

Contents

1. Introduction	1
Background to the Study	<i>1</i>
Plan and Main Results of the Study	<i>6</i>
2. The Theory of Macroeconomic Interdependence	16
Short-run Macroeconomic Interdependence	<i>17</i>
Intertemporal Linkage	<i>28</i>
The Supply Side	<i>38</i>
Summary	<i>40</i>
3. A Dynamic General Equilibrium Model of the World Economy	41
History, Methodology, and Overview	<i>42</i>
The Model	<i>45</i>
Calibration and Model Solution	<i>58</i>
Summary	<i>64</i>
4. International Transmission of Shocks and Policy Changes	65
Fiscal Policy Transmission	<i>66</i>
Monetary Policy Transmission	<i>80</i>
OPEC Oil Price Rise	<i>85</i>
Cessation of Lending to Non-Oil Developing Countries	<i>92</i>
Summary and Comparison with Other Models	<i>93</i>
5. Explaining the World Economy in the 1980s	101
The World Economy, 1978–89	<i>103</i>
Tracking Procedure	<i>110</i>
Tracking Results	<i>110</i>
Summary	<i>117</i>

6. Alternative Policies to Correct Global Trade Imbalances	121
A Model-Generated Senario for 1986–93 122	
The Possibility of a Hard Landing 126	
Global Macroeconomic Repercussions of Alternative Policies to Shrink the U.S. Trade Deficit 134	
U.S. Fiscal Contraction 136	
U.S. Fiscal Adjustment with Foreign Monetary Policy Response 140	
U.S., Japanese, and German Fiscal Adjustment with Monetary Policy Response 140	
A Policy of Forcing Down the Dollar 143	
A U.S. Tariff against Japanese Imports 143	
Summary 147	
7. The Theory of Macroeconomic Policy Coordination	149
Overview of Existing Theoretical Approaches 150	
Illustration of a Static Game 155	
Implications of Adding Dynamics 160	
On the Role of Uncertainty 171	
Summary 171	
Appendix: Solution of the Two-Country Dynamic Model 172	
8. Empirical Analysis of Macroeconomic Policy Coordination	174
Other Studies 175	
Measuring the Gains to Coordination 177	
Two Examples of Cooperation versus Noncooperation 181	
Summary 187	
9. Implications of Macroeconomic Policy Rules for the World Economy	191
Policy Regimes 192	
Results for Key Variables 196	
Summary 199	
10. Conclusions and Lessons for Policy	207
Lessons 207	
Further Work 209	

Appendixes	211
A. The MSG2 Model of the World Economy: Model Listing	211
B. Detailed Simulation Results	221
C. Numerical Solution of Models with and without Strategic Behavior	253
D. Data Sources and Assumptions	263
