Preface	vii
V. A. Rokhlin (23 August 1919 – 3 December 1984), materials for the biography A. M. VERSHIK	1
Teaching mathematics to non-mathematicians V. A. ROKHLIN	19
Vladimir Abramovich Rokhlin and algebraic topology V. M. BUCHSTABER	33
Amenability of groupoids and asymptotic invariance of convolution powers T. BÜHLER AND V. A. KAIMANOVICH	69
Slopes of links and signature formulas A. DEGTYAREV, V. FLORENS, AND A. G. LECUONA	93
B -rigidity of the property to be an almost Pogorelov polytope N. YU. EROKHOVETS	107
The first homology of a real cubic is generated by lines S. FINASHIN AND V. KHARLAMOV	123
Circular orders, ultra-homogeneous order structures, and their automorphism groups E. GLASNER AND M. MEGRELISHVILI	133
Convergence of equilibrium measures corresponding to finite subgraphs of infinite graphs: New examples B. M. GUREVICH	155
Anti-symplectic involutions on rational symplectic 4-manifolds V. KHARLAMOV AND V. SHEVCHISHIN	165
Dolbeault cohomology of complex manifolds with torus action R. KRUTOWSKI AND T. PANOV	173
Poincaré polynomials of generic torus orbit closures in Schubert varieties E. LEE, M. MASUDA, S. PARK, AND J. SONG	189
Higher order Massey products and applications I. LIMONCHENKO AND D. MILLIONSHCHIKOV	209
Discreteness of deformations of cocompact discrete subgroups G. A. MARGULIS AND G. A. SOIFER	241

Topological isotopy and Cochran's derived invariants S. A. MELIKHOV	249
Geometric description of the Hochschild cohomology of group algebras A. S. MISHCHENKO	267
A user's guide to basic knot and link theory A. SKOPENKOV	281
Group actions: Entropy, mixing, spectra, and generic properties A. STEPIN AND S. TIKHONOV	311
Rokhlin's theorem, a problem and a conjecture D. SULLIVAN	325
Maximally inflected real trigonal curves on Hirzebruch surfaces V. I. ZVONILOV	331
