Media and Resources from Worth Publishers xix

Preface xxiii

Part I Introduction 1

Chapter 1 The Science of Macroeconomics 1

- 1-1 What Macroeconomists Study 1
 - **CASE STUDY** The Historical Performance of the U.S. Economy 3
- 1-2 How Economists Think 5
 - Theory as Model Building 5
 - The Use of Multiple Models 9
 - Prices: Flexible Versus Sticky 9
 - Microeconomic Thinking and Macroeconomic Models 10
 - FYI The Early Lives of Macroeconomists 10**
- 1-3 How This Book Proceeds 11

Chapter 2 The Data of Macroeconomics 15

- 2-1 Measuring the Value of Economic Activity: Gross Domestic Product 16
 - Income, Expenditure, and the Circular Flow 16
 - FYI Stocks and Flows 18**
 - Rules for Computing GDP 18
 - Real GDP Versus Nominal GDP 21
 - The GDP Deflator 22
 - Chain-Weighted Measures of Real GDP 22
 - FYI Two Helpful Hints for Working with Percentage Changes 23**
 - The Components of Expenditure 23
 - FYI What Is Investment? 24**
 - **CASE STUDY** GDP and Its Components 25
 - Other Measures of Income 26
 - Seasonal Adjustment 27
- 2-2 Measuring the Cost of Living: The Consumer Price Index 28
 - The Price of a Basket of Goods 28
 - How the CPI Compares to the GDP and PCE Deflators 29
 - Does the CPI Overstate Inflation? 30
- 2-3 Measuring Joblessness: The Unemployment Rate 32
 - The Household Survey 32
 - **CASE STUDY** Trends in Labor-Force Participation 33
 - The Establishment Survey 34
- 2-4 Conclusion: From Economic Statistics to Economic Models 36

Part II Classical Theory: The Economy in the Long Run 41

Chapter 3 National Income: Where It Comes From and Where It Goes 41

- 3-1 What Determines the Total Production of Goods and Services? 42
 - The Factors of Production 43
 - The Production Function 43
 - The Supply of Goods and Services 44
- 3-2 How Is National Income Distributed to the Factors of Production? 44
 - Factor Prices 44
 - The Decisions Facing a Competitive Firm 45
 - The Firm's Demand for Factors 46
 - The Distribution of National Income 49
 - **CASE STUDY** The Black Death and Factor Prices 50
 - The Cobb–Douglas Production Function 51
 - **CASE STUDY** Labor Productivity as the Key Determinant of Real Wages 53
- 3-3 What Determines the Demand for Goods and Services? 54
 - Consumption 55
 - Investment 55
 - FYI** The Many Different Interest Rates 57
 - Government Purchases 58
- 3-4 What Brings the Supply and Demand for Goods and Services into
Equilibrium? 58
 - Equilibrium in the Market for Goods and Services: The Supply and Demand
for the Economy's Output 59
 - Equilibrium in Financial Markets: The Supply and Demand for Loanable
Funds 60
 - Changes in Saving: The Effects of Fiscal Policy 61
 - Changes in Investment Demand 62
- 3-5 Conclusion 64

Appendix The Growing Gap Between Rich and Poor 69

Chapter 4 The Monetary System: What It Is and How It Works 75

- 4-1 What Is Money? 75
 - The Functions of Money 76
 - The Types of Money 76
 - **CASE STUDY** Money in a POW Camp 77
 - The Development of Fiat Money 77
 - **CASE STUDY** Money and Social Conventions on the Islands of Yap 78
 - FYI** Bitcoin: The Strange Case of a Digital Money 78
 - How the Quantity of Money Is Controlled 79
 - How the Quantity of Money Is Measured 80
 - FYI** How Do Credit Cards and Debit Cards Fit into the Monetary
System? 81

- 4-2 The Role of Banks in the Monetary System 81
 - 100-Percent-Reserve Banking 81
 - Fractional-Reserve Banking 82
 - Bank Capital, Leverage, and Capital Requirements 84
- 4-3 How Central Banks Influence the Money Supply 85
 - A Model of the Money Supply 85
 - The Instruments of Monetary Policy 87
 - **CASE STUDY** Quantitative Easing and the Exploding Monetary Base 88
 - Problems in Monetary Control 90
 - **CASE STUDY** Bank Failures and the Money Supply in the 1930s 90
- 4-4 Conclusion 92

Chapter 5 Inflation: Its Causes, Effects, and Social Costs 97

- 5-1 The Quantity Theory of Money 98
 - Transactions and the Quantity Equation 98
 - From Transactions to Income 99
 - The Money Demand Function and the Quantity Equation 100
 - The Assumption of Constant Velocity 100
 - Money, Prices, and Inflation 101
 - **CASE STUDY** Inflation and Money Growth 102
- 5-2 Seigniorage: The Revenue from Creating Money 104
 - **CASE STUDY** Paying for the American Revolution 104
- 5-3 Inflation and Interest Rates 105
 - Two Interest Rates: Real and Nominal 105
 - The Fisher Effect 105
 - **CASE STUDY** Inflation and Nominal Interest Rates 106
 - Two Real Interest Rates: *Ex Ante* and *Ex Post* 107
- 5-4 The Nominal Interest Rate and the Demand for Money 108
 - The Cost of Holding Money 108
 - Future Money and Current Prices 109
- 5-5 The Social Costs of Inflation 110
 - The Layperson's View and the Classical Response 110
 - **CASE STUDY** What Economists and the Public Say About Inflation 111
 - The Costs of Expected Inflation 112
 - The Costs of Unexpected Inflation 113
 - **CASE STUDY** The Free Silver Movement, the Election of 1896, and *The Wizard of Oz* 114
 - One Benefit of Inflation 115
- 5-6 Hyperinflation 115
 - The Costs of Hyperinflation 115
 - The Causes of Hyperinflation 116
 - **CASE STUDY** Hyperinflation in Interwar Germany 117
 - **CASE STUDY** Hyperinflation in Zimbabwe 118
- 5-7 Conclusion: The Classical Dichotomy 119

Chapter 6 The Open Economy 125

- 6-1 The International Flows of Capital and Goods 126
 - The Role of Net Exports 126
 - International Capital Flows and the Trade Balance 127
 - International Flows of Goods and Capital: An Example 129
 - The Irrelevance of Bilateral Trade Balances 129
- 6-2 Saving and Investment in a Small Open Economy 130
 - Capital Mobility and the World Interest Rate 130
 - Why Assume a Small Open Economy? 131
 - The Model 131
 - How Policies Influence the Trade Balance 133
 - Evaluating Economic Policy 135
 - **CASE STUDY** The U.S. Trade Deficit 136
 - **CASE STUDY** Why Doesn't Capital Flow to Poor Countries? 138
- 6-3 Exchange Rates 139
 - Nominal and Real Exchange Rates 139
 - The Real Exchange Rate and the Trade Balance 140
 - The Determinants of the Real Exchange Rate 141
 - How Policies Influence the Real Exchange Rate 142
 - The Effects of Trade Policies 144
 - **CASE STUDY** The Economic Consequences of Mr. Trump 145
 - The Determinants of the Nominal Exchange Rate 146
 - **CASE STUDY** Inflation and Nominal Exchange Rates 147
 - The Special Case of Purchasing-Power Parity 148
 - **CASE STUDY** The Big Mac Around the World 150
- 6-4 Conclusion: The United States as a Large Open Economy 151

Appendix The Large Open Economy 156

Chapter 7 Unemployment and the Labor Market 165

- 7-1 Job Loss, Job Finding, and the Natural Rate of Unemployment 166
- 7-2 Job Search and Frictional Unemployment 168
 - Causes of Frictional Unemployment 168
 - Public Policy and Frictional Unemployment 169
 - **CASE STUDY** Unemployment Insurance and the Rate of Job Finding 170
 - **CASE STUDY** Unemployment Insurance During the Great Shutdown of 2020 170
- 7-3 Real-Wage Rigidity and Structural Unemployment 171
 - Minimum-Wage Laws 172
 - Unions and Collective Bargaining 174
 - Efficiency Wages 175
 - **CASE STUDY** Henry Ford's \$5 Workday 176
- 7-4 Labor-Market Experience: The United States 176
 - The Duration of Unemployment 177

- **CASE STUDY** The Increase in U.S. Long-Term Unemployment and the Debate over Unemployment Insurance 177
- Variation in the Unemployment Rate Across Demographic Groups 179
- Transitions into and out of the Labor Force 180

- 7-5 Labor-Market Experience: Europe 181
 - The Rise in European Unemployment 181
 - Unemployment Variation Within Europe 182
 - The Rise of European Leisure 183
- 7-6 Conclusion 185

Part III Growth Theory: The Economy in the Very Long Run 189

Chapter 8 Capital Accumulation as a Source of Growth 189

- 8-1 The Basic Solow Model 190
 - The Supply and Demand for Goods 190
 - Growth in the Capital Stock and the Steady State 192
 - Approaching the Steady State: A Numerical Example 195
 - **CASE STUDY** The Miracle of Japanese and German Growth 197
 - How Saving Affects Growth 198
- 8-2 The Golden Rule Level of Capital 199
 - Comparing Steady States 199
 - Finding the Golden Rule Steady State: A Numerical Example 201
 - The Transition to the Golden Rule Steady State 203
- 8-3 Conclusion 206

Chapter 9 Population Growth and Technological Progress 209

- 9-1 Population Growth in the Solow Model 209
 - The Steady State with Population Growth 210
 - The Effects of Population Growth 211
 - **CASE STUDY** Investment and Population Growth Around the World 212
 - Alternative Perspectives on Population Growth 214
- 9-2 Technological Progress in the Solow Model 216
 - The Efficiency of Labor 216
 - The Steady State with Technological Progress 217
 - The Effects of Technological Progress 217
- 9-3 Beyond the Solow Model: Endogenous Growth Theory 219
 - The Basic Model 219
 - A Two-Sector Model 220
 - The Microeconomics of Research and Development 221
 - The Process of Creative Destruction 222
- 9-4 Conclusion 223

Chapter 10 Growth Empirics and Policy 229

- 10-1 From Growth Theory to Growth Empirics 230
 - Balanced Growth 230
 - Convergence 230
 - Factor Accumulation Versus Production Efficiency 231
 - **CASE STUDY** Good Management as a Source of Productivity 232
- 10-2 Accounting for the Sources of Economic Growth 233
 - Increases in the Factors of Production 233
 - Technological Progress 235
 - The Sources of Growth in the United States 237
 - **CASE STUDY** The Slowdown in Productivity Growth 237
 - The Solow Residual in the Short Run 238
- 10-3 Policies to Promote Growth 240
 - Evaluating the Rate of Saving 240
 - Changing the Rate of Saving 241
 - Allocating the Economy's Investment 242
 - **CASE STUDY** Industrial Policy in Practice 244
 - **CASE STUDY** Misallocation in India and China 244
 - Establishing the Right Institutions 245
 - **CASE STUDY** The Colonial Origins of Modern Institutions 246
 - Supporting a Pro-growth Culture 247
 - Encouraging Technological Progress 248
 - **CASE STUDY** Is Free Trade Good for Economic Growth? 249
- 10-4 Conclusion 250

Part IV Business Cycle Theory: The Economy in the Short Run 253

Chapter 11 Introduction to Economic Fluctuations 253

- 11-1 The Facts About the Business Cycle 254
 - GDP and Its Components 254
 - Unemployment and Okun's Law 255
 - Leading Economic Indicators 258
- 11-2 Time Horizons in Macroeconomics 260
 - How the Short Run and the Long Run Differ 260
 - **CASE STUDY** If You Want to Know Why Firms Have Sticky Prices, Ask Them 261
 - The Model of Aggregate Supply and Aggregate Demand 263
- 11-3 Aggregate Demand 264
 - The Quantity Equation as Aggregate Demand 264
 - Why the Aggregate Demand Curve Slopes Downward 264
 - Shifts in the Aggregate Demand Curve 265
- 11-4 Aggregate Supply 266
 - The Long Run: The Vertical Aggregate Supply Curve 266

The Short Run: The Horizontal Aggregate Supply Curve 267

From the Short Run to the Long Run 269

► **CASE STUDY** A Monetary Lesson from French History 270

11-5 Stabilization Policy 271

Shocks to Aggregate Demand 272

Shocks to Aggregate Supply 273

► **CASE STUDY** How OPEC Helped Cause Stagflation in the 1970s
and Euphoria in the 1980s 274

11-6 The Covid-19 Recession of 2020 276

Modeling the Shutdown 276

The Policy Response 278

The Recovery and the Road Ahead 279

11-7 Conclusion 279

Chapter 12 Aggregate Demand I: Building the *IS*–*LM* Model 283

12-1 The Goods Market and the *IS* Curve 285

The Keynesian Cross 285

► **CASE STUDY** Cutting Taxes to Stimulate the Economy: From Kennedy
to Trump 291

► **CASE STUDY** Increasing Government Purchases to Stimulate the
Economy: The Obama Stimulus 292

► **CASE STUDY** Using Regional Data to Estimate Multipliers 293

The Interest Rate, Investment, and the *IS* Curve 294

How Fiscal Policy Shifts the *IS* Curve 295

12-2 The Money Market and the *LM* Curve 297

The Theory of Liquidity Preference 297

► **CASE STUDY** Does a Monetary Tightening Raise or Lower Interest
Rates? 299

Income, Money Demand, and the *LM* Curve 300

How Monetary Policy Shifts the *LM* Curve 300

12-3 Conclusion: The Short-Run Equilibrium 301

Chapter 13 Aggregate Demand II: Applying the *IS*–*LM* Model 307

13-1 Explaining Fluctuations with the *IS*–*LM* Model 308

How Fiscal Policy Shifts the *IS* Curve and Changes the Short-Run
Equilibrium 308

How Monetary Policy Shifts the *LM* Curve and Changes the Short-Run
Equilibrium 310

The Interaction Between Monetary and Fiscal Policy 311

Shocks in the *IS*–*LM* Model 311

► **CASE STUDY** The U.S. Recession of 2001 313

What Is the Fed's Policy Instrument—The Money Supply or the Interest
Rate? 314

13-2 *IS*–*LM* as a Theory of Aggregate Demand 315

From the *IS*–*LM* Model to the Aggregate Demand Curve 315

The *IS*–*LM* Model in the Short Run and Long Run 317

13-3	The Great Depression	319
	The Spending Hypothesis: Shocks to the <i>IS</i> Curve	320
	The Money Hypothesis: A Shock to the <i>LM</i> Curve	321
	The Money Hypothesis Again: The Effects of Falling Prices	322
	Could the Depression Happen Again?	324
	► CASE STUDY The Financial Crisis and Great Recession of 2008–2009	325
	The Liquidity Trap and Unconventional Monetary Policy	327
	FYI The Curious Case of Negative Interest Rates	328
13-4	Conclusion	329
Chapter 14 The Open Economy Revisited: The Mundell–Fleming Model and the Exchange-Rate Regime 335		
14-1	The Mundell–Fleming Model	336
	The Key Assumption: Small Open Economy with Perfect Capital Mobility	337
	The Goods Market and the <i>IS*</i> Curve	337
	The Money Market and the <i>LM*</i> Curve	339
	Putting the Pieces Together	340
14-2	The Small Open Economy Under Floating Exchange Rates	340
	Fiscal Policy	341
	Monetary Policy	342
	Trade Policy	343
14-3	The Small Open Economy Under Fixed Exchange Rates	344
	How a Fixed-Exchange-Rate System Works	344
	► CASE STUDY The International Gold Standard	346
	Fiscal Policy	346
	Monetary Policy	347
	► CASE STUDY Devaluation and the Recovery from the Great Depression	348
	Trade Policy	348
	Policy in the Mundell–Fleming Model: A Summary	349
14-4	Interest Rate Differentials	350
	Country Risk and Exchange-Rate Expectations	350
	Differentials in the Mundell–Fleming Model	351
	► CASE STUDY International Financial Crisis: Mexico 1994–1995	352
	► CASE STUDY International Financial Crisis: Asia 1997–1998	353
14-5	Should Exchange Rates Be Floating or Fixed?	354
	Pros and Cons of Different Exchange-Rate Systems	354
	► CASE STUDY The Debate over the Euro	355
	Speculative Attacks, Currency Boards, and Dollarization	356
	The Impossible Trinity	357
	► CASE STUDY The Chinese Currency Controversy	358
14-6	From the Short Run to the Long Run: The Mundell–Fleming Model with a Changing Price Level	359
14-7	A Concluding Reminder	361

Appendix A Short-Run Model of the Large Open Economy 366

Chapter 15 Aggregate Supply and the Short-Run Tradeoff Between Inflation and Unemployment 371

- 15-1 The Basic Theory of Aggregate Supply 372
 - The Sticky-Price Model 372
 - An Alternative Theory: The Imperfect-Information Model 374
 - **CASE STUDY** International Differences in the Aggregate Supply Curve 376
 - Implications 376
- 15-2 Inflation, Unemployment, and the Phillips Curve 378
 - Deriving the Phillips Curve from the Aggregate Supply Curve 379
 - FYI The History of the Modern Phillips Curve 380**
 - Adaptive Expectations and Inflation Inertia 380
 - Two Causes of Rising and Falling Inflation 381
 - **CASE STUDY** Inflation and Unemployment in the United States 382
 - The Short-Run Tradeoff Between Inflation and Unemployment 383
 - FYI How Precise Are Estimates of the Natural Rate of Unemployment? 385**
 - Disinflation and the Sacrifice Ratio 385
 - Rational Expectations and the Possibility of Painless Disinflation 386
 - **CASE STUDY** The Sacrifice Ratio in Practice 387
 - Hysteresis and the Challenge to the Natural-Rate Hypothesis 389
- 15-3 Conclusion 390

Appendix The Mother of All Models 394

Part V Topics in Macroeconomic Theory and Policy 399

Chapter 16 A Dynamic Model of Economic Fluctuations 399

- 16-1 Elements of the Model 400
 - Output: The Demand for Goods and Services 400
 - The Real Interest Rate: The Fisher Equation 401
 - Inflation: The Phillips Curve 402
 - Expected Inflation: Adaptive Expectations 403
 - The Nominal Interest Rate: The Monetary-Policy Rule 403
 - **CASE STUDY** The Taylor Rule 404
- 16-2 Solving the Model 406
 - The Long-Run Equilibrium 407
 - The Dynamic Aggregate Supply Curve 408
 - The Dynamic Aggregate Demand Curve 409
 - The Short-Run Equilibrium 411
- 16-3 Using the Model 412

Long-Run Growth	412
A Shock to Aggregate Supply	413
A Shock to Aggregate Demand	415
FYI The Numerical Calibration and Simulation	416
A Shift in Monetary Policy	418
16-4 Two Applications: Lessons for Monetary Policy	421
The Tradeoff Between Output Variability and Inflation Variability	421
► CASE STUDY Different Mandates, Different Realities: The Fed Versus the ECB	423
The Taylor Principle	424
► CASE STUDY What Caused the Great Inflation?	426
16-5 Conclusion: Toward DSGE Models	427
Chapter 17 Alternative Perspectives on Stabilization Policy	431
17-1 Should Policy Be Active or Passive?	432
Lags in the Implementation and Effects of Policies	432
The Difficult Job of Economic Forecasting	433
► CASE STUDY Mistakes in Forecasting	434
Ignorance, Expectations, and the Lucas Critique	436
The Historical Record	436
► CASE STUDY How Does Policy Uncertainty Affect the Economy?	437
17-2 Should Policy Be Conducted by Rule or Discretion?	439
Distrust of Policymakers and the Political Process	439
The Time Inconsistency of Discretionary Policy	440
► CASE STUDY Alexander Hamilton Versus Time Inconsistency	442
Rules for Monetary Policy	442
► CASE STUDY Inflation Targeting: Rule or Constrained Discretion?	443
► CASE STUDY Central-Bank Independence	444
17-3 Conclusion	446
Appendix Time Inconsistency and the Tradeoff Between Inflation and Unemployment	449
Chapter 18 Government Debt and Budget Deficits	453
18-1 The Size of the Government Debt	454
► CASE STUDY The Troubling Long-Term Outlook for Fiscal Policy	456
18-2 Measurement Problems	457
Problem 1: Inflation	458
Problem 2: Capital Assets	458
Problem 3: Uncounted Liabilities	459
Problem 4: The Business Cycle	460
Summing Up	460
18-3 The Traditional View of Government Debt	460
FYI Taxes and Incentives	462

- 18-4 The Ricardian View of Government Debt 462
 - The Basic Logic of Ricardian Equivalence 463
 - Consumers and Future Taxes 463
 - **CASE STUDY** George H. W. Bush's Withholding Experiment 464
 - Making a Choice 466
 - FYI Ricardo on Ricardian Equivalence 467**
- 18-5 Other Perspectives on Government Debt 467
 - Balanced Budgets Versus Optimal Fiscal Policy 467
 - Fiscal Effects on Monetary Policy 468
 - Debt and the Political Process 469
 - International Dimensions 470
- 18-6 Conclusion 470

Chapter 19 The Financial System: Opportunities and Dangers 475

- 19-1 What Does the Financial System Do? 476
 - Financing Investment 476
 - Sharing Risk 477
 - Dealing with Asymmetric Information 478
 - Fostering Economic Growth 479
 - FYI The Efficient Markets Hypothesis Versus Keynes's Beauty Contest 480**
- 19-2 Financial Crises 481
 - The Anatomy of a Crisis 481
 - FYI The TED Spread 483**
 - **CASE STUDY** Who Should Be Blamed for the Financial Crisis of 2008–2009? 485
 - Policy Responses to a Crisis 486
 - Policies to Prevent Crises 489
 - **CASE STUDY** The European Sovereign Debt Crisis 492
- 19-3 Conclusion 493

Chapter 20 The Microfoundations of Consumption and Investment 497

- 20-1 What Determines Consumer Spending? 497
 - John Maynard Keynes and the Consumption Function 498
 - Franco Modigliani and the Life-Cycle Hypothesis 501
 - Milton Friedman and the Permanent-Income Hypothesis 504
 - **CASE STUDY** The 1964 Tax Cut and the 1968 Tax Surcharge 506
 - **CASE STUDY** The Tax Rebates of 2008 506
 - Robert Hall and the Random-Walk Hypothesis 508
 - **CASE STUDY** Do Predictable Changes in Income Lead to Predictable Changes in Consumption? 509
 - David Laibson and the Pull of Instant Gratification 509
 - **CASE STUDY** How to Get People to Save More 510
 - The Bottom Line on Consumption 511

20-2 What Determines Investment Spending?	512
The Rental Price of Capital	512
The Cost of Capital	514
The Cost-Benefit Calculus of Investment	515
Taxes and Investment	517
The Stock Market and Tobin's q	518
► CASE STUDY The Stock Market as an Economic Indicator	519
Financing Constraints	520
The Bottom Line on Investment	521

20-3 Conclusion: The Key Role of Expectations	522
---	-----

Epilogue What We Know, What We Don't 527

The Four Most Important Lessons of Macroeconomics	527
Lesson 1: In the long run, a country's capacity to produce goods and services determines the standard of living of its citizens.	527
Lesson 2: In the short run, aggregate demand influences the amount of goods and services that a country produces.	528
Lesson 3: In the long run, the rate of money growth determines the rate of inflation, but it does not affect the rate of unemployment.	528
Lesson 4: In the short run, policymakers who control monetary and fiscal policy face a tradeoff between inflation and unemployment.	529
The Four Most Important Unresolved Questions of Macroeconomics	529
Question 1: How should policymakers try to promote growth in the economy's natural level of output?	530
Question 2: What is the best way to stabilize the economy?	531
Question 3: How costly is inflation, and how costly is reducing inflation?	532
Question 4: Are government budget deficits a big problem?	533
Conclusion	534
