1 What do sociolinguists study?	1
What is a sociolinguist?	1
Why do we say the same thing in different ways?	3
What are the different ways we say things?	4
Social factors, dimensions, and explanations	10
Part I: Multilingual speech communities	21
2 Language choice in multilingual communities	23
Choosing your variety or code	23
Diglossia	32
Code-switching or code-mixing and translanguaging	42
3 Language maintenance and shift	74
Language shift in different communities	74
Language death and language loss	82
Factors contributing to language shift	85
How can a minority language be maintained?	90
Language revival	94
4 Linguistic varieties and multilingual nations	109
Vernacular languages	110
Standard languages	111

Lingua francas	116
Pidgins and creoles	120
5 National languages, language policy, and language planning	140
National and official languages	142
Planning for a national official language	148
Linguistic landscapes in social and political context	157
The linguist's role in language planning	159
Acquisition planning	167
Part II: Language variation: focus on users	183
6 Regional and social dialects	185
Regional variation	186
Social variation	195
Social dialects	197
A note about methodology	215
7 Gender and age	222
Gender-exclusive speech differences: highly structured communities	222
Gender-preferential speech features: variantionist sociolinguistics	227
Gender and social class	228
Explanations for women's linguistic behaviour	231
Age-graded features of speech	242
Age and social dialect data	245
Age grading and language change	248
8 Ethnicity and social networks	258
Ethnicity	258
Social networks	271
9 Language change	287
Variation and change	288
How do language changes spread?	297
How do we study language change?	302
Reasons for language change	306
Interlude: identity in sociolinguistics	329
Sociolinguistics and identity	329
Indexicality	331

Part III: Language variation: focus on uses	337
10 Style, context, and register	339
Addressee as an influence on style	340
Accommodation theory	347
Context, style, and social class	353
Style in non-English speaking societies	364
Register	370
11 Speech functions, politeness, and cross-cultural communication	387
The functions of speech	388
Identity construction: a more abstract function of interaction	399
Politeness and address forms	400
Linguistic politeness in different cultures	411
12 Gender, politeness, and stereotypes	424
“Women’s language” and confidence	424
Interaction	436
Gossip	442
The linguistic construction of gender identity	446
The linguistic construction of sexuality	449
Sexist language	452
13 Language, cognition, and culture	470
Language and perception	471
Whorf: the relationship between language and thought	476
Linguistic categories and culture	483
Discourse patterns and culture	489
Language, social class, and cognition	493
14 Analysing discourse	504
Pragmatics and politeness theory	505
Ethnography of speaking	515
Interactional sociolinguistics	524
Conversation Analysis (CA)	530
Critical Discourse Analysis (CDA)	542
Multimodal analysis	552
15 Attitudes and applications	568
Attitudes to language	568
Sociolinguistics and education	588
Sociolinguistics and forensic linguistics	596

CONTENTS

16 Conclusion	610
Sociolinguistic competence	611
Dimensions of sociolinguistic analysis	620
Sociolinguistic universals	624
<i>References</i>	629
<i>Appendix: phonetic symbols</i>	664
<i>Sociolinguistics: key words and concepts</i>	666
<i>Index</i>	694

List of figures

2.1	Appropriate code choice in different domains among the Portuguese community in London	29
2.2	Model of appropriate code choice in Bukavu	67
3.1	Dimensions for analysing language maintenance and shift	97
4.1	Inner, outer and expanding circles of English	115
6.1	Words for <i>splinter</i> in English dialects	192
6.2	Social and regional accent variation	196
6.3	Social and regional dialect variation	198
6.4	[h]-dropping in Norwich and West Yorkshire social groups	204
6.5	Post-vocalic [r] in Reading and New York social groups	207
6.6	Vernacular present tense verb forms in Norwich and Detroit	212
6.7	Vernacular forms in three English towns	214
7.1	Vernacular [in] by gender and social group in Norwich	229
7.2	Glottalised [p] in speech of Tyneside women and men from two social classes	240
7.3	Relationship between use of vernacular forms and age	246
7.4	Multiple negation in different age groups in two communities	247
7.5	Three vernacular features in girls' and boys' speech in three English towns	249
7.6	Frequency of <i>like</i> across four age groups in Toronto	250
8.1	Multiple negation in Black and white Detroit speech	262
8.2	An example of a social network	273
8.3	Negative concord for Jocks and Burnouts	277
9.1	The wave-like spread of linguistic changes	298
9.2	A model of the spread of a vernacular change through two speech styles and three social groups	299
9.3	The progress of linguistic change	300
9.4	Distribution of DAR variants by speaker's gender in apparent time	313
9.5	Overlapping S-curves: French words ending in <i>-n</i> affected by sound change	323
1.1	Indexicality, stereotypes and identity	332
10.1	Linguistic features of radio announcers' speech on different stations	344

LIST OF FIGURES

10.2	Vernacular [in] for four social groups and four styles in Norwich	359
10.3	Post-vocalic [r] for range of social groups and five styles in New York	361
10.4	Intonation contour of a typical New Zealand race-caller's chant	375
11.1	Factors constraining the polite choice of address terms in British English	403
11.2	Māori formal greeting ritual	414

List of maps

1.1	Sauris, Italy	8
2.1	Bukavu, Democratic Republic of the Congo (Zaire)	24
2.2	Oberwart, Austria	49
2.3	Papua New Guinea	52
3.1	New Zealand	80
3.2	Census map of Welsh Language usage in 2015	95
4.1a	The Vaupes River and the borders with Columbia and Brazil	118
4.1b	The Negro and Amazon Rivers and surrounding countries	118
4.2	Papua New Guinea and the area of the Buang Tribe	127
5.1	South America	141
5.2	Central Africa	150
5.3	Timor-Leste	158
5.4	Linguistic map of Quechua and Aymara in South America	170
6.1	Map of England showing distance between London and other cities	214
7.1	Colombia and Brazil	223
7.2	Japan	226
8.1	The Greater London Boroughs and West Midlands counties	266
8.2	Belfast	272
9.1	Ucieda, Spain	310
9.2	India and surrounding countries	318
10.1	Japan and North and South Korea	365
10.2	Java, Indonesia	367
12.1	Madagascar	435

List of tables

2.1	Two linguistic repertoires in the Democratic Republic of the Congo (Zaire)	25
2.2	Domains of language use	26
2.3	Domains of language use in Paraguay	27
2.4	Relationship between diglossia and bilingualism	37
2.5	Polyglossia in Singapore	39
3.1	Choice of language in Oberwart	78
4.1	Comparison of verb forms in four languages	123
4.2	Tok Pisin forms	129
5.1	Steps in language planning	149
6.1	Two Javanese words at different stylistic levels	200
6.2	Percentage of vernacular [in] pronunciation for four social groups in speech communities in Britain, the USA and Australia	205
6.3	Percentage [l]-deletion in two social classes in Montreal French	210
6.4	A sample of twenty by age and gender, with a quota of five people per cell	215
7.1	Vernacular pronunciation of standard [t] in medial and final position in New Zealand English	248
10.1	Percentage of determiner deletion in British newspapers	379
12.1	Distribution of tag questions by function and gender of speaker	433
12.2	Average number of interruptions per interaction	438
13.1	Names for numbers 1–6 and 10–15 in four languages	479
13.2	Dyirbal noun classes	483
13.3	Kunwinjku kangaroo terms	484
13.4	Semantic categories of possession	487
14.1	Analysing a communicative event	521
