## *Introduction* 3

### *1 Scientific and Nonscientific Statements of Fact* 7

EXERCISES 17, ANSWERS TO EXERCISES 19, PROBLEMS 21

### *2 Methods of Gathering Scientific Evidence* 24

Naturalistic Observation 25

Retrospective Case Study 27

Sample Study 32

Correlational Study 33

Experiments: Within-subjects and Between-subjects 38

EXERCISES 44, ANSWERS TO EXERCISES 51, PROBLEMS 56

### *3 Evaluating Scientific Evidence: I* 61

Naturalistic Observation: Problems Caused by the Presence of an Observer 64

Retrospective Case Study: Problems of Selection, Distortion, and Memory 72

Sample Study: Problems of Operational Definitions and Generalizing about Populations 76

Correlational Research: The Problem of Subject Variables 82

Within-subjects Experiment: The Problem of "Time-tied" Extraneous Variables	91
Between-subjects Experiment: The Importance of Randomization	94
EXERCISES 97, BRIEFER EXERCISES 97, ANSWERS TO BRIEFER EXERCISES	101
BRIEFER PROBLEMS 106, COMPLETE EXERCISE 109, ANSWERS TO COMPLETE EXERCISE	111
COMPLETE PROBLEMS	114

#### 4 *Evaluating Scientific Evidence: II* 117

Landauer, T. K. & Whiting, J. W. M. "Infantile Stimulation and Adult Stature of Human Males"	118
Rosenhan, D. L. "On Being Sane in Insane Places"	147
QUESTIONS ABOUT "ON BEING SANE IN INSANE PLACES" 162, ANSWERS	163

#### 5 *Reviewing a Body of Literature* 167

Darley, J. M. & Latane, B. "Bystander Intervention in Emergencies: Diffusion of Responsibility"	172
Latane, B. & Darley, J. M. "Group Inhibition of Bystander Intervention in Emergencies"	180
Piliavin, I. M., Rodin, J., & Piliavin, J. A. "Good Samaritanism: An Underground Phenomenon?"	188
Dietrich, R. "The Effect of Group Size on Bystander Intervention in Emergencies"	211

#### *Appendix: Asking Answerable Questions and Finding Scientific Evidence* 219

#### *References* 233
