|----------|--|-----------|
| <b>1</b> | <b>Introduction .....</b>  | <b>1</b>  |
| 1.1      | The Aim of the Work and Its Challenges.....                          | 2         |
| 1.2      | The Procedures of the Work .....                                     | 3         |
| <b>2</b> | <b>Literature Review .....</b>                                       | <b>4</b>  |
| 2.1      | Linear Low-Density Polyethylene (LLDPE) .....                        | 4         |
| 2.2      | LLDPE Stretch Wrapping Film .....                                    | 5         |
| 2.2.1    | Blown Film Process.....  | 6         |
| 2.2.2    | Cast Film Process .....  | 7         |
| 2.3      | Performance Formula of Stretch Film .....                            | 9         |
| 2.4      | Review of Properties of Films Produced in Different Conditions ..... | 10        |
| <b>3</b> | <b>Material and Experimental Setup .....</b>                         | <b>21</b> |
| 3.1      | Material .....   | 21        |
| 3.2      | Film Manufacturing Setup .....                                       | 22        |
| 3.3      | Rheology Test.....   | 25        |
| 3.3.1    | High-Pressure Capillary Rheometer.....                               | 25        |
| 3.3.2    | Plate-Plate Rheometer.....   | 25        |
| 3.4      | Mechanical Test.....   | 25        |
| 3.4.1    | Highlighter Test .....   | 26        |
| 3.4.2    | Tensile Test.....  | 27        |
| 3.4.3    | Impact Tensile Tests .....   | 27        |
| 3.5      | Optical Test.....  | 27        |
| 3.5.1    | Reflection .....   | 27        |
| 3.5.2    | Transmission.....  | 28        |
| 3.6      | Morphology .....   | 28        |
| 3.6.1    | Scanning Electron Microscope (SEM).....                              | 28        |
| 3.6.2    | Atomic Force Microscopy (AFM) .....                                  | 29        |
| 3.7      | Crystallinity.....   | 30        |

|          |  |           |
|----------|--|-----------|
| 3.7.1    | Differential Scanning Calorimetry (DSC) .....                                  | 30        |
| 3.7.2    | 1D X-ray Diffraction .....   | 31        |
| 3.8      | Orientation .....  | 31        |
| 3.8.1    | Shrinkage Test.....  | 31        |
| 3.8.2    | 2D Wide Angle X-ray Scattering (WAXD).....                                     | 31        |
| 3.8.3    | Polarized Fourier Transform Infrared Spectroscopy (FTIR).....                  | 32        |
| 3.9      | Study on Molecular Degradation .....   | 32        |
| 3.9.1    | Melt Flow Index (MFI) .....  | 32        |
| 3.9.2    | High-Temperature Gel Permeation Chromatography (HT-GPC) .                      | 33        |
| <b>4</b> | <b>Preliminary Examinations and Results .....</b>                              | <b>34</b> |
| 4.1      | Evaluation of the Sharkskin during the Film Process.....                       | 35        |
| 4.2      | Evaluation and Prediction of Gross Melt Fracture during the Film Process ..... | 39        |
| <b>5</b> | <b>Main Examinations and Results .....</b>                                     | <b>45</b> |
| 5.1      | Film Process Conditions .....  | 45        |
| 5.1.1    | Speed Parameter in the Film Manufacturing .....                                | 47        |
| 5.1.2    | Air-gap Parameter in the Film Manufacturing .....                              | 49        |
| 5.1.3    | Frost-line Parameter in the Film Manufacturing .....                           | 50        |
| 5.1.4    | Film Thickness Parameter in the Film Manufacturing .....                       | 50        |
| 5.2      | Mechanical Properties .....  | 51        |
| 5.2.1    | Highlighter Test.....  | 51        |
| 5.2.2    | Tensile Tests and Impact Tensile Tests .....                                   | 57        |
| 5.3      | Optical Properties .....   | 60        |
| 5.3.1    | Transmission Test .....  | 61        |
| 5.3.2    | Reflection Test.....   | 62        |
| 5.4      | Surface Morphology .....   | 63        |
| 5.4.1    | Scanning Electron Microscope (SEM) .....                                       | 63        |
| 5.4.2    | Atomic Force Microscopy (AFM).....   | 69        |
| 5.5      | Study on Crystallinity .....   | 79        |

|   |   |            |
|---|---|------------|
| 5.5.1                                       | Differential Scanning Calorimetry (DSC).....                                  | 79         |
| 5.5.2                                       | Wide-Angle X-Ray Scattering.....  | 82         |
| 5.6   | Calculation of Polymer Chain Orientation .....                                | 87         |
| 5.6.1                                       | 2D Wide Angle X-ray Scattering (WAXS).....                                    | 87         |
| 5.6.2                                       | Shrinkage Test.....   | 89         |
| 5.6.3                                       | Polarized Fourier Transform Infrared Spectroscopy (FTIR) .....                | 91         |
| 5.7   | Evaluating Degradations of the Polymer Chains.....                            | 96         |
| 5.7.1                                       | Evaluating Molecular Degradation by Melt Flow Index (MFI) .....               | 96         |
| 5.7.2                                       | Evaluating Molecular Degradation by Gel Permeation Chromatography (GPC) ..... | 97         |
| <b>6</b>                                    | <b>Conclusions and Prospects .....</b>  | <b>99</b>  |
| <b>7</b>                                    | <b>Environmental Conservation.....</b>  | <b>102</b> |
| 7.1   | Oxo-Biodegradable Plastics Are Safe or Harmful? .....                         | 104        |
| 7.2   | Poly Hydroxy Alcanoates (PHA) .....   | 105        |
| 7.3   | Polylactic Acid (PLA) and Investigation on PLA Film .....                     | 106        |
| 7.3.1                                       | Materials .....   | 108        |
| 7.3.2                                       | Compositions of PLA/PMMA Blends and Study on their Rheology .....             | 108        |
| 7.3.3                                       | Film Stretching Conditions and Study on the Properties of the Films .....     | 114        |
| 7.4   | Conclusions and Prospect of PLA Blend .....                                   | 120        |
| <b>References .....</b>                     | <b>122</b>  |            |
