Acknowledgments vii
Preface ix

1 Wikipedia's Pillars and the Reality They Construct 1
Introduction 1
Wikipedia Is the *Encyclopedia 2*
Neutrality as the Language of Representation 5
Openness as an Ethic and Ideology 7
Wikipedia Is a Community 10
Wikipedia Has No Firm Rules 11
No Rules, But Lots of Hierarchy 12
Wikipedia as Cultural Hegemony 13
An archaeological Approach to Wikipedia 14

2 What Counts as Information: The Construction of Reliability and Verifiability 22
Introduction 22
Problematic Information 23
An Assemblage of Policies 24
Reliability 26
Neutrality 29
Verifiability 32
Distributed Information Vetting 35
Print Culture as Exclusionary Epistemology 37
Wikipedia as Epistemology in Process 39
Implications for Public Knowledge 40

3 What Counts as Knowledge: Notability, Knowledge Gaps, and Exclusionary Practices 46
Introduction 46

Everything Cannot Be Everything: Defining through Exclusion 49
What Wikipedia Is Not 51
Notability: A (Messy) Recipe for Inclusion 53
Notability and the Case of Clarice Phelps 54
Beyond Policies: Exclusion through Other Means 59
Amplification and the "Funneling" of Biases in Wikipedia 61
Unequal Access to Sources 64
Who Really Decides and Why? 66

4 How Wikipedia Decides on Who Gets to Contribute: Wikipedia Community and Engagement 71
Introduction 71
Exclusion in the Wikipedia Community 74
Gatekeeping Newcomers 74
Overt Harassment 76
Passive vs. Active Inclusion 79
Inclusion Concerns at Its Core 82
Homogenous Culture-of-Use 82
Be Bold 83
Assume Good Faith 84
Working on Inclusion with Wikipedia Community Initiatives 85

5 The Reality That Shapes Wikipedia 89
The Realities of Reliability, Exclusion, and Community 91
Wikipedia Remains the Last Best Place on the Internet 94
Mending Wikipedia's Representation Problems 98
Limiting Gatekeeping and Gatekeeper Influence 101
Stronger Commitment to Diverse Knowledge 104
Knowledge Production and Representation Requires Constant Revolution 105
Wikipedia's Greatest Potential Is Change 105
