

Contents

<i>Preface</i>	v
<i>Contributors</i>	xi
PART I INTRODUCTION	
1 Two-Dimensional Gel Electrophoresis and 2D-DIGE	3
<i>Paula Meleady</i>	
PART II DIFFERENCE GEL ELECTROPHORESIS	
2 Top-Down Proteomics and Comparative 2D-DIGE Analysis	19
<i>Kay Ohlendieck</i>	
3 DIGE Analysis Software and Protein Identification Approaches	39
<i>Paul Dowling</i>	
PART III DIGE APPLICATIONS	
4 Native DIGE for Quantitative and Functional Analysis of Protein Interactomes	53
<i>Diksha Dani and Norbert A. Dencher</i>	
5 Comparative Two-Dimensional Fluorescence Gel Electrophoresis	71
<i>Doreen Ackermann and Simone König</i>	
6 Identification of Ubiquitination-Associated Proteins Using 2D-DIGE	83
<i>Paul Dowling and Despina Bazou</i>	
7 DIGE-Based Phosphoproteomic Analysis	97
<i>Taras Stasyk and Lukas Alfons Huber</i>	
8 DIGE-Based Biomarker Discovery in Blood Cancers	105
<i>Katie Dunphy and Paul Dowling</i>	
9 DIGE Saturation Labeling for Scarce Amounts of Protein from Formalin-Fixed Paraffin-Embedded (FFPE) Tissue	113
<i>Paul Dowling</i>	
10 DIGE Analysis of ProteoMiner™ Fractionated Serum/Plasma Samples	119
<i>Sandra Murphy and Paul Dowling</i>	
11 Comparative 3-Sample 2D-DIGE Analysis of Skeletal Muscles	127
<i>Kay Ohlendieck</i>	
12 Proteomic Identification of Saliva Proteins as Noninvasive Diagnostic Biomarkers	147
<i>Eleanor M. O'Sullivan, Paul Dowling, Dieter Swandulla, and Kay Ohlendieck</i>	
13 Analysis of the Saliva Proteome Using 2D-DIGE	169
<i>Paul Dowling and Eleanor M. O'Sullivan</i>	

PART IV COMPARATIVE DIGE TISSUE PROTEOMICS

14	DIGE Analysis of Clinical Specimens	177
	<i>Cecilia Gelfi and Daniele Capitanio</i>	
15	DIGE Analysis of Animal Tissues	201
	<i>Alessio Di Luca, Ruth Hamill, Anne Maria Mullen, and Giuliano Elia</i>	
16	2D-DIGE Proteomic Analysis of Mouse Liver Within 1 Week	217
	<i>Shotaro Kamata and Isao Ishii</i>	
17	2D-DIGE Analysis of Liver Disease in Mice	231
	<i>Aisha Callebaut, Rita Derua, Lut Overbergh, and Veerle Janssens</i>	
18	Two-Dye Versus Three-Dye DIGE for Comparative Testis Tissue Proteomic Analysis	245
	<i>Ashling Holland</i>	
19	Two-CyDye-Based 2D-DIGE Analysis of Aged Human Muscle Biopsy Specimens	265
	<i>Kay Ohlendieck</i>	
20	Identification of Subproteomic Markers for Skeletal Muscle Profiling	291
	<i>Paul Dowling, Stephen Gargan, Dieter Swandulla, and Kay Ohlendieck</i>	
21	DIGE Analysis of Fish Tissues	303
	<i>Joanna Nynca, Mariola A. Dietrich, and Andrzej Ciereszko</i>	

PART V AUXILIARY DIGE METHODS

22	Sample Preparation and Protein Determination for 2D-DIGE Proteomics	325
	<i>Stephen Gargan and Kay Ohlendieck</i>	
23	Protein Digestion for 2D-DIGE Analysis	339
	<i>Sandra Murphy and Kay Ohlendieck</i>	
24	Subcellular Fractionation for DIGE-Based Proteomics	351
	<i>Sandra Murphy</i>	
25	DIGE Analysis of Immunodepleted Plasma	363
	<i>Paul Dowling and Kay Ohlendieck</i>	
26	Bioinformatic Analysis of the Subproteomic Profile of Cardiomyopathic Tissue	377
	<i>Sandra Murphy, Margit Zweyer, Dieter Swandulla, and Kay Ohlendieck</i>	

PART VI DIGE VERIFICATION ANALYSIS

27	Elucidating Cellular Metabolism and Protein Difference Data from DIGE Proteomics Experiments Using Enzyme Assays	399
	<i>Andrew Dowd</i>	

28	Enzyme Assay Methods to Validate DIGE Proteomics Data.....	421
	<i>Andrew Dowd</i>	
29	Immunoblot Analysis of DIGE-Based Proteomics	429
	<i>Martin Landsberger and Heinrich Brinkmeier</i>	
30	Verification of Protein Changes Determined by 2D-DIGE Based Proteomics Using Immunofluorescence Microscopy	445
	<i>Margit Zweyer, Kay Ohlendieck, and Dieter Swandulla</i>	
31	Histological and Histochemical Microscopy Used to Verify 2D-DIGE Pathoproteomics	465
	<i>Margit Zweyer, Kay Ohlendieck, and Dieter Swandulla</i>	
	<i>Index</i>	481
