<b>Foreword by Craig Larman</b> .....	<b>xix</b>
<b>Foreword by Dave West</b> .....	<b>xxi</b>
<b>Preface</b> .....	<b>xxiii</b>
<b>Introduction</b> .....	<b>xxvii</b>
<b>Acknowledgments</b> .....	<b>xxxv</b>
<b>About the Authors</b> .....	<b>xxxvii</b>

<b>Part I</b>	<b>Foundational Concepts</b> .....	<b>1</b>
<b>1</b>	<b>Organizing for Adaptability</b> .....	<b>3</b>
	Hello, VUCA World! .....	3
	What Is an Agile Organization Design? .....	4
	What Does Your Organization Optimize For? .....	5
	Optimization Goals and Indirect Wishes .....	5
	Optimizing Goals of an Agile Organization .....	6
	Typical Problems When Adopting Agility .....	6
	The Functional Hierarchy Organization Design .....	7
	Avoid Copy–Paste Scaling: A Typical Scaling Approach .....	10
	Overview of an Agile Organization Design .....	11
	What Is an Agile Team? .....	12
	Structural Characteristics .....	13
	Summary .....	16
	References .....	17
<b>2</b>	<b>Systems Thinking</b> .....	<b>19</b>
	Basics of Systems Thinking .....	19
	Two Systems .....	19
	When to Apply Systems Thinking and Which Problem Does It Solve? .....	20
	Systems and Collections .....	21
	Organizations as Complex Social Systems .....	21
	Linear and Systems Thinking .....	23

Define the Boundary of the System Wisely . . . . .	24
Work on the System . . . . .	25
Iceberg of Systems Thinking . . . . .	27
Analyzing the Current Situation . . . . .	29
Organizational Learning and Creative Tension . . . . .	30
Applying Systems Thinking . . . . .	31
Causal Loop Diagram . . . . .	31
A CLD Example . . . . .	33
Shared Responsibility . . . . .	34
Doom Loop Technique . . . . .	35
Example: Using the Doom Loop Technique . . . . .	36
Optimize the Whole . . . . .	37
System Archetypes . . . . .	38
Summary . . . . .	48
References . . . . .	49
<b>3 Optimize for Adaptiveness . . . . .</b>	<b>51</b>
What It Means to Be Adaptable . . . . .	53
Flow Efficiency . . . . .	54
Behavior of Queues . . . . .	54
Relationships Among Utilization, Cycle Time, and Variability . . . . .	55
Queues Create Waste . . . . .	57
Balancing Excess Capacity with the Cost of Delay . . . . .	57
Relationships Among Utilization, Batch Size, and Cycle Time . . . . .	58
One-Piece Continuous Flow . . . . .	60
Queueing System Structures . . . . .	61
Applying Queueing Structure to Agile Product Development . . . . .	62
Algorithm for Dealing with Queues . . . . .	62
Choose an Operational Strategy . . . . .	63
Resource Efficiency . . . . .	64
Flow Efficiency . . . . .	65

	Summary .....	67
	References .....	68
<b>4</b>	<b>Agile Organizational Design .....</b>	<b>69</b>
	Why Organizational Redesign? .....	70
	Business Strategy Drives Organizational Design .....	71
	Overview of a Design Process .....	72
	Agile Organization Design Guidelines .....	73
	Structural Guidelines .....	73
	Process and Integration Guidelines .....	89
	People Guidelines .....	97
	Agile vs. Traditional Human Resources Management .....	101
	Summary .....	104
	References .....	105
<b>5</b>	<b>An Agile Adoption Approach .....</b>	<b>107</b>
	Principles of an Agile Adoption .....	107
	Overview of an Adoption Approach .....	109
	A Bird's-Eye View of Adoption Activities .....	109
	Overarching Adoption Guidelines .....	111
	Form a Leading Group .....	111
	Align Leadership on the Strategic Focus .....	112
	Create Basic Conditions for Success .....	113
	Learn Fast and Expand Change .....	115
	Start with a Discontinuous Improvement Step .....	117
	Avoid Providing the Answer Before You Know the Question .....	118
	Applying Systems Thinking in Organizational Coaching .....	120
	Agree on a Common System Optimization Goal .....	120
	Address Secondary Concerns Without Compromising the System Goal .....	122
	Have an Intermediate Improvement Goal and Perfection Vision .....	123
	Planning Organizational Interventions .....	124

Summary	130
References	131
<b>6 Coaching for Change</b>	<b>133</b>
Guideline 1: Influence People	134
Use Corridor Politics	134
Show Personal Benefits	134
Build Rapport	135
Reach for Connectors	136
Guideline 2: Co-Create the Change	136
Guideline 3: Voluntary Participation	139
Get the Right People on the Bus and off the Bus	140
What It Means to Be a Volunteer	141
Nonviolent Education	143
What If You Don't Have Volunteers?	144
Guideline 4: Acknowledge the Loss	144
Beware of the Loss Aversion Bias	146
Guideline 5: Deliver the Message Continually	147
Guideline 6: Help People to Cross the Edge	149
Guest Visit	151
Create Edge Awareness	151
Honor the Past	153
Guideline 7: Axes of Change	153
All Components of the Strategy Are Important	154
The Four Axes of Change Model	154
Applying the Axes of Change to Teams	157
Guideline 8: Find the Right Balance of Radical/Incremental Change	159
Create a Change Roadmap	160
Dissolve the Problems Instead of Solving Them	161
Summary	161
References	162

<b>Part II</b>	<b>Applying the Concepts .....</b>	<b>165</b>
<b>7</b>	<b>Group Facilitation .....</b>	<b>167</b>
	Principles of Facilitation .....	167
	The Role of the Facilitator .....	168
	Meeting Goals .....	168
	Workshop Plan .....	168
	Ground Rules .....	169
	Consensus .....	169
	Parking Lot .....	170
	Track and Prioritize Ideas .....	170
	Dealing with Specific Behaviors .....	171
	Workshop Design .....	172
	The Plan Goes Awry .....	172
	The Magic of Engagement .....	173
	What Is a Serious Game? .....	174
	The Flow of the New Workshop .....	175
	The New Design Worked .....	177
	How to Design Your Workshop .....	177
	Facilitating Scrum Events .....	178
	Facilitating Sprint Planning .....	178
	Facilitating Product Backlog Refinement .....	184
	Facilitating Multi-Team Sprint Review .....	190
	Facilitating a Multi-Team Retrospective .....	192
	Summary .....	195
	References .....	196
<b>8</b>	<b>Preparing the Product Group .....</b>	<b>197</b>
	Areas of Concern for Successful Preparation .....	197
	Area 1: Involve the Managers .....	198
	Educating Management to Change Their Mental Models .....	199

Education Objectives .....	201
Getting Sufficient Managers' Support .....	202
Area 2: Understand the Current Reality .....	204
Go See .....	205
Individual Interviews .....	207
Value Stream Mapping .....	209
Scott Morton Diagram .....	212
Weighted SWOT and Confrontation Matrix .....	214
Finding System Structures Workshop .....	216
Aligning on the Go See Results with the Systems Model .....	218
Area 3: Create a Vision of the Future .....	221
Alignment Workshops .....	221
Shared Team Expectations Workshop .....	227
Shared Optimizing Goals Workshop .....	227
Perfection Vision Workshop .....	231
Progress So Far .....	233
Area 4: Identify the Product Group .....	233
Organize for Value Delivery .....	234
What About Internal Products? .....	236
Product Definition from Different Perspectives .....	237
Where Does the Product Definition Fit in Your Transformation? .....	237
How to Define the Product .....	238
Organizational Design to Eliminate Dependencies .....	242
Start with the Product Features .....	243
Using the Hotspots to Design Your Group .....	243
Summary .....	249
References .....	250
<b>9 Launching the Product Group .....</b>	<b>251</b>
Menu of Available Choices .....	252
Who Owns the Launching Process? .....	253
How Much Time Should It Take? .....	253

Initial Product Backlog Refinement .....	253
Try Features on the Product Backlog .....	253
How to Represent Features .....	254
Example of Creating an Initial Product Backlog with Product Goals and Sprint Goals .....	254
Define the Definition of Done .....	257
Component Team Velocity? .....	258
A Definition of Done Workshop .....	259
Feature Team Adoption Map .....	260
Choose Subsystem Names Close to the Customer Domain .....	261
Ordering the Components and DoD Activities .....	262
A Feature Team Adoption Map Workshop .....	262
Self-Designing Team Workshop .....	265
Consider a Market of Skills Workshop as Preparation .....	266
A Self-Designing Team Workshop .....	267
Team Lift-Off .....	270
The Lift-Off to Lay the Foundation for Success .....	271
Your Role as a Scrum Master .....	271
Discover a Shared Purpose .....	271
Align on Shared Values and Behavior .....	273
Facilitating Decision Making .....	277
Identify and Launch Communities .....	282
Identify Coordination Mechanisms .....	284
Create Useful Checklists .....	286
Sprint Goal Checklist .....	286
Underutilization Checklist .....	287
Emergent Work Checklist .....	288
Summary .....	288
