

Contents

1 Introduction	1
References	11
Part I The Twenty-First Century Mechanistic Theory of Human Cognition	
2 The Mechanistic Theory of Complex Biological Systems	17
2.1 Central Theoretical Components of MTCBS	17
2.1.1 Brief Introduction to the Major Historical and Philosophical Foundations	17
2.1.2 Mechanism: The Central Concept Under Analysis	20
2.1.3 A Theory of Scientific Explanation	23
2.1.4 A More Plausible Theory of Scientific Explanation for the Biological Sciences	25
2.1.5 The Theory Applies to Neuroscience, Cognitive Neuroscience and Cognitive Science	28
2.1.6 Mechanistic Scientific Explanations	30
2.1.7 Conditions for Assessing Mechanistic Explanations	33
2.2 Final Remarks	36
References	37
3 The Mechanistic Theory of Human Cognition	39
3.1 Central Theoretical Components of MTHC	39
3.1.1 Introducing the Theory: A Brief Overview of the Context of Its Genesis	39
3.1.2 Human Neuro-Cognitive Mechanisms	43
3.1.3 Neuro-Cognitive Identity Relations	49
3.1.4 Neuro-Cognitive Compositional Relations	53
3.1.5 Neuro-Cognitive Hierarchical Mechanistic Levels	53
3.1.6 Neuro-Cognitive Pluralist Causation	56
3.1.7 Neuro-Cognitive Pluralist Scientific Integration	57
3.2 MTHC Applied to Specific Cognitive Capacities	60
3.2.1 Perception	60

3.2.2	Memory	61
3.3	Final Remarks	66
	References	68

Part II Major Challenges to the Mechanistic Theory of Human Cognition

4	Molecular and Cellular Theory of Human Cognition	73
4.1	MCTHC Against MTHC	73
4.1.1	The Issue of Neuro-Cognitive Reduction	73
4.1.2	The Challenge to Neuro-Cognitive Pluralist Integration	79
4.1.3	The Mechanists' Reply: Standing with Pluralism	85
4.1.4	Emergent Phenomena and the Mechanistic Theory	92
4.1.5	Organization, Unpredictability, External Factors and Strong Neuroscientific Reduction	98
4.2	Final Remarks	104
	References	105
5	Dynamical Systems Theory of Human Cognition and Theory of Situated Human Cognition	109
5.1	DSTHC Against MTHC	109
5.1.1	The Challenge to Decomposition and Localization	109
5.1.2	The Mechanists' Reply: Embracing Complexity	112
5.1.3	Mechanistic-Dynamical Explanations and Strong Neuro-Cognitive Reduction	114
5.2	TSHC Against MTHC	115
5.2.1	The Challenge to the Primacy of Neural Processes	115
5.2.2	The Mechanists' Reply: The Emphasis on the Interaction with External Factors	120
5.2.3	The Mechanists' Reply Under Analysis	124
5.3	Final Remarks	128
	References	129
6	Computational Theory of Human Cognition and Belief-Desire Theory of Human Cognition	131
6.1	CTHC and BDTHC Against MTHC	131
6.1.1	Introduction to the Challenges	131
6.1.2	Challenge I: The Nature of Explanations in Cognitive Science	132
6.1.3	Challenge II: The Nature of Human Cognitive Capacities	147

6.1.4	Toward a Truly Integrated, Systematic and Genuine Science of Human Cognition	173
6.2	Final Remarks	178
	References	179
Conclusion	185
