<b>PREFACE</b>	<b>v</b>
----------------	----------

## **PART I: INTRODUCTORY BACKGROUND**

<b>1. The Birth Of The Computers</b>	<b>3</b>
1.1 On Docile Slaves And Mechanical Languages .....	3
1.2 The Early Computers .....	11
1.3 Literature .....	28
<b>2. The Birth Of The Programming Languages</b>	<b>31</b>
2.1 The Mathematical Background .....	31
2.2 From Code To Language .....	39
2.3 Language Analysis And Code Synthesis .....	47
2.4 Literature .....	52
<b>3. Towards Intelligent Applications</b>	<b>55</b>
3.1 General Applications .....	55
3.2 Turing's Machine Exercises .....	64
3.3 Machine Translation .....	69
3.4 Literature .....	74
<b>4. Topics Of Artificial Intelligence</b>	<b>77</b>
4.1 Artificial Intelligence Science .....	77
4.2 Perceptual And Cognitive Processes .....	82
4.3 Expert Systems .....	90
4.4 Speech, Language, And Linguistics .....	95
4.5 Literature .....	98

**PART II:  
MILITARY BACKGROUND**

**5. The Military Impact 105**

- 5.1 The Impact Of The Cold War ..... 105
- 5.2 The Demand For Micro-Electronics ..... 110
- 5.3 Computers And Missiles ..... 113
- 5.4 Command, Control, And Communications ..... 119
- 5.5 Literature ..... 129

**6. Computer Controlled War And Peace 131**

- 6.1 Introduction ..... 131
- 6.2 Computers And Space ..... 132
- 6.3 Artificial Intelligence And Future Warfare ..... 140
- 6.4 Hardware And Software Development ..... 145
- 6.5 Literature ..... 153

**PART III:  
VIEWPOINTS OF LANGUAGE**

**7. Generative Linguistics And Parsing 157**

- 7.1 Generative Grammar ..... 157
- 7.2 Transformational Grammar ..... 172
- 7.3 Competence And Human Parsing ..... 182
- 7.4 Literature ..... 196

**8. BNF Programming, Analyzing, And Compiling 201**

- 8.1 BNF versus Phrase Structure Grammars ..... 201
- 8.2 The Insufficiency Of Context-Free Grammars ..... 210
- 8.3 The Compiler Production Milieux ..... 227
- 8.4 Literature ..... 233

**9. Formal Languages And Parsing Methods 239**

- 9.1 Towards A Theory Of Parsing ..... 239
- 9.2 General Context-Free Parsing ..... 259
- 9.3 Deterministic Parsing Strategies ..... 268
- 9.4 Literature ..... 294

**PART IV:  
FROM LANGUAGE TOWARDS INTELLIGENCE**

**10. Towards Natural Language Understanding 301**

- 10.1 The Impact Of ALPAC ..... 301
- 10.2 Topics Of Natural Language Processing ..... 317
- 10.3 Problems In Language Understanding ..... 325
- 10.4 Modeling Language Understanding ..... 337
- 10.5 Literature ..... 339

**11. Natural Language And Artificial Intelligence 343**

- 11.1 Language And Knowledge Levels ..... 343
- 11.2 Augmented Transition Networks ..... 348
- 11.3 From Semantic Roles To Semantic Primitives ..... 361
- 11.4 Conceptual Case Frame Representation ..... 366
- 11.5 Conceptual Inferences And Meaning ..... 380
- 11.6 Knowledge Representation Issues ..... 394
- 11.7 Literature ..... 410

**12. Language: From Theory To Practice 415**

- 12.1 Introduction ..... 415
- 12.2 Natural Language Interface Construction ..... 416
- 12.3 Machine Translation After ALPAC ..... 424
- 12.4 Fifth Generation And Natural Language ..... 430
- 12.5 Language Processing And The Military ..... 433
- 12.6 Literature ..... 442

**PART V:  
A MILITARY-INDUSTRIAL-ACADEMIC COMPLEX?**

**13. University Research And The Military 449**

- 13.1 Introduction ..... 449
- 13.2 Collaboration With The Military ..... 450
- 13.3 Militarily Sensitive Research ..... 453
- 13.4 Scientists And Controversial Projects ..... 457
- 13.5 Computer Professionals And Responsibility ..... 464
- 13.6 Literature ..... 468

**Name Index 473**
