less Developed Regions	219
	Index	251
