

CONTENTS

Contributing Authors	vii
Foreword	xv
Preface	xvii
I. Critical Care and Intensive Care Unit Monitoring	1
1 Hemodynamic Monitoring in the Intensive Care Unit	3
2 Overview of the Management of Shock	12
3 Principles of Mechanical Ventilation	24
4 Acute Respiratory Distress Syndrome	36
II. Acute Kidney Injury in the Intensive Care Unit	45
5 Definitions and Etiologies of Acute Kidney Injury	47
6 Epidemiology of Acute Kidney Injury	58
7 Acute Kidney Injury and Non–Acute Kidney Injury Risk Scores in the Intensive Care Unit	67
8 Prevention of Acute Kidney Injury	81
9 Treatment of Acute Kidney Injury	90
III. Drugs and Blood Products in the Intensive Care Unit Setting ..	101
10 Resuscitation Fluids: Which One, How Much, and How to Assess	103
11 Transfusion Medicine in the Intensive Care Unit	118
12 Diuretics and Acute Kidney Injury	131
13 Vasoactive Medications	145
14 Anticoagulants in the Intensive Care Unit	159
15 The Metabolic Management and Nutrition of Acute Kidney Injury	169

IV Special Labs	181
16 Biomarkers of Acute Kidney Injury	183
17 Biomarkers of Critical Illness	192
V Imaging in the Intensive Care Unit	199
18 Ultrasound Imaging in the Intensive Care Unit	201
VI Electrolytes and Acid-Base Disorders	215
19 Sodium Homeostasis and Hyponatremia in the Intensive Care Unit	217
20 Hypernatremia in the Intensive Care Unit	230
21 Dyskalemias in the Intensive Care Unit	236
22 Calcium Management in the Intensive Care Unit	245
23 Phosphorus Management in the Intensive Care Unit	254
24 Magnesium Management in the Intensive Care Unit	264
25 Acid-Base Management in the Intensive Care Unit	273
VII Poisonings and Intoxications	281
26 Drug Dosing in Acute Kidney Injury	283
27 Drugs and Antidotes	292
28 Extracorporeal Therapy for Poisonings and Intoxications	309
VIII Extracorporeal Therapies	329
29 Vascular Access for Kidney Replacement Therapy	331
30 Dosing of Kidney Replacement Therapy	340
31 Timing of Kidney Replacement Therapy	348
32 Modality Selection of Kidney Replacement Therapy	360
33 Anticoagulation and Kidney Replacement Therapy	375
34 Blood Purification in the Intensive Care Unit	387
35 Extracorporeal Membrane Oxygenation in the Intensive Care Unit	398
IX Specific Conditions	413
36 Sepsis-Associated Acute Kidney Injury	415
37 Diabetic Ketoacidosis	427

38	Obstetric Acute Kidney Injury	436
39	Postcardiac Surgery Acute Kidney Injury	444
40	Cardiorenal Syndrome	453
41	Left Ventricular Assist Devices in the Intensive Care Unit	463
42	Acute Kidney Injury in Liver Disease	473
43	Abdominal Compartment Syndrome	483
44	Contrast-Associated Acute Kidney Injury	491
45	Hypertensive Emergency	504
46	Acute Kidney Injury in Burns Patients	520
47	Trauma-Associated Acute Kidney Injury	528
48	Neurologic Emergencies in the Intensive Care Unit	537
49	Rhabdomyolysis	550
50	Onconeurology Emergencies	561
51	Caring for Patients After Acute Kidney Injury	575
X	Organ Transplantation	587
52	Perioperative Management of Kidney Transplant Recipients	589
53	Acute Kidney Injury in Patients with Kidney Transplants	597
54	Infectious Complications in Patients with Kidney Transplant	606
55	Care for the Brain-Dead Organ Donor	613
XI	Ethics/Palliative Care	625
56	Shared Decision-Making/Time-Limited Trials of Kidney Replacement Therapy	627
	Index	639
