1	Impact of Energy Use Segregation on Carbon Emissions: The Role of FDI in Net Importing and Net Exporting Countries	1
	Avik Sinha, Oana M. Driha, Daniel Balsalobre-Lorente, and José María Cantos-Cantos	
1.1	Introduction	2
1.2	Literature Review	4
1.2.1	Economic Growth and Environmental Degradation	4
1.2.2	FDI and Environmental Degradation	6
1.2.3	Energy Use and Environmental Degradation	8
1.2.4	Oil Prices and CO ₂ Emissions	9
1.2.5	Natural Resource Rents and Environmental Degradation	10
1.3	Mathematical Model and Data	12
1.4	Results and Analysis	13
1.5	Concluding Remarks	23
	References	25
2	The Impact of Oil Prices on CO₂ Emissions in China: A Wavelet Coherence Approach	31
	Faik Bilgili, Erhan Mugaloglu, and Emrah Koçak	
2.1	Introduction	32
2.2	Literature Review	34
2.3	Wavelet Methodology	38
2.3.1	The Continuous Wavelet Transformation	38
2.3.2	Complex Morlet Wavelet	40
2.3.3	Wavelet Coherence and Phase Difference	41
2.4	The Results of Wavelet Coherency and Partial Wavelet Coherency Analyses	42

2.5	Conclusions, Discussion and Some Policy Recommendations	49
	Appendix	51
	References	53
3	The Effect of Internet Use on Air Quality: Evidence from Low-Income Countries	59
	Burcu Ozcan and Esma Gultekin Tarla	
3.1	Introduction	59
3.2	Effects of ICT on Energy Demand and the Environment	61
	3.2.1 Substitution Effects and Dematerialization Process	62
	3.2.2 Compensation Effects (Income Effects) and Rebound Effects	64
3.3	Literature Review	66
3.4	Model and Data	68
3.5	Methodology	70
	3.5.1 Cross-Sectional Dependence Tests	70
	3.5.2 Smith et al. (2004) Panel Unit Root Tests	71
	3.5.3 Westerlund (2008) and Pedroni (1999, 2004) Cointegration Tests	72
	3.5.4 Panel ARDL Estimator of Pesaran et al. (1999)	75
3.6	Empirical Results	76
	3.6.1 Results for Cross-Sectional Dependence and Panel Unit Root Tests	76
3.7	Conclusion and Policy Implication	81
	References	83
4	Optimal Forecast Models for Clean Energy Stock Returns.	89
	Victor Troster, Muhammad Shahbaz, and Demian Nicolás Macedo	
4.1	Introduction	90
4.2	Data and Econometric Methodology	91
4.3	Empirical Analysis	94
4.4	Conclusions	107
	References	107
5	The Causality Between Energy Consumption, Urban Population, Carbon Dioxide Emissions, and Economic Growth	111
	Nuno Carlos Leitão and Daniel Balsalobre-Lorente	
5.1	Introduction	112
5.2	Literature Review	113
5.3	Methodology and Hypotheses	116
5.4	Empirical Results	118
5.5	Conclusions	126
	Appendix	127
	References	128

6	Investigation on the Job Creation Effect of Green Energy in OECD Countries	131
	Mehmet Akif Destek, Ferda Nakipoglu Ozsoy, and Asli Ozpolat	
6.1	Introduction	131
6.2	Literature	136
6.3	Empirical Strategy	139
	6.3.1 Empirical Model and Data	139
	6.3.2 Methodology	140
6.4	Empirical Findings	142
6.5	Conclusions and Policy Implications	145
	References	146
7	Human Capital, Green Energy, and Technological Innovations: Firm-Level Analysis	151
	Muhammad Shujaat Mubarak and Navaz Naghavi	
7.1	Introduction	152
7.2	Literature Review	153
	7.2.1 Green Energy and Human Capital	153
	7.2.2 Technological Innovation in Energy-Human Capital Dyad	155
7.3	Model and Variables	156
	7.3.1 Data	156
	7.3.2 Method	157
7.4	Results and Discussion	158
7.5	Conclusion	160
7.6	Implications	161
7.7	Limitations and Future Research Direction	162
	References	162
8	Contemporary Dimensions of Econometrics of Green Energy: A Review of Literature	165
	Naveed R. Khan, Arsalan Mujahid Ghouri, and Irum Gull	
8.1	Introduction	166
8.2	Energy Efficiency and Innovations	167
8.3	Technical Effect and Advances in Energy Usage	168
8.4	Globalization and Green Energy Dynamics	169
8.5	Green Economy and Clean Energy Technologies	170
8.6	Green Energy Regulation and Environmental Quality	172
8.7	Oil Prices, Energy Shock and Green Energy	173
8.8	Green Energy Modeling and Forecasting	174
8.9	Foreign Direct Investment and Green Energy Demand	175
8.10	Green Energy Usage and Economic Efficiency in Developed and Developing Economies	176
8.11	Governance of Green Energy Consumption, Globalization and Financial Markets	177

8.12	Green Finance, Financial Crisis, Economy and Environment . . .	178
8.13	Employment and Poverty Reduction (Income Inequality) Aspects of Green Energy Production	179
	References	181
9	The Spillover Effect from Oil and Gas Prices: Evidence of Energy Shocks from Diebold and Yilmaz Index	189
	Lucía Ibáñez-Luzón, Festus Victor Bekun, Andrew Adewale Alola, and Daniel Balsalobre-Lorente	
9.1	Introduction	190
9.2	Energy Dynamics in Brief	192
9.2.1	Energy-Related Crises	196
9.2.2	Energy Security of Supply and Market Concentration	197
9.2.3	Global Climate Crisis	198
9.2.4	Green Energy	200
9.2.5	Energy Efficiency and Conservation	200
9.2.6	Clean Energy Sources	201
9.3	Methodological Procedure	204
9.3.1	Data Source	204
9.3.2	Empirical Method	206
9.4	Concluding Remark and Policy Direction	208
	References	209
10	Comparison of Wave Energy and Offshore Wind	211
	Laura Castro-Santos and Félix Puime Guillén	
10.1	Introduction	211
10.2	Methodology	214
10.3	Case of Study	215
10.4	Results	216
10.5	Conclusions	218
	References	219
11	Fresh Insight into the EKC Hypothesis in Nigeria: Accounting for Total Natural Resources Rent	221
	Festus Victor Bekun, Mary Oluwatoyin Agboola, and Udi Joshua	
11.1	Introduction	222
11.2	Literature Review	231
11.3	Data and Methodology Sequence	233
11.4	Empirical Results and Discussion	233
11.5	Conclusion	238
	Appendix	239
	References	240

12	The Importance of Meta-Analysis in the Energy-Growth Nexus; Guidelines for a Complete Implementation	245
	Angeliki N. Menegaki	
12.1	Introduction	245
12.2	Why Is Meta-Analysis Attractive for Energy-Growth Researchers?	247
12.3	Presentation of Meta-Analysis Case Studies in the Energy-Growth Nexus	247
12.3.1	Case Study 1: The Meta-Analysis on the Energy-Growth Nexus by Menegaki (2014)	248
12.3.2	Case Study 2: The Meta-Analysis on Energy-Growth Nexus by Kalimeris et al. (2014)	255
12.4	Concluding Remarks	260
	References	260
13	Renewable Energy—Economic Growth Nexus: Addressing Potential Issues of Endogeneity and the Precision of the Long-Run Relationship	263
	Adwoba Manyeki Bentil and Philip Kofi Adom	
13.1	Introduction	263
13.2	Hydro-generation Sources in Ghana	267
13.3	Method and Data	269
13.3.1	Data Type and Sources	269
13.3.2	Theoretical Framework	269
13.3.3	Empirical Framework	270
13.3.4	Econometric Technique	272
13.3.5	Robustness Checks	274
13.4	Results and Discussions	275
13.4.1	Preliminary Analysis of Data	275
13.4.2	Testing for Cointegration	277
13.4.3	Testing for Causality	277
13.4.4	Long-Run and Short-Run Effects of Hydropower Energy Supply	280
13.4.5	Further Robustness Checks	282
13.5	Conclusion	285
	Appendix	286
	References	287
14	How Does Environmental Degradation React to Stock Market Development in Developing Countries?	291
	Mert Topcu, Can Tansel Tugcu, and Oguz Ocal	
14.1	Introduction	291
14.2	Model and Data	293

14.3	Methods and Findings	294
14.3.1	Unit Root Testing	294
14.3.2	Cointegration	295
14.3.3	Estimation	296
14.4	Conclusion	297
	References	299
15	Determination of Asymmetries and Market Integration in the Electricity and Crude Oil Markets	303
	Berenga Serwaa Jantuah and Philip Kofi Adom	
15.1	Introduction	304
15.2	Method and Data	307
15.2.1	Model Specification	308
15.2.2	Data Type and Source	309
15.3	Results and Discussion	310
15.3.1	Unit Root Test	310
15.3.2	Test of Long-Run Equilibrium	310
15.3.3	Test of Long-Run and Short-Run Asymmetries	314
15.3.4	Robustness Check	317
15.3.5	Asymmetry in Electricity Consumption to Price Changes	321
15.4	Conclusion and Policy Recommendation	327
