

CONTENTS

Section I. Vistas in Physics

- | | |
|---|----|
| 1. On Some of Physics' Problems | 3 |
| <i>Eugene P. Wigner</i> | |
| 2. Is the Coarse-Grained Entropy of Classical Statistical Mechanics
an Anthropomorphism? | 11 |
| <i>Adolf Grünbaum</i> | |
| 3. Aspects of the Special Theory of Relativity | 31 |
| <i>Håkan Törnebohm</i> | |
| 4. The Measurement Act in Quantum Physics | 63 |
| <i>James L. Park</i> | |
| 5. Acoustics—Old and New | 81 |
| <i>R. Bruce Lindsay</i> | |

Section II. Vistas in Philosophy

- | | |
|--|-----|
| 6. Some Reflections on Philosophy of Science | 95 |
| <i>Wolfgang Yourgrau</i> | |
| 7. Nonempirical Criteria in the Development of Science | 107 |
| <i>Ervin Laszlo</i> | |

8. On a Circularity in Our Knowledge of the Physically Real	123
<i>Peter Caws</i>	
9. The Structure of Creativity in Physics	133
<i>Siegfried Müller-Markus</i>	
10. A Quasi-Scientific Method for Ethics	155
<i>John Bacon</i>	
11. The Functions of Incompetence	171
<i>Lee Thayer</i>	

Section III. Vistas in Education

12. Henry Margenau's Philosophy as Frame of Reference in Teaching Science.	191
<i>Harold G. Cassidy</i>	
13. Integrative Education: Teaching as a Humane Enterprise	201
<i>Emily B. Sellon</i>	
Publications by Henry Margenau.	211
Index	223
