| | Intr | oduction: Why Should We Be Concerned With Qualitative | | | |
| | | tent Analysis? | 1 | | |
| _ | | | | | |
| Pa | rt I | Foundations of Text Analysis | 9 | | |
| 1 | The | Methodological Debate of Qualitative vs Quantitative | | | |
| | Res | earch | 11 | | |
| | 1.1 | Historical Background | 12 | | |
| | 1.2 | Theory of Science Background of the Controversy | 17 | | |
| | 1.3 | Is Mixed Methods a Solution? | 21 | | |
| | 1.4 | Common Research Criteria for Qualitative and Quantitative | 23 | | |
| | | Approaches | | | |
| 2 | Importance of Text Analysis in Social Sciences | | | | |
| | 2.1 | Texts and Numerical Data as Material in Social Sciences | 27 | | |
| | 2.2 | Methods of Collecting Textual Material in Social Sciences Projects | 32 | | |
| 3 | Diff | ferent Approaches to Text Analysis | 40 | | |
| | 3.1 | A Comparison of Five Qualitative Text Analysis Approaches | 42 | | |
| | 3.2 | Social-Hermeneutic Paraphrase | 43 | | |
| | 3.3 | Psychoanalytic Text Interpretation | 45 | | |
| | 3.4 | Objective Hermeneutics | 46 | | |
| | 3.5 | Grounded Theory Coding | 47 | | |
| | 3.6 | Qualitative Content Analysis | 48 | | |
| | 3.7 | Comparison of the Five Approaches | 50 | | |
| 4 | A Short History of Content Analysis | | | | |
| | 4.1 | Preliminary Phase | 52 | | |
| | 4.2 | Consolidation Phase | 53 | | |
| | 4.3 | Fine Developments and Interdisciplinary Expansion | 54 | | |
| | 4.4 | Stagnation and 'Discontent' with Content Analysis | 56 | | |

| | 4.5 | New Quantitative Approaches in Computational Linguistics, | |
|-----|------|---|-----|
| | | Complex Algorithms and Text Mining | 57 |
| | 4.6 | Approaches to Qualitative Content Analysis | 58 |
| 5 | Bas | ic Principles of Qualitative Content Analysis | 60 |
| | 5.1 | Embedding the Material within its Communication Context | 61 |
| | 5.2 | Categories in the Focus of Analysis | 63 |
| | 5.3 | Defining Content-Analytical Units | 64 |
| | 5.4 | Systematic, Rule-Bound Procedure | 66 |
| | 5.5 | Object Reference in Place of Formal Techniques | 67 |
| | 5.6 | Theory-Guided Character of the Analysis | 69 |
| | 5.7 | Testing Specific Instruments via Pilot Studies | 69 |
| | 5.8 | Integrating Quantitative Steps of Analysis | 70 |
| | 5.9 | Quality Criteria | 70 |
| 6 | Pro | cedures of Qualitative Content Analysis | 72 |
| | 6.1 | Summarizing Qualitative Content Analysis | 75 |
| | 6.2 | Inductive Category Formation | 81 |
| | 6.3 | Explication: Narrow and Broad Context Analysis | 85 |
| | 6.4 | Structuring: Deductive Category Assignment | 89 |
| | 6.5 | Mixed Procedures | 93 |
| 7 | Con | eputer Programs for Qualitative Content Analysis | 97 |
| | 7.1 | The Merits of Computer Assistance in Text Analysis | 98 |
| | 7.2 | QCAmap Software for Qualitative Content Analysis | 99 |
| Par | t II | The Eight Step Qualitative Content Analysis Process | 105 |
| Я | Ste | 1: Forming the Research Question | 109 |
| • | | From Themes to Questions | 109 |
| | 8.2 | How to Formulate a Research Question | 110 |
| | 8.3 | Example for Step 1: Forming the Research Question | 112 |
| 9 | Ste | 2: Establishing the Theoretical Background of the Study | 115 |
| | | Different Levels of Theory Background | 116 |
| | | Example for Step 2: Establishing the Theoretical Background | 117 |
| | | of the Study | |
| 10 | Ste | p 3: Designing the Study | 119 |
| | 10. | 1 Basic Designs for Qualitative (and Quantitative) Research | 119 |
| | | 2 Example for Step 3: Designing the Study | 122 |
| | 10. | 3 Ethical Aspects of a Qualitative Content Analysis Study | 123 |
| 11 | Ste | p 4: Gathering Textual Material, Sampling | 125 |
| | 11 | 1 The Quality of the Sample: Establishing a Sampling Strategy | 125 |
| | 11 | 2 Recommendations for Sample Size | 128 |

| | 11.3 Describing the Text Corpus for Qualitative Content Analysis | 130 | |
|-----|---|-----|--|
| | 11.4 Transcription Rules | 132 | |
| | 11.5 Example for Step 4: Gathering Textual Material, Sampling | 134 | |
| 12 | Step 5: Choosing and Constructing Adequate Methods | 137 | |
| | 12.1 Summarizing: Procedure and Example | 138 | |
| | 12.2 Inductive Category Formation: Procedure and Example | 149 | |
| | 12.3 Explicating (Context Analysis): Procedure and Example | 155 | |
| | 12.4 Structuring (Deductive Category Assignment): Procedure and Example | 158 | |
| | 12.5 Mixed Procedures: Theme Analysis, Type Analysis, Parallel Procedures | 163 | |
| 13 | Step 6: Conducting the Study and Presenting the Results | 166 | |
| | 13.1 Description of the Results | 167 | |
| | 13.2 Presenting Studies with Summarizing Content Analysis | 168 | |
| | 13.3 Presenting Inductive Category Formation | 168 | |
| | 13.4 Presenting Deductive Category Assignment | 170 | |
| | 13.5 Answering the Research Question | 172 | |
| 14 | Step 7: Discussing Quality Criteria | | |
| | 14.1 Classical Quality Criteria | 173 | |
| | 14.2 Specific Content-Analytical Quality Criteria | 175 | |
| | 14.3 Software Example: Three Levels of Intercoder Agreement | 179 | |
| 15 | Step 8: Reflecting on Research Implications | | |
| | 15.1 Theoretical Implications | 183 | |
| | 15.2 Practical Implications | 184 | |
| | 15.3 Example for Step 8: Reflecting on Research Implications | 184 | |
| Paı | rt III Indications and Limitations of Qualitative | | |
| | Content Analysis | 187 | |
| 16 | Indications and Limitations | | |
| | 16.1 Similar Conceptions of a Qualitative Content Analysis | 189 | |
| | 16.2 Criticism and Misunderstandings | 190 | |
| | 16.3 Strengths and Weaknesses of Qualitative Content Analysis | 195 | |
| | 16.4 Further Developments | 196 | |
