Preface v

PART 1 Introduction to International Trade

CHAPTER 1 Trade in the Global Economy 1

1 International Trade 3

The Basics of World Trade 3

SIDE BAR The Macroeconomics of the Trade Balance 4

APPLICATION Is Trade Today Different from the Past? 5

Map of World Trade 7

Trade Compared with GDP 11

Barriers to Trade 12

"First Golden Age" of Trade 12

Political Economy of Tariffs 12

"Second Golden Age" of Trade 16

The U.S.–China Trade War 16

2 Migration and Foreign Direct Investment 18

Map of Migration 18

Political Economy of Migration 20

Map of Foreign Direct Investment 21

APPLICATION An American Factory 25

HEADLINES Don't Think That All Chinese Factories Are Like the One in *American Factory* 26

3 Conclusions 26

Key Points, Key Terms, and Problems 27

PART 2 Patterns of International Trade

CHAPTER 2 Trade and Technology: The Ricardian Model 31

1 Reasons for Trade 32

Proximity 33

Resources 33

Absolute Advantage 34

Comparative Advantage 34

SIDE BAR David Ricardo and Mercantilism 35

2 Ricardian Model of Trade 35

The Home Country 36

The Foreign Country 39

APPLICATION Comparative Advantage in Apparel, Textiles, and Wheat 40

3 Determining the Pattern of International Trade 42

International Trade Equilibrium 42

APPLICATION Labor Productivity and Wages 47

4 Solving for International Prices 50

Home Export Supply Curve 50

International Trade Equilibrium 53

APPLICATION The Terms of Trade for Primary Commodities 54

5 Conclusions 56

Key Points, Key Terms, and Problems 57

CHAPTER 3 Gains and Losses from Trade in the Specific-Factors Model 61

1 Specific-Factors Model 63

The Home Country 63

The Foreign Country 65

Overall Gains from Trade 66

APPLICATION How Large Are the Gains from Trade? 67

2 Earnings of Labor 69

Determination of Wages 69

Change in Relative Price of Manufactures 70

SIDE BAR Do Poor or Rich Consumers Gain the Most from Trade? 73

APPLICATION Manufacturing and Services in the United States: Employment and Wages Across Sectors	74	Effects of Immigration in the Short Run: Specific-Factors Model	127
APPLICATION The “China Shock” and Employment in the United States	76	APPLICATION Immigration to the New World	130
3 Earnings of Capital and Land	80	Other Effects of Immigration in the Short Run	131
Determining the Payments to Capital and Land	80	APPLICATION The Political Economy of Migration	132
Numerical Example	82	SIDE BAR Who Is a Foreign-born Person?	133
What It All Means	84	Effects of Immigration in the Long Run	139
APPLICATION Can Losses to Factors of Production Be Offset?	85	Rybczynski Theorem	144
HEADLINES Rise in Coffee Prices—Great for Farmers, Tough on Co-ops	87	Factor Price Insensitivity Theorem	144
4 Conclusions	87	APPLICATION The Effects of the Mariel Boat Lift on Industry Output in Miami	145
Key Points, Key Terms, and Problems	88	APPLICATION The Effects of Migration on Wages	147
CHAPTER 4 Trade and Resources: The Heckscher–Ohlin Model	91	2 Movement of Capital Between Countries: Foreign Direct Investment	148
1 Heckscher–Ohlin Model	92	Greenfield Investment	149
Assumptions of the Heckscher–Ohlin Model	93	FDI in the Short Run: Specific-Factors Model	149
APPLICATION Are Factor Intensities the Same Across Countries?	95	FDI in the Long Run	151
No-Trade Equilibrium	96	APPLICATION The Effect of FDI on Rentals and Wages in Singapore	153
Free-Trade Equilibrium	98	HEADLINES The Myth of Asia’s Miracle	155
2 Testing the Heckscher–Ohlin Model	101	3 Gains from Labor and Capital Flows	155
Leontief’s Paradox	102	Gains from Immigration	156
Factor Endowments in 2017	103	APPLICATION Immigrants and Their Remittances	158
Evolution of Factor Endowments in China and the United States	105	APPLICATION Measuring the Gains from Immigration	160
Leontief’s Paradox Once Again	110	Gains from Foreign Direct Investment	162
3 Effects of Trade on Factor Prices	112	APPLICATION Measuring the Gains from Foreign Direct Investment	163
Effect of Trade on the Wage and Rental of Home	113	4 Conclusions	164
Determination of the Real Wage and Real Rental	115	Key Points, Key Terms, and Problems	165
SIDE BAR Does International Trade Reduce Poverty and Income Inequality?	117		
Changes in the Real Wage and Rental: A Numerical Example	117		
4 Conclusions	120		
Key Points, Key Terms, and Problems	121		
CHAPTER 5 Movement of Labor and Capital Between Countries	125		
1 Movement of Labor Between Countries: Migration	127		
		PART 3 New Explanations for International Trade	
		CHAPTER 6 Increasing Returns to Scale and Monopolistic Competition	169
		1 Basics of Imperfect Competition	172
		Monopoly Equilibrium	172
		Demand with Duopoly	173
		2 Trade Under Monopolistic Competition	174
		Equilibrium Without Trade	176
		Equilibrium with Free Trade	178

3 Free-Trade Agreements Within North America	181
Gains and Adjustment Costs for Canada Under CUSFTA	181
Gains and Adjustment Costs for Mexico Under NAFTA	182
Gains and Adjustment Costs for the United States Under NAFTA	185
Renegotiation of NAFTA	187
HEADLINES North American Trade Pact Could Cushion U.S. Economy	190
4 Intra-Industry Trade and the Gravity Equation	190
Index of Intra-Industry Trade	191
The Gravity Equation	192
APPLICATION The Gravity Equation for Canada and the United States	193
5 Conclusions	196
Key Points, Key Terms, and Problems	196
CHAPTER 7 Offshoring of Goods and Services	199
SIDE BAR "Foreign Outsourcing" Versus "Offshoring"	200
1 A Model of Offshoring	202
Value Chain of Activities	202
Slicing the Value Chain	204
Changes in Foreign Costs and in Offshoring	205
2 Explaining Changes in Wages and Employment	208
Changes in the Relative Wage of Nonproduction Workers in the United States	208
Changes in the Relative Wage of Nonproduction Workers in Mexico	211
Job Polarization in the United States	213
3 The Gains from Offshoring	216
Simplified Offshoring Model	217
Production in the Absence of Offshoring	218
Terms of Trade	221
APPLICATION U.S. Terms of Trade and Service Exports	223
4 The Future of Offshoring and You	227
HEADLINES American Factories Demand White-Collar Education for Blue-Collar Work	228
5 Conclusions	229
Key Points, Key Terms, and Problems	230

PART 4 International Trade Policies

CHAPTER 8 Import Tariffs and Quotas Under Perfect Competition	235
1 A Brief History of the World Trade Organization	237
SIDE BAR Key Provisions of the GATT	239
2 The Gains from Trade	240
Consumer and Producer Surplus	240
Home Welfare	241
Home Import Demand Curve	243
3 Import Tariffs for a Small Country	244
Free Trade for a Small Country	244
Effect of the Tariff	245
APPLICATION U.S. Tariffs on Steel, 2002–03	247
SIDE BAR Provisions of U.S. Trade Law	249
APPLICATION U.S. and Foreign Tariffs Under President Trump, 2018–19	251
APPLICATION The Political Economy of Tariffs	255
4 Import Tariffs for a Large Country	256
Foreign Export Supply	256
Effect of the Tariff	257
APPLICATION U.S. Tariffs on Steel Once Again	261
APPLICATION U.S. and Foreign Tariffs Under President Trump Once Again	263
5 Import Quotas	265
Import Quota in a Small Country	265
APPLICATION China and the Multifibre Arrangement	269
6 Conclusions	272
Key Points, Key Terms, and Problems	273
CHAPTER 9 Import Tariffs and Quotas Under Imperfect Competition	277
1 Tariffs and Quotas with Home Monopoly	279
No-Trade Equilibrium	279
Free-Trade Equilibrium	280
Effect of a Home Tariff	282
Effect of a Home Quota	283
APPLICATION U.S. Imports of Japanese Automobiles	285
2 Tariffs with Foreign Monopoly	288
Foreign Monopoly	288

APPLICATION Import Tariffs on Japanese Trucks	290	6 Export Quotas	337
HEADLINES The Chickens Have Come Home to Roost	292	APPLICATION Chinese Export Policies in Mineral Products	339
3 Dumping	292	HEADLINES China Ends Rare-Earth Minerals Export Quotas	342
Numerical Example of Dumping	294	7 High-Technology Export Subsidies	342
Policy Response to Dumping	295	“Strategic” Use of High-Tech Export Subsidies	343
Antidumping Duties	295	Effect of a Subsidy to Airbus	345
APPLICATION United States and European Duties on Solar Panels from China	296	Subsidy with Cost Advantage for Boeing	347
4 Infant Industry Protection	300	APPLICATION WTO Controversies Due to Subsidies in Commercial Aircraft	349
Free-Trade Equilibrium	301	HEADLINES U.S. to Impose Tariffs on EU Goods After WTO’s Airbus Ruling	351
Tariff Equilibrium	302	8 Conclusions	352
APPLICATION Examples of Infant Industry Protection	303	Key Points, Key Terms, and Problems	353
Computers in Brazil	303		
U.S. Tariff on Heavyweight Motorcycles	305	CHAPTER 11 International Agreements on Trade and the Environment	357
Protecting the Automobile Industry in China	308		
5 Conclusions	311	1 Multilateral Trade Agreements	359
Key Points, Key Terms, and Problems	312	The Logic of Multilateral Trade Agreements	359
		Prisoner’s Dilemma	361
CHAPTER 10 Export Policies in Resource-Based and High-Technology Industries	317	HEADLINES The World Trade Organization Is Faltering. The US Can’t Fix It Alone.	363
1 WTO Goals on Agricultural Subsidies	319	The End of the Trade War?	363
Agricultural Export Subsidies	319	2 Regional Trade Agreements	365
Other Matters from the Hong Kong WTO Meeting	321	Characteristics of Regional Trade Agreements	366
2 Export Subsidies in a Small Home Country	322	APPLICATION Brexit and Rules of Origin	367
Impact of an Export Subsidy	322	Trade Creation and Trade Diversion	369
3 Export Subsidies in a Large Home Country	324	Numerical Example of Trade Creation and Diversion	369
Effect of the Subsidy	325	Trade Diversion in a Graph	371
APPLICATION Who Gains and Who Loses?	326	APPLICATION Trade Creation and Diversion for Canada	373
4 Production Subsidies	328	3 International Agreements on the Environment	373
Effect of a Production Subsidy in a Small Home Country	329	Environmental Issues in the GATT and WTO	374
Effect of the Production Subsidy in a Large Home Country	331	Does Trade Help or Harm the Environment?	377
APPLICATION <i>The Political Economy of U.S. Agricultural Subsidies, 2018–19</i>	331	International Agreements on Pollution	383
HEADLINES Trump’s \$16 Billion Farm Bailout Criticized at WTO	333	APPLICATION The Kyoto Protocol, the Paris Agreement, and the Green Deal	385
5 Export Tariffs	334	HEADLINES California Law Aims to Tackle Imported Emissions	388
Impact of an Export Tariff in a Small Country	334	4 Conclusions	388
Impact of an Export Tariff in a Large Country	336	Key Points, Key Terms, and Problems	390

PART 5 Introduction to International Macroeconomics

CHAPTER 12 The Global Macroeconomy 393

1 Foreign Exchange: Currencies and Crises 394

How Exchange Rates Behave 394

Why Exchange Rates Matter 396

When Exchange Rates Misbehave 396

HEADLINES Economic Crisis in Iceland 398

Summary and Plan of Study 399

2 Globalization of Finance: Debts and Deficits 399

Deficits and Surpluses: The Balance of Payments 400

Debtors and Creditors: External Wealth 402

Darlings and Deadbeats: Defaults and Other Risks 403

Summary and Plan of Study 404

3 Government and Institutions: Policies and Performance 404

Integration and Capital Controls: The Regulation of International Finance 405

Independence and Monetary Policy: The Choice of Exchange Rate Regimes 406

Institutions and Economic Performance: The Quality of Governance 407

Summary and Plan of Study 409

4 Conclusions 410

Key Points, Key Terms, and Problems 410

PART 6 Exchange Rates

CHAPTER 13 Introduction to Exchange Rates and the Foreign Exchange Market 413

1 Exchange Rate Essentials 414

Defining the Exchange Rate 414

Appreciations and Depreciations 416

Multilateral Exchange Rates 418

Example: Using Exchange Rates to Compare Prices in a Common Currency 418

2 Exchange Rates in Practice 420

Exchange Rate Regimes: Fixed Versus Floating 421

APPLICATION Recent Exchange Rate Experiences 421

3 The Market for Foreign Exchange 426

The Spot Contract 426

Transaction Costs 427

Derivatives 427

Private Actors 428

Government Actions 428

4 Arbitrage and Spot Exchange Rates 429

Arbitrage with Two Currencies 430

Arbitrage with Three Currencies 431

Cross Rates and Vehicle Currencies 432

5 Arbitrage and Interest Rates 432

Riskless Arbitrage: Covered Interest Parity 433

APPLICATION Evidence on Covered Interest Parity 435

Risky Arbitrage: Uncovered Interest Parity 436

SIDE BAR Assets and Their Attributes 437

APPLICATION Evidence on Uncovered Interest Parity 438

Uncovered Interest Parity: A Useful Approximation 439

Summary 441

6 Conclusions 442

Key Points, Key Terms, and Problems 442

CHAPTER 14 Exchange Rates I: The Monetary Approach in the Long Run 447

1 Exchange Rates and Prices in the Long Run: Purchasing Power Parity and Goods Market Equilibrium 448

The Law of One Price 449

Purchasing Power Parity 450

The Real Exchange Rate 450

Absolute PPP and the Real Exchange Rate 451

Absolute PPP, Prices, and the Nominal Exchange Rate 451

Relative PPP, Inflation, and Exchange Rate Depreciation 452

Summary 453

APPLICATION Evidence for PPP in the Long Run and Short Run 454

How Slow Is Convergence to PPP? 455

SIDE BAR Forecasting When the Real Exchange Rate Is Undervalued or Overvalued 456

What Explains Deviations from PPP? 456

HEADLINES The Big Mac Index 459

2 Money, Prices, and Exchange Rates in the Long Run: Money Market Equilibrium in a Simple Model 458

What Is Money? 458

The Measurement of Money 460

The Supply of Money 461

The Demand for Money: A Simple Model	461	Adjustment to Money Market Equilibrium in the Short Run	499
Equilibrium in the Money Market	462	Another Building Block: Short-Run Money Market Equilibrium	500
A Simple Monetary Model of Prices	462	Changes in Money Supply and the Nominal Interest Rate	501
A Simple Monetary Model of the Exchange Rate	463	APPLICATION Can Central Banks Always Control the Interest Rate? A Lesson from the Crisis of 2008–09	502
Money Growth, Inflation, and Depreciation	464	Changes in Real Income and the Nominal Interest Rate	503
3 The Monetary Approach: Implications and Evidence	465	The Monetary Model: The Short Run Versus the Long Run	504
Exchange Rate Forecasts Using the Simple Model	466	3 The Asset Approach: Applications and Evidence	504
APPLICATION Evidence for the Monetary Approach	468	The Asset Approach to Exchange Rates: Graphical Solution	505
APPLICATION Hyperinflations	469	Short-Run Policy Analysis	506
SIDE BAR Currency Reform	470	APPLICATION The Rise and Fall of the Dollar, 1999–2004	509
4 Money, Interest Rates, and Prices in the Long Run: A General Model	472	4 A Complete Theory: Unifying the Monetary and Asset Approaches	510
The Demand for Money: The General Model	472	SIDE BAR Confessions of a Forex Trader	512
Long-Run Equilibrium in the Money Market	474	Long-Run Policy Analysis	512
Inflation and Interest Rates in the Long Run	474	Overshooting	516
The Fisher Effect	475	SIDE BAR Overshooting in Practice	518
Real Interest Parity	475	5 Fixed Exchange Rates and the Trilemma	518
APPLICATION Evidence on the Fisher Effect	476	What Is a Fixed Exchange Rate Regime?	519
The Fundamental Equation Under the General Model	477	Pegging Sacrifices Monetary Policy Autonomy in the Short Run: Example	519
Exchange Rate Forecasts Using the General Model	478	Pegging Sacrifices Monetary Policy Autonomy in the Long Run: Example	520
5 Monetary Regimes and Exchange Rate Regimes	480	The Trilemma	522
The Long Run: The Nominal Anchor	481	SIDE BAR Intermediate Regimes	523
APPLICATION Nominal Anchors in Theory and Practice	483	APPLICATION The Trilemma in Europe	524
6 Conclusions	485	6 Conclusions	525
Key Points, Key Terms, and Problems	485	APPLICATION News and the Foreign Exchange Market in Wartime	525
CHAPTER 15 Exchange Rates II: The Asset Approach in the Short Run	491	Key Points, Key Terms, and Problems	529
1 Exchange Rates and Interest Rates in the Short Run: UIP and FX Market Equilibrium	492	PART 7 The Balance of Payments	
Risky Arbitrage	492	CHAPTER 16 National and International Accounts: Income, Wealth, and the Balance of Payments	533
Equilibrium in the FX Market: An Example	493	1 Measuring Macroeconomic Activity: An Overview	534
Adjustment to Forex Market Equilibrium	495	The Flow of Payments in a Closed Economy: Introducing the National Income and Product Accounts	534
Changes in Domestic and Foreign Returns and FX Market Equilibrium	496		
Summary	498		
2 Interest Rates in the Short Run: Money Market Equilibrium	498		
Money Market Equilibrium in the Short Run: How Nominal Interest Rates Are Determined	498		
Money Market Equilibrium in the Short Run: Graphical Solution	499		

The Flow of Payments in an Open Economy: Incorporating the Balance of Payments Accounts	536	A Long-Run Example: The Perpetual Loan	577
2 Income, Product, and Expenditure	538	Implications of the LRBC for Gross National Expenditure and Gross Domestic Product	578
Three Approaches to Measuring Economic Activity	538	Summary	578
From GNE to GDP: Accounting for Trade in Goods and Services	539	APPLICATION The Favorable Situation of the United States	579
From GDP to GNI: Accounting for Trade in Factor Services	540	APPLICATION The Difficult Situation of the Emerging Markets	581
APPLICATION Celtic Tiger or Tortoise?	541	2 Gains from Consumption Smoothing	584
From GNI to GNDI: Accounting for Transfers of Income	542	The Basic Model	584
What the National Economic Aggregates Tell Us	544	Consumption Smoothing: A Numerical Example and Generalization	585
Understanding the Data for the National Economic Aggregates	544	SIDE BAR Wars and the Current Account	588
What the Current Account Tells Us	546	Summary: Save for a Rainy Day	588
APPLICATION Global Imbalances	547	APPLICATION Consumption Volatility and Financial Openness	589
3 The Balance of Payments	551	APPLICATION Precautionary Saving, Reserves, and Sovereign Wealth Funds	590
Accounting for Asset Transactions: The Financial Account	552	HEADLINES Copper-Bottomed Insurance	591
Accounting for Asset Transactions: The Capital Account	552	3 Gains from Efficient Investment	592
Accounting for Home and Foreign Assets	553	The Basic Model	592
How the Balance of Payments Accounts Work: A Macroeconomic View	553	Efficient Investment: A Numerical Example and Generalization	593
How the Balance of Payments Accounts Work: A Microeconomic View	554	Summary: Make Hay While the Sun Shines	595
SIDE BAR The Double-Entry Principle in the Balance of Payments	555	APPLICATION Delinking Saving from Investment	596
Understanding the Data for the Balance of Payments Account	556	4 Gains from Diversification of Risk	597
What the Balance of Payments Account Tells Us	558	Diversification: A Numerical Example and Generalization	598
4 External Wealth	559	APPLICATION The Home Bias Puzzle	602
The Level of External Wealth	560	Summary: Don't Put All Your Eggs in One Basket	604
Changes in External Wealth	560	5 Conclusions	604
Understanding the Data on External Wealth	561	Key Points, Key Terms, and Problems	605
What External Wealth Tells Us	563	APPENDIX 1 Common Versus Idiosyncratic Shocks	610
5 Conclusions	563	APPENDIX 2 Can Poor Countries Gain from Financial Globalization?	612
SIDE BAR Beware of Greeks Bearing Statistics	564	APPLICATION <i>A</i> Versus <i>k</i>	616
Key Points, Key Terms, and Problems	565	SIDE BAR What Does the World Bank Do?	619
APPENDIX External Wealth and Total Wealth	569	CHAPTER 17 Balance of Payments I: The Gains from Financial Globalization	571
CHAPTER 17 Balance of Payments I: The Gains from Financial Globalization	571	1 The Limits on How Much a Country Can Borrow: The Long-Run Budget Constraint	573
1 The Limits on How Much a Country Can Borrow: The Long-Run Budget Constraint	573	How the Long-Run Budget Constraint Is Determined	574
How the Long-Run Budget Constraint Is Determined	574	The Budget Constraint in a Two-Period Example	575
The Budget Constraint in a Two-Period Example	575	CHAPTER 18 Balance of Payments II: Output, Exchange Rates, and Macroeconomic Policies in the Short Run	621
CHAPTER 18 Balance of Payments II: Output, Exchange Rates, and Macroeconomic Policies in the Short Run	621	1 Demand in the Open Economy	622
1 Demand in the Open Economy	622	Preliminaries and Assumptions	622
Preliminaries and Assumptions	622	Consumption	623
Consumption	623		

Investment	624
The Government	625
The Trade Balance	625
HEADLINES The Curry Trade	626
APPLICATION The Trade Balance and the Real Exchange Rate	628
SIDE BAR Barriers to Expenditure Switching: Pass-Through and the J Curve	630
Exogenous Changes in Demand	632
2 Goods Market Equilibrium: The Keynesian Cross	633
Supply and Demand	633
Determinants of Demand	634
Factors That Shift the Demand Curve	635
Summary	636
3 Goods and Forex Market Equilibria: Deriving the IS Curve	636
Equilibrium in Two Markets	637
Forex Market Recap	637
Deriving the IS Curve	638
Factors That Shift the IS Curve	639
Summing Up the IS Curve	641
4 Money Market Equilibrium: Deriving the LM Curve	642
Money Market Recap	642
Deriving the LM Curve	643
Factors That Shift the LM Curve	644
Summing Up the LM Curve	645
5 The Short-Run IS–LM–FX Model of an Open Economy	645
Macroeconomic Policies in the Short Run	647
Monetary Policy Under Floating Exchange Rates	647
Monetary Policy Under Fixed Exchange Rates	649
Fiscal Policy Under Floating Exchange Rates	650
Fiscal Policy Under Fixed Exchange Rates	651
Summary	652
6 Stabilization Policy	653
APPLICATION The Right Time for Austerity?	654
Problems in Policy Design and Implementation	655
HEADLINES Poland Is Not Latvia	656
APPLICATION Macroeconomic Policies in the Liquidity Trap: From the Global Financial Crisis to the Coronavirus Recession	658
7 Conclusions	662
Key Points, Key Terms, and Problems	663

APPENDIX 1 The Marshall–Lerner Condition	667
APPENDIX 2 Multilateral Real Exchange Rates	669

PART 8 Applications and Policy Issues

CHAPTER 19 Fixed Versus Floating: International Monetary Experience	671
1 Exchange Rate Regime Choice: Key Issues	673
APPLICATION Britain and Europe: The Big Issues	673
Key Factors in Exchange Rate Regime Choice: <i>Integration and Similarity</i>	678
Economic Integration and the Gains in Efficiency	678
Economic Similarity and the Costs of Asymmetric Shocks	678
Simple Criteria for a Fixed Exchange Rate	679
APPLICATION Do Fixed Exchange Rates Promote Trade?	681
APPLICATION Do Fixed Exchange Rates Diminish Monetary Autonomy and Stability?	683
2 Other Benefits of Fixing	685
Fiscal Discipline, Seigniorage, and Inflation	685
SIDE BAR The Inflation Tax	686
Liability Dollarization, National Wealth, and Contractionary Depreciations	687
Summary	693
3 Fixed Exchange Rate Systems	694
Cooperative and Noncooperative Adjustments to Interest Rates	694
<i>Cooperative and Noncooperative Adjustments to Exchange Rates</i>	697
APPLICATION The Gold Standard	699
4 International Monetary Experience	701
The Rise and Fall of the Gold Standard	701
Bretton Woods to the Present	703
5 Conclusions	706
Key Points, Key Terms, and Problems	707
CHAPTER 20 Exchange Rate Crises: How Pegs Work and How They Break	711
1 Facts About Exchange Rate Crises	712
What Is an Exchange Rate Crisis?	712
How Costly Are Exchange Rate Crises?	712
SIDE BAR The Political Economy of Crises	716
Summary	717

2 How Pegs Work: The Mechanics of a Fixed Exchange Rate	717	APPLICATION Optimum Currency Areas: Europe Versus the United States	771
Preliminaries and Assumptions	717	Are the OCA Criteria Self-Fulfilling?	774
The Central Bank Balance Sheet	718	HEADLINES Currency Unions and Trade	776
Fixing, Floating, and the Role of Reserves	719	Summary	777
How Reserves Adjust to Maintain the Peg	720	2 The History and Politics of the Euro	777
Graphical Analysis of the Central Bank Balance Sheet	720	A Brief History of Europe	777
Defending the Peg I: Changes in the Level of Money Demand	722	Summary	784
APPLICATION Risk Premiums in Advanced and Emerging Markets	725	3 Eurozone Tensions in Tranquil Times, 1999–2007	785
APPLICATION The Argentine Convertibility Plan Before the Tequila Crisis	727	The European Central Bank	785
Defending the Peg II: Changes in the Composition of Money Supply	729	The Rules of the Club	789
APPLICATION The Argentine Convertibility Plan After the Tequila Crisis	734	Sticking to the Rules	792
The Central Bank Balance Sheet and the Financial System	736	4 The Eurozone in Crisis, 2008–13	794
SIDE BAR The Great Reserve Accumulation in Emerging Markets	738	5 Conclusions: Assessing the Euro	801
Summary	740	Key Points, Key Terms, and Problems	804
3 How Pegs Break I: Inconsistent Fiscal Policies	741	CHAPTER 22 Topics in International (online only) Macroeconomics	22-1
The Basic Problem: Fiscal Dominance	741	1 Exchange Rates in the Long Run: Deviations from Purchasing Power Parity	22-2
A Simple Model	742	Limits to Arbitrage	22-2
APPLICATION The Peruvian Crisis of 1986	745	APPLICATION It's Not Just the Burgers That Are Cheap	22-5
Summary	748	Nontraded Goods and the Balassa–Samuelson Model	22-6
4 How Pegs Break II: Contingent Monetary Policies	748	Overvaluations, Undervaluations, and Productivity Growth: Forecasting Implications for Real and Nominal Exchange Rates	22-8
The Basic Problem: Contingent Commitment	749	APPLICATION Real Exchange Rates in Emerging Markets	22-10
A Simple Model	749	Conclusion	22-12
APPLICATION The Man Who Broke the Bank of England	754	2 Exchange Rates in the Short Run: Deviations from Uncovered Interest Parity	22-12
Summary	755	APPLICATION The Carry Trade	22-12
5 Conclusions	756	APPLICATION Peso Problems	22-15
Can We Prevent Crises?	756	The Efficient Markets Hypothesis	22-17
Key Points, Key Terms, and Problems	758	Limits to Arbitrage	22-19
CHAPTER 21 The Euro: Economics and Politics	763	Conclusion	22-22
1 The Economics of the Euro	766	3 Debt and Default	22-23
The Theory of Optimum Currency Areas	766	A Few Peculiar Facts About Sovereign Debt	22-24
Simple Optimum Currency Area Criteria	767	A Model of Default, Part One: The Probability of Default	22-25
What's the Difference Between a Fixed Exchange Rate and a Currency Union?	768		
Other Optimum Currency Area Criteria	769		

APPLICATION Is There Profit in Lending to Developing Countries?	22-30
A Model of Default, Part Two: Loan Supply and Demand	22-31
APPLICATION The Costs of Default	22-34
Conclusion	22-36
APPLICATION The Argentina Crisis of 2001–02	22-38

4 Case Study: The Global Macroeconomy and the Global Financial Crisis	22-40
Backdrop to the Crisis	22-41
Panic and the Great Recession	22-46
Conclusion: Lessons for Macroeconomics	22-55
Key Points, Key Terms, and Problems	22-56
Index	I-1
