

Contents

Introduction xix

Chapter 1 The Shoulder 1

- Anterior Approach to the Clavicle 3
- Minimally Invasive Approach to Clavicle 6
- Anterior Approach to the Shoulder Joint 8
- Applied Surgical Anatomy of the Anterior Approach to the Shoulder Joint 19
- Anterolateral Approach to the Acromioclavicular Joint and Subacromial Space 27
- Lateral Approach to the Proximal Humerus 31
- Minimally Invasive Lateral Approach to the Proximal Humerus 35
- Minimally Invasive Anterolateral Approach to the Proximal Humerus for IM Nailing 37
- Applied Surgical Anatomy of the Anterolateral and Lateral Approaches 39
- Posterior Approach to the Scapula and Shoulder Joint 46
- Applied Surgical Anatomy of the Posterior Approach to the Scapula and Shoulder Joint 56
- Arthroscopic Posterior and Anterior Approaches to the Shoulder 60

Chapter 2 The Humerus 73

- Anterior Approach to the Humeral Shaft 75
- Minimally Invasive Anterior Approach to the Humeral Shaft 81
- Posterior Approach to the Humerus 84
- Anterolateral Approach to the Distal Humerus 92
- Lateral Approach to the Distal Humerus 96
- Medial Approach to the Distal Humerus 100
- Applied Surgical Anatomy of the Arm 102

Chapter 3 The Elbow 113

- Posterior Approach to the Elbow with Olecranon Osteotomy 115
- Posterior Approach to the Elbow without Olecranon Osteotomy 120
- Posterior Triceps-On Approach to the Distal Humerus 123
- Anteromedial Approach to the Elbow 125
- Posteromedial Approach to the Coronoid Process of the Ulna 131
- Anterolateral Approach to the Elbow 134
- Anterior Approach to the Cubital Fossa 140
- Posterolateral Approach to the Radial Head 146
- Applied Surgical Anatomy 150

Chapter 4 The Forearm 157

- Anterior Approach to the Radius 159
- Applied Surgical Anatomy of the Anterior Compartment of the Forearm 166
- Exposure of the Shaft of the Ulna 171
- Applied Surgical Anatomy of the Approach to the Ulna 175
- Posterior Approach to the Radius 176
- Applied Surgical Anatomy of the Posterior Approach to the Radius 181

APPROACHES FOR THE TREATMENT OF FOREARM COMPARTMENT SYNDROME 185

- Anterior Approaches for Forearm Flexor Compartment Decompression 186
- Posterior Approach for Forearm Compartment Syndrome Decompression 191
- Ulnar Approach for Forearm Compartment Syndrome Decompression 192

Chapter 5 The Wrist and Hand 197

- Dorsal Approach to the Wrist 200
- Applied Surgical Anatomy of the Dorsal Approach to the Wrist 208
- Volar Approach to the Distal Radius 212
- Volar Approach to the Carpal Tunnel and Wrist 216
- Volar Approach to the Ulnar Nerve 223
- Applied Surgical Anatomy of the Volar Aspect of the Wrist 227
- Volar Approach to the Flexor Tendons 235
- Midlateral Approach to the Flexor Sheaths of the Proximal and Middle Phalanges 240
- Dorsal Approach to Phalanges and Interphalangeal Joints 242
- Applied Surgical Anatomy of the Finger Flexor Tendons 245
- Volar Approach to the Scaphoid 248
- Dorsolateral Approach to the Scaphoid 251
- Drainage of Pus in the Hand 254
- Anatomy of the Web Space of the Fingers 258
- Anatomy of the Web Space of the Thumb 260
- Tendon Sheath Infection 260
- Deep Palmar Space Infection 262
- Drainage of the Medial (Midpalmar) Space 263
- Drainage of the Lateral (Thenar) Space 265
- Applied Surgical Anatomy of the Deep Palmar Space 268
- Drainage of the Radial Bursa 268
- Drainage of the Ulnar Bursa 271
- Anatomy of the Hand 272

Chapter 6 The Spine 277

LUMBAR SPINE 280

- Posterior Approach to the Lumbar Spine 280
- Minimally Invasive Posterior Approach to the Lumbar Spine 284
- Applied Surgical Anatomy of the Posterior Approach to the Lumbar Spine 287
- Anterior (Transperitoneal and Retroperitoneal) Approach to the Lumbar Spine 290
- Anterior Retroperitoneal Approach to the Lumbar Spine 297
- Applied Surgical Anatomy of the Anterior Approach to the Lumbar Spine 300
- Anterolateral (Retroperitoneal) Approach to the Lumbar Spine 305

CERVICAL SPINE 313

- Posterior Approach to the Subaxial Cervical Spine 313
- Applied Surgical Anatomy of the Posterior Approach to the Subaxial Cervical Spine 319
- Posterior Approach to the C1-2 Vertebral Space 325
- Applied Surgical Anatomy of the Posterior Approach to the C1-2 Vertebral Space 329

Contents

Anterior Approach to the Cervical Spine 330
Applied Surgical Anatomy of the Anterior Approach to the Cervical Spine 336

THORACIC SPINE 341

Posterolateral (Costotransversectomy) Approach to the Thoracic Spine 341
Anterior (Transthoracic) Approach to the Thoracic Spine 345

SPECIALIZED APPROACHES 354

Posterior Approach to the Thoracic and Lumbar Spines for Scoliosis 354
Applied Surgical Anatomy of the Posterior Approach to the Thoracic and Lumbar Spines 359
Approach to the Posterior Lateral Thorax for Excision of Ribs 365
Approaches for Fixation of Rib Fractures 368
Muscle-Sparing Approach for Posterolateral Rib Plating 368
Axillary Approach for Rib Plating 371

Chapter 7 Pelvis and Acetabulum 375

Pelvis 377
Acetabulum 377
Anterior Approach to the Iliac Crest for Bone Graft 378
Posterior Approach to the Iliac Crest for Bone Graft 380
Anterior Approach to the Pubic Symphysis 383
Anterior Approach to the Sacroiliac Joint 385
Posterior Approach to the Sacroiliac Joint 389
Applied Surgical Anatomy of the Bony Pelvis 393
Ilioinguinal Approach to the Acetabulum 395
Applied Surgical Anatomy of the Ilioinguinal Approach to the Acetabulum 404
Anterior Intrapelvic Approach to the Acetabulum 412
Applied Surgical Anatomy of the Anterior Intrapelvic Approach to the Acetabulum 418
Posterior Approach to the Acetabulum 421

Chapter 8 The Hip 431

Anterior Approach to the Hip 434
Minimally Invasive Anterior Approach to the Hip 448
Anterolateral Approach to the Hip 453
Lateral Approach to the Hip 463
Applied Surgical Anatomy of the Anterior, Lateral, and Anterolateral Approaches to the Hip 467
Posterior Approach to the Hip 474
Applied Surgical Anatomy of the Posterior Approaches to the Hip and the Acetabulum 481
Medial Approach to the Hip 486
Applied Surgical Anatomy of the Medial Approach 491

Chapter 9 The Femur 495

Lateral Approach 497
Posterolateral Approach 501
Anteromedial Approach to the Distal Two-thirds of the Femur 505
Posterior Approach 509
Minimally Invasive Approach to the Distal Femur 514
Approaches to the Distal Femoral Condyles 517
Anterior Approach to the Distal Femoral Condyles (Swashbuckler Approach) 517
Medial Approach to the Medial Femoral Condyle 519

- Lateral Approach to the Distal Femoral Condyle (Gerdy Tubercle Osteotomy Approach) 523
- Minimally Invasive Approach to the Proximal Femur for Intramedullary Nailing 526
- Minimally Invasive Approach for Retrograde Intramedullary Nailing of the Femur 534
- Applied Surgical Anatomy of the Thigh 536

Chapter 10 The Knee 547

- General Principles of Arthroscopy 549
- Arthroscopic Approaches to the Knee 549
- Arthroscopic Exploration of the Knee 552
- Medial Parapatellar Approach 559
- Medial Approach to the Knee and Its Supporting Structures 565
- Applied Surgical Anatomy of the Medial Side of the Knee 575
- Lateral Approach to the Knee and Its Supporting Structures 583
- Applied Surgical Anatomy of the Lateral Side of the Knee 590
- Posterior Approach to the Knee 592
- Applied Surgical Anatomy of the Posterior Approach to the Knee 599

Chapter 11 The Tibia and Fibula 605

- Anterolateral Approach to the Lateral Tibial Plateau 607
- Posteromedial Approach to the Proximal Tibia 611
- Posterolateral Approach to the Tibial Plateau 615
- Posteromedial Approach to the Tibial Plateau 621
- Minimally Invasive Anterolateral Approach to the Proximal Tibia 626
- Anterior Approach to the Tibia 628
- Minimally Invasive Anterior Approach to the Distal Tibia 632
- Posterolateral Approach to the Tibia 634
- Approach to the Fibula 640
- Applied Surgical Anatomy of the Leg 645
- Approaches for Decompression of Lower Leg Compartment Syndrome 649
- Minimally Invasive Approach for Infrapatellar Tibial Nailing 649
- Minimally Invasive Approaches for Suprapatellar Tibial Nailing 654

Chapter 12 The Foot and Ankle 659

ANKLE AND HINDFOOT 663

- Anterior Approach to the Ankle 663
- Anterior and Posterior Approaches to the Medial Malleolus 667
- Approach to the Medial Side of the Ankle 673
- Posteromedial Approach to the Ankle 676
- Posterolateral Approach to the Ankle 681
- Lateral Approach to the Lateral Malleolus 684
- Anterolateral Approach to the Ankle and Hindpart of the Foot 687
- Lateral Approach to the Hindpart of the Foot 691
- Lateral Approach to the Posterior Talocalcaneal Joint 696
- Anterolateral Approach to the Talar Neck 699
- Anteromedial Approach to the Talar Neck 703
- Lateral Approach to the Calcaneus 705
- Hindfoot Nailing for Subtalar and Ankle Joint Fusion (Plantar Approach) 707
- Applied Surgical Anatomy of the Approaches to the Ankle 711
- Applied Surgical Anatomy of the Approaches to the Hindfoot 718

Contents

MIDFOOT 721

Dorsal Approaches to the Middle Part of the Foot 721

Approach to the Navicular 724

Approach to the Cuboid 726

Dorsomedial Approach to the Lisfranc Joint 729

Dorsolateral Approach to the Lisfranc Joint 731

FOREFOOT 733

Dorsomedial Approach to the First Metatarsal 733

Dorsal Approaches to the Metatarsophalangeal Joint of the Great Toe 735

Dorsomedial Approaches to the Metatarsophalangeal Joint of the Great Toe 737

Dorsolateral Approach for Bunion Surgery 739

Dorsal Approach to the Metatarsals and Metatarsophalangeal Joints of the Second, Third, Fourth, and Fifth Toes 742

Applied Surgical Anatomy of the Foot 745

Chapter 13 Approaches for External Fixation 749

The Humerus 750

The Radius, Ulna, and Wrist 752

The Pelvis 756

The Femur 761

The Tibia and Fibula 762

The Ankle and Foot 763

Index 765
