

CONTENTS OF VOLUME I

Books by the Author	vi
Preface	ix
PART I. FROM SUCCESS IN STRUCTURED PROBLEMS TO CHALLENGES IN UNSTRUCTURED PROBLEMS	1
Chapter 1. Rational Profile of a Trans-Rational Process	3
Technical Overview	3
Executive Summary	4
1. "Virtuosity in Management"	5
2. Operations Research/Systems Analysis (OR/SA) in Management: Diagnosis and Prescription	6
3. Operations Research in Hierarchical Decision-Making	7
4. Management, A Trans-Rational Process	8
5. Outline of This Work	9
6. What This Work Offers and to Whom	16
Problems	20
Chapter 2. From Selecting Tactics to Formulating Policy	22
Technical Overview	22
Executive Summary	25
1. "Operational Efficiency Rather Than Novelty of Equipment"	27
2. <i>Application 1</i> : Operational Problems of Radar	29
3. <i>Application 2</i> : Operational Problems of Convoy Escort	31
4. "Decipher the Signals. . . and Explain to me in Lucid, Homely Terms. . ."	35
5. <i>Application 3</i> : Discontinuance of a New Weapons Effort	40
6. <i>Application 4</i> : Bad Judgment in a Strategic Decision	42
7. "The Heroic Age is Over; . . . Extension of [Operations Re- search] Hardly Likely to be Rewarding to First-Rate Scientists"	45

8. Development of Operations Research: (1) Mathematical Foundations – Linear Programming	46
9. Development of Operations Research: (2) Mathematical Foundations – Dynamic Programming	51
10. Development of Operations Research: (3) Mathematical Foundations – Theory of Games	53
11. Development of Operations Research: (4) “Prologues” to Policy – Systems Analysis	56
12. <i>Application 5</i> : Technological Anticipation – Polaris	58
13. <i>Application 6</i> : Overseas Base Construction for U.S. Air Force	59
14. Development of Operations Research: (5) Prologues to Policy – Program Budgeting	61
15. <i>Application 7</i> : Reduction of Titan II Force	64
16. <i>Application 8</i> : Cancellation of Skybolt	65
17. <i>Application 9</i> : Cost Effective Sealift: Ro-Ro Ships	66
18. Development of Operations Research: (6) Prologues to Policy – Policy Sciences	67
19. Development of Operations Research: (7) Professional Activities – ORSA	69
20. Development of Operations Research: (8) Professional Activities – Symposia and Short Courses	70
21. Development of Operations Research: (9) Professional Activities – Degree Programs	70
22. OR/SA	72
23. Operations Research Contributions to Hierarchical Decision-Making Problems	75
	77
PART II. SYSTEMS APPROACH TO UNSTRUCTURED PROBLEMS	79
Chapter 3. Substance of OR/SA Effort	81
Technical Overview	81
Executive Summary	83
1. Toward a Definition of Management	84
2. Four Major Elements of OR/SA	89
3. Element 1: Context – “Get a Bigger Map”	89

4. <i>Application 10: Defining Performance Characteristics in an Uncertain Context – Federal Time-Sharing System</i>	92
5. Element 2: Cost	95
6. Cost Considerations in Defense and Nondefense Problems	97
7. Element 3: Measure of Effectiveness – Absolute	109
8. Element 4: Measure of Effectiveness – Relative	114
9. Relevance to Decision-Making of Subsystems Studies	117
Problems	118
Chapter 4. Substance of OR/SA Effort: An OR/SA Protocol	120
Technical Overview	120
Executive Summary	121
1. Three Major Steps in OR/SA Study	122
2. Four Protocol Sequences in OR/SA	126
Problems	135
Chapter 5. Context C: Perspective of the Principal Decision-Maker (PDM) Roles	137
Technical Overview	137
Executive Summary	140
1. Notion of Principal Decision-Maker (PDM)	142
2. Diverse PDM Roles – Simultaneous and Successive	143
3. Primary Concerns of the PDM	144
4. <i>Application 11: Perspective of the Principal Decision-Maker – National Level</i>	146
5. <i>Application 12: Perspective of the Principal Decision-Maker – Cabinet Level</i>	159
6. <i>Application 13: Perspective of the Principal Decision-Maker – Corporate Level</i>	163
7. From the Perspective of PDM to that of SubPDM	169
8. <i>Application 14: Perspective of the SubPDM – Subcabinet Level</i>	169
9. <i>Application 15: Perspective of the SubPDM – Subcorporate Level</i>	171
10. Index of Importance of PDM Roles	173
Problems	175

6. <i>Application 22</i> : Multiple Regression Equation I Fitted to the Company Bookings	356
Problems	361
Chapter 11. Empirical Discriminant Function in Private Sector Problems: (2) Salesman Effort-Performance	362
Technical Overview	362
Executive Summary	364
1. Toward a Measure of "Salesmanship"	365
2. <i>Application 23</i> : Multiple Regression Equation II Fitted to the Company Bookings	369
3. Empirical Study of "Salesmanship"	371
4. <i>Application 24</i> : Discriminant Analysis of Salesman Effort-Performance Data	378
5. <i>Application 25</i> : Production Function Fitted to Company Outlays on Territory and Salesmen	390
6. <i>Application 26</i> : Douglas-Type Production Function Fitted to Salesman Effort-Performance by Region	399
7. Salesman Efforts from the Viewpoint of Quality Control	400
8. Summary	405
Problems	406
Chapter 12. Isopieces Action Chart in Private Sector Problems: (3) Production and Inventory Decisions	408
Technical Overview	408
Executive Summary	409
1. The Problem of Overtime	410
2. Decision Processes by Management Levels	416
3. <i>Application 27</i> : Empirical Index of Learning of Decision Processes	421
4. Modification of Real Life Data to Reflect Profitability of Decision Alternatives	425
5. <i>Application 28</i> : Product Allocation Decisions Among the Plants Using Resource-Use Index	428
6. <i>Application 29</i> : Isopieces Action Chart as a Decision Aid	432
Problems	435
Answers to Problems	437
Name Index	465
Subject Index	468
