**Preface**    vii

<b>1. Introduction</b>	<b>1</b>
Aims and organisation of the book	1
Preview of the book's chapters	3
<b>2. Explanations for episodic memory</b>	<b>9</b>
Item-specific versus relational processes	9
Automatic versus controlled processes	12
Various codes	13
Summary	15
<b>3. Early findings and explanations for the retention of self-performed tasks</b>	<b>17</b>
Enactment as strategy-free encoding	18
Enactment of actions as rich, multimodal encoding	22
Enactment as motor encoding	25
Enactment as item-specific encoding	31
<b>4. Theoretical integration I: Actions as described by the multimodal theory</b>	<b>35</b>
The multimodal memory theory	35
Explanations of findings on the enactment effect and new predictions based on the multimodal memory theory	43
<b>5. Empirical inconsistencies and theoretical controversies</b>	<b>51</b>
Controversies concerning modality-specific aspects	51
Controversies concerning item-specific and relational encoding	72
Controversies on automatic and controlled encoding	88

vi CONTENTS

<b>6. Theoretical integration II: Expansion and differentiation of the multimodal theory</b>	<b>93</b>
Effects of multimodal encoding	93
Effects of item-specific and relational encoding	95
Effects of automatic and controlled encoding	96
<b>7. Recent studies on encoding and retrieval</b>	<b>101</b>
Recent findings on encoding	101
Differentiations in retrieval processes	109
Retention in the interplay of encoding and retrieval	120
<b>8. Theoretical integration III: Inclusion of retrieval processes</b>	<b>127</b>
Effects of encoding	127
Effects of retrieval	128
<b>9. Memory for actions and its implications for theories on episodic memory</b>	<b>133</b>
Systems	133
Encoding processes	135
Retrieval processes	137
<b>10. Widening the perspective</b>	<b>139</b>
Failures of remembering self-performed actions	140
Retrospective versus prospective memory of actions	143
