Introduction

ix

Part 1 **Costs and benefits of monetary union**

1	The costs of a common currency	3
	Introduction	3
1.1	Shifts in demand (Mundell)	3
1.2	Monetary independence and government budgets	8
	The UK scenario	9
	The Spanish scenario	9
1.3	Asymmetric shocks and debt dynamics	10
1.4	Booms and busts in a monetary union	12
1.5	The Covid-19 shock of 2020: asymmetric effects of symmetric shock	15
1.6	Monetary union and budgetary union	18
	A budgetary union as an insurance mechanism	18
	A budgetary union as a protection mechanism	19
1.7	Private insurance schemes	20
1.8	Differences in labour market institutions	21
1.9	Differences in legal systems	22
2	The theory of optimum currency areas: a critique	25
	Introduction	25
2.1	How relevant are the differences between countries?	25
	Is a demand shock concentrated in one country a likely event?	25
	Institutional differences in labour markets	29
	Different legal systems and financial markets	31
	Booms and busts and the nation-state	32
2.2	How effective are national monetary policies?	36
	National monetary policies to correct for permanent asymmetric demand shocks	36
	National monetary policies to stabilize business cycle shocks	39
	Productivity and inflation in a monetary union: the Balassa–Samuelson effect	40
2.3	National monetary policies, time consistency, and credibility	43
	The Barro–Gordon model: a geometric interpretation	43
	The Barro–Gordon model in open economies	47
	Credibility and the cost of a monetary union	47

2.4	Mundell once more	50
2.5	The cost of monetary union and the openness of countries	51
3	The benefits of a common currency	56
	Introduction	56
3.1	Direct gains from the elimination of transaction costs	56
3.2	Indirect gains from the elimination of transaction costs: price transparency	57
3.3	Welfare gains from less uncertainty	60
3.4	Exchange rate uncertainty and economic growth	62
3.5	Monetary union and trade: the empirical evidence	67
3.6	Benefits of an international currency	68
3.7	Benefits of a monetary union and the openness of countries	69
4	Costs and benefits compared	72
	Introduction	72
4.1	Costs and benefits compared	72
4.2	Monetary union, price and wage rigidities, and labour mobility	75
4.3	Asymmetric shocks and labour market flexibility	76
4.4	The degree of completeness of a monetary union	82
4.5	The trade-off between budgetary union and flexibility	83
4.6	Costs and benefits in the long run	87
4.7	Is Latin America an optimal currency area?	91
4.8	The next monetary union in Asia?	93
4.9	Monetary unions in Africa	96

Part 2 Monetary union

5	The fragility of incomplete monetary unions	103
	Introduction	103
5.1	Fixed exchange rate regimes as incomplete monetary unions	103
5.2	A monetary union without a budgetary union	111
5.3	More bad news about bad equilibria: banking crises	114
5.4	More bad news about bad equilibria: automatic stabilizers	115
6	The transition to a monetary union	122
	Introduction	122
6.1	A short history of monetary unification in Europe	122
6.2	The Maastricht Treaty	126
6.3	Why convergence requirements?	127
	Inflation convergence	128
	Budgetary convergence	130
	Exchange rate convergence (no-devaluation requirement)	132
	Interest rate convergence	133
6.4	How to organize relations between the 'ins' and the 'outs'	134

7	How to complete a monetary union	137
	Introduction	137
7.1	The role of the central bank: lender of last resort	138
	Risk of inflation	140
	Fiscal consequences	142
	Moral hazard	142
7.2	Consolidating government budget and debts	143
	A strategy of small steps	144
7.3	Coordination of budgetary and economic policies	148
7.4	An omitted 'deep' variable	152
8	Political economy of deconstructing the Eurozone	154
	Introduction	154
8.1	Case study: Greece	156
8.2	Case study: Italy unfit for the Eurozone?	160
8.3	Towards deconstructing the Eurozone?	164
8.4	The costs of deconstruction	165
8.5	Will the rest of the Eurozone be better off?	167
9	The European Central Bank	170
	Introduction	170
9.1	The design of the ECB: the Maastricht Treaty	170
9.2	Why has the German model prevailed?	171
9.3	The ECB: a 'conservative' central bank?	174
9.4	Independence and accountability	179
9.5	The ECB: institutional framework	184
	The institutions of the Eurozone: the Eurosystem	184
	Is the Eurosystem too decentralized?	185
	Should the decision-making process in the Eurosystem be reformed?	186
9.6	The ECB as lender of last resort	187
9.7	Did the ECB violate its statutes when it announced its government bond-buying programme (OMT)?	189
9.8	The new financial regulatory and supervisory structure in the EU: towards a banking union	190
	A common regulatory framework	191
	A common supervisory framework	192
	Towards a banking union	192
10	Monetary policy in the Eurozone	195
	Introduction	195
10.1	Central banking and asymmetries of shocks	195
10.2	The Monetary Policy Strategy of the ECB: Mark I	201
10.3	The Monetary Policy Strategy of the ECB: an evaluation	203
	The selection of the target	203

Financial stability: an additional objective?	206
Is there a trade-off between price stability and financial stability?	207
How to define and monitor financial stability	210
Excessive reliance on the money stock?	213
Inflation targeting: a model for the ECB?	215
10.4 The Monetary Policy Strategy of the ECB: Mark II	216
10.5 The instruments of monetary policy in the Eurozone	217
Open market operations	217
Main refinancing operations: how do these work?	217
QE: how does it work?	219
QE since the pandemic	221
Standing facilities	221
Minimum reserves	223
10.6 The Eurosystem as lender of last resort during the financial crisis	224
11 Fiscal policies in monetary unions	228
Introduction	228
11.1 Fiscal policies and the theory of optimum currency areas	228
11.2 Sustainability of government budget deficits	233
11.3 The argument for rules on government budget deficits	239
11.4 Fiscal discipline in monetary unions	242
11.5 Risks of default and bailout in a monetary union	247
11.6 The Stability and Growth Pact: an evaluation	248
11.7 A joint issue of common bonds	250
11.8 The quest for a safe asset	252
11.9 A return to the fiscal rules?	255
12 The euro and financial markets	258
Introduction	258
12.1 EMU and financial market integration in Europe	258
The integration of money markets	259
The integration of bond markets	259
The integration of equity markets	260
The integration of banking sectors	260
12.2 Why financial market integration is important in a monetary union	264
12.3 Conditions for the euro to become an international currency	266
Structural factors	267
The policy environment	269
Bibliography	275
Index	291
