

Table of Contents

Introduction	1
Emotion processing in the human brain.....	1
- <i>Emotion unfolded by motion: A role for parietal lobe in decoding dynamic facial expressions. Sarkheil et al. 2013</i>	
Neural substrates of emotion regulation.....	7
- <i>Amygdala response and functional connectivity during cognitive emotion regulation of aversive image sequences. Sarkheil et al. 2018</i>	
Emotion regulation difficulties as a common mechanism of psychiatric disorders.....	13
- <i>Variation of temporal order reveals deficits in categorization of facial expressions in patients afflicted with depression. Sarkheil et al. 2018</i>	
- <i>Effect of negative valence on assessment of self-relevance in female patients with borderline personality disorder. Sarkheil et al. 2019</i>	
Neurofeedback intervention in emotion regulation disorders.....	17
- <i>fMRI feedback enhances emotion regulation as evidenced by a reduced amygdala response. Sarkheil et al. 2015</i>	
- <i>fMRI neurofeedback facilitates anxiety regulation in females with spider phobia. Zilverstand et al. 2015</i>	
Summary and conclusion.....	23
