

Contents

1	An Introduction to Mean Field Game Theory	1
	Pierre Cardaliaguet and Alessio Porretta	
2	Lecture Notes on Variational Mean Field Games	159
	Filippo Santambrogio	
3	Master Equation for Finite State Mean Field Games with Additive Common Noise	203
	François Delarue	
4	Mean Field Games and Applications: Numerical Aspects	249
	Yves Achdou and Mathieu Laurière
