Chapter 1 Public Health and Nutrition	1
Introduction	1
Public Nutrition	2
Public Health	2
Assessment	2
Policy Development	3
Assurance	3
Public Health Nutrition	3
Surveillance and Monitoring	3
Coordinated Federal Nutrition Monitoring	4
Assessment, Program Planning, and Evaluation	4
Leadership: Public Health and Community Nutritionists	4
Federal Government's Role in Nutrition in Public Health	5
Bill of Rights	6
Legislative Branch of the Federal Government	8
Judicial Branch of the Federal Government	8
Executive Branch of the Federal Government	9
Department of Agriculture	9
Food, Nutrition, and Consumer Services	9
Food Safety	11
Research, Education, and Economics	11
Department of Health and Human Services	11
Centers for Disease Control and Prevention	12
Food and Drug Administration	13
Indian Health Service	13
Administration for Community Living	15
National Institutes of Health	15
Nutrition in Public Health: Prospective	15
Conclusion	17
Acronyms	17
Appendix 1.1	17
National Health Interview Survey	17
Behavioral Risk Factor Surveillance System	18
Youth Risk Behavior Surveillance System	19
National Health and Nutrition Examination Survey	20
NHANES Background	20
NHANES Methodology	20
NHANES Dietary Measures	21
References	22

Chapter 2	Preventing Disease or Promoting Health?	23
	Introduction	23
	Defining Health	24
	History of Public Health: A Brief Review	24
	Disease Prevention	26
	Current Health Behaviors of the US Adult Population	27
	Disease Promotion	28
	History of Health Promotion	28
	Roles of Health Promotion	29
	Toward Improved Health Promotion	30
	Examples of Health Promotion Activities	31
	Cardiovascular Disease	31
	Tobacco and Sugar Control Measures	31
	Lifestyle Compared to Medication Interventions	32
	Would a Health Promotion Model Neglect the Reality of Disease?	32
	Health Promotion: Politics and Public Policy	33
	Health Promotion and Universal Healthcare	34
	Role of the Individual in Public Health	34
	New Definition of Public Health's Role	35
	Health Promotion Is Three-Dimensional	35
	Conclusion	35
	Acronyms	36
	References	38
Chapter 3	Nutritional Epidemiology	41
	Introduction	41
	Dietary Assessment	41
	Observation	41
	Self-Report	42
	Diet Records	43
	24-Hour Dietary Recall	43
	Food Frequency Questionnaires and Checklists	43
	Biomarkers	44
	Improving Diet and Physical Activity Assessment Modalities	44
	Study Designs in Nutritional Epidemiology	44
	Case Reports and Case Series	45
	Ecological or Correlational Studies	46
	Examples of Ecological Studies	47
	Ecological Fallacy	47
	Cross-Sectional or Prevalence Studies	48
	Case–Control Studies	48
	Examples of Case–Control Studies	49
	Cohort Studies	50
	Retrospective Cohort Studies	51
	Prospective Cohort Studies	52
	Meta-Analyses	58
	Controlled Trials	58
	Nonblind, Nonrandomized Controlled Trials	60
	Nonblind, Randomized Clinical Trial	63

Double-Blind, Randomized Controlled Clinical Trials.....	64
USDA'S Agricultural Research Service.....	65
Beltsville Human Nutrition Research Center.....	66
Nutrient Data Laboratory.....	66
Food Surveys Research Group.....	67
Technical Support.....	68
Conclusion.....	68
Acronyms.....	68
References.....	72
Chapter 4 Diet-Related Chronic Disease: Disparities and Programs to Reduce Them.....	77
Introduction.....	77
Common Risk Factors and Prevention.....	78
Leading Diet-Related Chronic Diseases.....	78
General Prevention Guidelines.....	78
Overweight and Obesity: The Common Risk Factor.....	79
Age.....	80
Gender, Race, and Ethnicity.....	80
Socioeconomic Status.....	80
Metabolic Syndrome.....	81
Prevalence of Metabolic Syndrome.....	81
Metabolic Syndrome in Youth.....	82
Federal Efforts Addressing Health Disparities.....	83
Department of Health and Human Services.....	83
Office of Disease Prevention and Health Promotion.....	85
Office of Minority Health.....	85
National Institutes of Health.....	85
Centers for Disease Control and Prevention.....	86
A Close-Up on Diabetes, Cardiovascular Disease, and Cancer.....	88
Diabetes.....	88
Prevalence of Diabetes.....	88
Direct and Indirect Cost of Diabetes.....	88
Diagnostic Criteria.....	89
Prediabetes.....	91
Diabetes Prevention and Treatment.....	91
Diabetes in Children.....	93
Prevalence of Diabetes in Youth and Children.....	94
Rising Incidence of Type 1 Diabetes in Children.....	94
Complications in Diabetes Diagnoses in Children.....	94
Screening Recommendations for Children.....	95
Prevention of Type 2 Diabetes in Children.....	95
Cardiovascular Disease.....	96
Heart Disease.....	96
Prevention of Heart Disease.....	96
Prevention Initiatives.....	97
Community-Based Prevention for Heart Disease.....	100
Hypertension.....	101
Prevalence of Hypertension.....	102
Prevention of Hypertension.....	102
Population-Based Strategies for Hypertension Prevention.....	104

Cancer.....	106
Cancer Prevention.....	106
Cancer Prevention and Fruit and Vegetable Consumption.....	110
Cancer Prevention Programs.....	111
Addressing Health Disparities in Cancer.....	111
Conclusion.....	112
Acronyms.....	112
Appendix 4.1: HHS Strategic Plan for Fiscal Years 2014–2018, Secretary’s Strategic Initiatives, and the Disparities Action Plan.....	114
HHS Strategic Plan, Fiscal Years 2014–2018.....	114
HHS Disparities Action Plan.....	117
Appendix 4.2: NIH.....	119
NIH Institutes.....	119
NIH Centers.....	121
References.....	122
Chapter 5 Weight Control: Challenges and Solutions.....	129
Introduction.....	129
Extent of the Problem.....	129
Defining Overweight and Obesity.....	129
Adults.....	129
Children.....	131
Prevalence of Obesity in the United States.....	131
Obesity Prevalence among Children.....	131
Impact of Socioeconomic Status and Ethnicity on Obesity Prevalence.....	134
Surveys.....	135
National Health and Nutrition Examination Survey.....	135
Behavioral Risk Factor Surveillance System.....	135
Youth BRFSS.....	137
Pediatric Nutrition Surveillance System.....	138
Racial and Ethnic Approaches to Community Health Risk Factor Surveys ...	139
Impact on Public Health.....	139
Costs of Overweight and Obesity.....	139
Globalization and Obesity.....	140
Nutrition Transition and Its Repercussions.....	141
Factors Contributing to the Problem of Obesity.....	142
Environmental Determinants of Overweight and Obesity.....	142
Built Environment.....	142
Economic Environment.....	144
US Agricultural Policies.....	146
Advertising.....	146
Food Environment.....	149
School Food: Federal Programs.....	150
Obesity Prevention.....	157
Dieting: Individual Prevention.....	159
Proposed Obesity Prevention Strategies and Policies.....	159
Regulating Advertising to Children.....	160
Sugar-Sweetened Beverage Taxes and Portion Size Limitations.....	163
Menu Labeling.....	164
Nutrition Facts Labeling.....	165

School-Based Programs	166
School Wellness Policies	166
Healthy Schools Programs.....	167
Federal Programs and Resources for Obesity Prevention.....	167
Obama Administration: Let's Move!.....	167
USDA Initiatives.....	168
CDC Initiatives	169
NIH Initiatives	171
Federal Resources for Facilitating Obesity Prevention Programs and Policies.....	173
Workplace Wellness Programs.....	174
Conclusion	176
Acronyms	176
References	179
Chapter 6 Special Populations	189
Introduction	189
Lactating Mothers and Breastfed Infants.....	189
Benefits of Breastfeeding.....	189
Physiologic Benefits.....	190
Additional Benefits	190
Breastfeeding Trends.....	191
Breastfeeding Surveillance.....	191
Ross Mothers Survey	192
National Immunization Survey.....	192
Pregnancy Risk Assessment Monitoring System.....	192
Sociodemographic Factors of Lactating Mothers	193
Overcoming Barriers to Breastfeeding.....	195
Social Support.....	196
Education	196
Maternity Care Practices	197
Baby-Friendly Hospital Initiative	197
Legislative Efforts: State and Federal	201
Federal Breastfeeding Laws	201
Federal Breastfeeding Policy.....	204
Workplace Initiatives.....	205
People Living with HIV/AIDS	208
Nutrition and HIV/AIDS	209
Inadequate Intake	210
Altered Absorption	210
Altered Nutrient Metabolism.....	210
AIDS Wasting and Lipodystrophy	210
Nutritional Care and HIV/AIDS.....	211
Screening and Referral	211
Medical Nutrition Therapy	211
Legislative and Community Support.....	213
The Ryan White HIV/AIDS Treatment Extension Act	213
Affordable Care Act	213
Jail and Prison Inmates	214
Federal Detention	215

State Detention	215
Prison Health and Safety Rights and Standards	215
Demographic Trends in Correctional Populations	216
Race and Ethnicity	216
Gender	216
Aging Inmates	217
Chronic Disease Burden	217
Food Service in the Prison Systems	217
Federal System	217
State Systems	218
Corrections Dietitians	221
Dietary Guidelines and Correctional Menus	221
Correctional Health as Public Health	222
Managing Nutrition-Related Chronic Diseases	224
Health Promotion through Correctional Food Access Policies	224
Nutrition Education	225
Resources and Professional Affiliations	225
Conclusion	226
Acronyms	226
Appendix 6.1 The Innocenti Declaration on the Protection, Promotion, and Support of Breastfeeding	228
Appendix 6.2 United States Breastfeeding Committee	229
Strategic Plan: 2009–2013	229
Appendix 6.3 State Breastfeeding Statutes	230
References	231
Chapter 7 Cultural Competency	237
Introduction	237
Cultural Competency	237
Health Disparities and the Role of Cultural Competency	238
Cultural Competency Influencers	239
Demographic Changes	239
Health Literacy	240
Age	242
Sexual Orientation, Gender Identity, and Gender Expression	242
Cultural Competency and Healthcare Organizations	243
Policy	244
Marketplace Factors	244
Accreditation	246
Patient-Centered Care	246
Techniques and Strategies for Achieving Cultural Competence	247
Low-Literacy Nutrition Education Materials	249
Target Audience	250
Conduct Target Audience Research	250
Develop a Concept for the Product	250
Develop Content and Visuals	250
Pretest and Revise Draft Materials	251
Foodways of Some Ethnic/Racial Groups in the United States	251
African Americans	252
Teaching Implications	253

Hispanics	254
Mexican Americans.....	254
Teaching Implications.....	255
Puerto Ricans	256
Teaching Implications.....	257
Cuban Americans	257
Teaching Implications.....	259
Dominican Americans.....	259
Teaching Implications.....	260
Asian Americans	260
Vietnamese	261
Teaching Implications.....	262
Hmong	263
Teaching Implications.....	264
Conclusion	264
Acronyms	264
References	266
Chapter 8 Food and Nutrition Policies.....	271
Introduction	271
Making Policy	271
Definitions	271
Types of Food and Nutrition Policy.....	272
Informing Policy: An Ecological Approach.....	272
Initiating Policy	273
Case Study: Genesis of a National Nutrition Policy.....	273
Nutrition and Health Policies	274
<i>Dietary Guidelines for Americans</i>	274
Healthy People.....	276
Origins of Healthy People: 1979–1990.....	276
Healthy People 2000.....	276
Healthy People 2010	277
Healthy People 2020.....	277
Federal Action Steps.....	277
Let’s Move!	280
State and Local Action Steps.....	283
HealthierUS School Challenge	284
Local Wellness Policies in Schools	287
Micronutrient Fortification and Labeling.....	289
Micronutrient Fortification: Background	289
Iodization of Salt.....	289
Fortification of Milk with Vitamins D and A.....	289
Enrichment and Fortification of Grain Products	289
Fluoridation of Water.....	290
Food Allergen Labeling.....	291
Gluten-Free Labeling.....	292
Labeling of Genetically Modified Organisms.....	292
Nutrition Labeling	294
Hunger, Agriculture, and Public Health.....	296
Policy Regarding Domestic Hunger	296

First Half of the Twentieth Century.....	296
Second Half of the Twentieth Century	298
US Farm Policy and Health.....	299
Background.....	299
Health Implications of Current US Farm Policy	302
Social Implications of Current US Farm Policy	304
Agricultural Policy Changes	305
US Farm Bill.....	305
Proposals for the Next US Farm Bill.....	308
Taking Action.....	309
Advocacy Goals.....	310
Case Study: Promoting the Child Nutrition Promotion and School Lunch Protection Act.....	310
Conclusion.....	311
Acronyms	312
