About the Author	.vii
Introduction: The History of <i>The New Art and Science of Teaching</i>	1
The Research Supporting the Model	2
The Major Features of <i>The New Art and Science of Teaching</i>	5
The Old and New Art and Science of Teaching	8
A Framework for Change	9
1 Providing and Communicating Clear Learning Goals	11
Element 1: Providing Scales and Rubrics	11
Element 2: Tracking Student Progress	14
Element 3: Celebrating Success	15
Planning	16
Implications for Change	17
2 Using Assessments	21
Element 4: Using Informal Assessments of the Whole Class	21
Element 5: Using Formal Assessments of Individual Students	22
Planning	25
Implications for Change	26
3 Conducting Direct Instruction Lessons	29
Element 6: Chunking Content	30
Element 7: Processing Content	31
Element 8: Recording and Representing Content	32
Planning	33
Implications for Change	34
4 Conducting Practicing and Deepening Lessons	37
Element 9: Using Structured Practice Sessions	38
Element 10: Examining Similarities and Differences	39
Element 11: Examining Errors in Reasoning	41
Planning	42
Implications for Change	43
5 Conducting Knowledge Application Lessons	47
Element 12: Engaging Students in Cognitively Complex Tasks	47
Element 13: Providing Resources and Guidance	49
Element 14: Generating and Defending Claims	50

	Planning	51
	Implications for Change	51
6	Using Strategies That Appear in All Types of Lessons	53
	Element 15: Previewing Strategies	54
	Element 16: Highlighting Critical Information	55
	Element 17: Reviewing Content	56
	Element 18: Revising Knowledge	58
	Element 19: Reflecting on Learning	59
	Element 20: Assigning Purposeful Homework	60
	Element 21: Elaborating on Information	61
	Element 22: Organizing Students to Interact	61
	Planning	63
	Implications for Change	64
7	Using Engagement Strategies	65
	Element 23: Noticing and Reacting When Students Are Not Engaged	65
	Element 24: Increasing Response Rates	66
	Element 25: Using Physical Movement	68
	Element 26: Maintaining a Lively Pace	69
	Element 27: Demonstrating Intensity and Enthusiasm	69
	Element 28: Presenting Unusual Information	71
	Element 29: Using Friendly Controversy	72
	Element 30: Using Academic Games	73
	Element 31: Providing Opportunities for Students to Talk About Themselves.	74
	Element 32: Motivating and Inspiring Students.	75
	Planning	76
	Implications for Change	77
8	Implementing Rules and Procedures.	79
	Element 33: Establishing Rules and Procedures	79
	Element 34: Organizing the Physical Layout of the Classroom	81
	Element 35: Demonstrating Withitness	83
	Element 36: Acknowledging Adherence to Rules and Procedures	84
	Element 37: Acknowledging Lack of Adherence to Rules and Procedures.	85
	Planning	86
	Implications for Change	86
9	Building Relationships	89
	Element 38: Using Verbal and Nonverbal Behaviors That Indicate Affection for Students	89
	Element 39: Understanding Students' Backgrounds and Interests	91
	Element 40: Displaying Objectivity and Control	92
	Planning	94
	Implications for Change	94
10	Communicating High Expectations	97
	Element 41: Demonstrating Value and Respect for Reluctant Learners	97
	Element 42: Asking In-Depth Questions of Reluctant Learners	99
	Element 43: Probing Incorrect Answers With Reluctant Learners	100
	Planning	101
	Implications for Change	101
11	Making System Changes	103
	Recommendation 1: Create a System That Ensures Teacher Development.	103
	Recommendation 2: Focus on Unit Planning as Opposed to Lesson Planning	107
	Recommendation 3: Use Blended Instruction	110
	Recommendation 4: Ensure a Guaranteed and Viable Curriculum Involving Cognitive and Metacognitive Skills	111
	Recommendation 5: Rely on Classroom Measurement	115

Recommendation 6: Change Report Cards 117
Recommendation 7: Adjust Scheduling to Address the Differential Effectiveness of Teachers 121
Recommendation 8: Gradually Move to a Competency-Based System 122
Conclusion. 124
References and Resources	125
