
Table of Contents

| | |
|--|------------|
| 1. Introduction | 1 |
| 1.1 Photochemistry in organic synthesis..... | 1 |
| 1.2 Nickel Catalyzed Cross-coupling Reactions..... | 8 |
| 1.3 Nickel metallaphotocatalysis..... | 15 |
| 1.4 Visible-light-induced, photocatalyst-free and nickel-catalyzed cross-coupling reactions..... | 20 |
| 2. Results and Discussion | 25 |
| 2.1 Oxyarylation of β,γ -unsaturated oximes via the combination of photoredox-mediated HAT and nickel catalysis..... | 25 |
| 2.2 Photoinduced, nickel-catalyzed amidoarylation of unactivated alkenes without an external photocatalyst..... | 37 |
| 3. Summary | 65 |
| 4. Outlook | 67 |
| 5. Experimental Details and Data | 69 |
| 3.1. General Information..... | 69 |
| 3.2. Oxyarylation of β,γ -unsaturated oximes via the combination of photoredox-mediated HAT and nickel catalysis..... | 70 |
| 3.3 Compound Characterization Data..... | 74 |
| 3.4 Photoinduced Nickel-catalyzed Amidoarylation of Unactivated Alkenes without External Photocatalyst..... | 90 |
| 3.5 Compound Characterization Data..... | 93 |
| 6. Abbreviations | 129 |
| 7. References | 131 |
