<b>PREFACE</b>	<b>xi</b>
<b>FOREWORD</b>	<b>xvii</b>
<b>ACKNOWLEDGEMENTS</b>	<b>xix</b>
 <b>Part One: Background and definitions</b>	
<b>1 Innovation and the generation of uncertainty</b>	<b>3</b>
The concept of innovation	4
The nature of environment	6
The concept of uncertainty	10
Ways in which organisations cope with uncertainty	14
the use of the expert	14
planning	16
the acquisition and ordering of information	19
political behaviour as a means for controlling personal or group uncertainty	21
Conclusion	22
 <b>Part Two: Uncertainty, decision-making and innovation</b>	
<b>2 Planning prescription – its contribution to coping with uncertainty</b>	<b>25</b>
<b>3 Decision theory and environmental uncertainty</b>	<b>35</b>
Some theories and ideas on decision-making	36
what is decision-making?	36
some varieties of decision-making	36
decision-making as a part of planning and policy making	37
theoretical approaches to decision-making	38
practical aids to decision-making	42
Problem definition and goal setting	43
the decision to proceed with innovation	44
the setting of goals for innovation	46
The search for alternative solutions	47
the shape of the search process	48

tests of feasibility as a method for variety reduction and the control of uncertainty	50
the direction of the search process	51
some examples of approaches to the search process	52
the search for consequences	53
the choice between alternative solutions	54
The participants in the decision-making process	55
top management	56
specialist groups	57
user departments	58
issues of power and conflict as generators of uncertainty	59
stress and skill in decision-making	60
The decision environment	61
Conclusion	63
<b>Part Three: Uncertainty and the innovator</b>	
<b>4 Uncertainty and innovative decisions – four case studies</b>	67
The four users	69
Government service: AEK	69
Manufacturing firm: Falcon Ltd.	70
Manufacturing firm: Grant and Co.	70
Distribution firm: Poultons	70
Reduction of uncertainty through a favourable environment	72
Goal setting as part of the decision process	78
The generation of uncertainty	82
Conflicting interests as a source of uncertainty within the computer group	83
The search for new technical information as a source of uncertainty within the computer group	86
ICM	90
British Electric	90
Mitchell	90
Uncertainty as a result of problems of internal relationships	94
How our firms coped with this kind of uncertainty	97
<b>5 Internal politics as a source of uncertainty</b>	102
The reasons for political behaviour	104
Factors influencing political behaviour	108
the role of the expert	108
historical influences on relationships	110
complexity, uncertainty and risk	111
external forces which influence the decision process	111
Manifestations of political behaviour	112
Strategies directed at achieving individual and group interests	114

The history of relationships as a factor in decision behaviour	121
the Computer Manager's relationship with Mitchell	121
the Computer Manager's relationship with the Systems Manager	122
programmers versus systems analysts	123
Reaction to technical and social uncertainty	124
External pressures on the decision process	126
Conclusions on political behaviour in the case study firm	128
Summary	130

**Part Four: Uncertainty and the user**

<b>6 Innovator role definition and user uncertainty</b>	135
The nature of the occupational role	135
The computer staff in our four firms	141
Internal factors which affected role definition	142
the influence on systems analysts' role perceptions of company demands and expectations	142
the reference groups of the systems analysts within the firms	144
institutionalisation as a factor in occupational role definition	147
training	148
External factors which may affect the role definition of computer technologists	150
group stereotypes which exert an influence on occupational role definition	150
the influence of occupational literature on role definition	152
occupational identification	153
Differences in role definition and how these affect role behaviour	154
How the systems analysts in our firms defined their role	155
Values as an element in occupational role definition	156
Ideology and power as factors influencing occupational role definition	161
<b>7 Computer specialists and user departments – role definition and expectation</b>	164
Problems of occupational role definition	166
Problems of defining new occupational roles	167
Role expectations	169
Specialist groups	173
Questions illustrated by our next case study	174
A case study of innovator–user relationships	174
the feasibility study	176
line management uncertainty	178
early communications increase uncertainty	179
the role of the O and M department	180
the role of the Computer Manager	181

the anxieties of local management	181
positive communication reduces uncertainty	182
unclear task boundaries	182
new attempts at role clarification	183
role uncertainty and ambiguity	184
uncertainty through absence of knowledge	184
the demand for a redefinition of role	185
how the computer department saw its role	186
role clarification and the reduction of uncertainty	187
Conclusion on case study	188
<b>8 Political aspects of the specialist-user relationship</b>	191
Internal politics and organisational change	192
stress in the specialist's role	193
the meaning of stress	193
some consequences of stress for the specialist's power	196
The sources and use of specialist power	197
expertise	199
control over information	199
political access and sensitivity	201
assessed stature	201
group support	203
Conclusion	205
<b>9 Uncertainty and strategic decision-making</b>	207
Uncertainty and the organisation	208
Uncertainty and the group	211
uncertainty as a product of risk	213
financial risk	213
operational risks	213
human relations risks	214
political risks	214
the response to uncertainty	214
lack of knowledge as a factor in uncertainty	215
the need to reconcile different interests	216
conflicts of interests and political behaviour	217
coping with uncertainty	218
Uncertainty and the individual	219
Innovation and uncertainty	221
Planning for change as an adaptive process	223
