	PREFACE	vii
	LIST OF FIGURES	xiv
	LIST OF TABLES	xvi
1.	SPATIAL LABOUR MARKET ANALYSIS: RELEVANCE AND SCOPE Manfred M. Fischer and Peter Nijkamp	1
	1.1 Introduction	1
	1.2 Reasons for the Spatial Perspective and Consequences	2
	1.3 Labour Supply Issues	6
	1.4 Labour Demand Issues	11
	1.5 Unemployment Issues	15
	1.6 Scope and Outline of the Book	18
	1.7 Conclusions	25
	References	26
PART A: SPATIAL LABOUR MARKETS: GENERAL ISSUES		
2.	LABOUR MARKET THEORIES: PERSPECTIVES, PROBLEMS AND POLICY IMPLICATIONS Manfred M. Fischer and Peter Nijkamp	37
	2.1 Introduction	37
	2.2 The Orthodox Neoclassical Labour Market Theory	37
	2.3 Some Extensions of the Orthodox Labour Market Approach: The Human Capital Approach, Job Search Theory and Contract Theory	42
	2.4 Segmentation Labour Market Theories	45
	2.5 Concluding Remarks	49
	References	49
3.	REGIONAL LABOUR MARKET MODELLING: A STATE OF THE ART REVIEW Uwe Schubert, Shelby Gerking, Andrew S. Isserman and Carol Taylor	53
	3.1 Introduction	53
	3.2 The Spatial Framework	53
	3.3 Basic Components and Concepts of Regional Labour Market Modelling	55
	3.4 Micro-Economic Aspects: The Relevant Decisions in Regional Labour Market Analysis	58
	3.5 Labour Supply: Migration	61
	3.6 Labour Supply: Participation	67
	3.7 Labour Supply: Commuting	76
	3.8 Labour Demand	78
	3.9 Wage Determination and Market Clearing	84
	3.10 Conclusions and Outlook	86
	References	87

	Page
4. REGIONAL ECONOMIC RESEARCH ON LABOUR MARKETS Jan Rouwendal and Peter Nijkamp	95
4.1 Introduction	95
4.2 A Framework for Analysis	96
4.3 Labour Force Participation	99
4.4 Migration	100
4.5 The Functioning of Labour Markets	103
4.6 Unemployment and Labour Demand	104
4.7 (Multi)Regional Labour Market Models	105
4.8 Information Systems for Regional Labour Market Modelling	108
4.9 Conclusion	111
References	111
5. TECHNOLOGICAL DEVELOPMENT AND REGIONAL LABOUR MARKETS Peter Nijkamp and Piet Rietveld	117
5.1 Introduction	117
5.2 The Generation of Technological Development	118
5.3 Diffusion of Innovations	122
5.4 Methods for Analysing Innovation Adoption Data	128
5.5 Effects of Technological Development on Regional Labour Markets	132
5.6 Conclusion	
References	136
6. PROCESSES OF INDUSTRIAL CHANGE: SCALE, LOCATION AND TYPE OF JOB Börje Johansson and Charlie Karlsson	139
6.1 Economic Dynamics and the Labour Market	139
6.2 Characterisation of Location Advantages	140
6.3 Labour Force Characteristics and the Product Cycle	144
6.4 Employment Categories in a Multiregional and Multisectoral Setting	151
6.5 Generalisations from Theory and Empirical Studies	159
References	159
 PART B: SEARCH BEHAVIOUR AND ANALYTICAL MODELS	
7. JOB SEARCH THEORY AND INDETERMINATE INFORMATION Gordon L. Clark	169
7.1 Introduction	169
7.2 The Island Parable	170
7.3 Theoretical Perspectives on Job Search Theory	172
7.4 Indeterminate Information	174
7.5 Contracts and Job Search Theory	177
7.6 Conclusions	183
References	185

	Page
8. JOB SEARCH AND MIGRATION Gunther Maier	189
8.1 Introduction	189
8.2 Job Search Models with Perfect Information about the Wage Offer Distribution	191
8.3 Search Models with Imperfect Information about the Wage Offer Distribution	197
8.4 Summary and Concluding Remarks	201
References	202
9. SPATIAL ASPECTS OF THE PROVISION OF JOB INFORMATION Mark N.K. Saunders and Robin Flowerdew	205
9.1 Introduction	205
9.2 Spatial Models of Job Search	206
9.3 Empirical Findings on the Use of Information Sources	207
9.4 The Link with Migration	211
9.5 A Case Study of Local Government in England and Wales	212
9.6 Vacancy Notification in Four Councils	215
9.7 The Effect of Information Channels on Applicant Location	217
9.8 The Effect of Job Advertising on Migration	223
9.9 Conclusions	225
References	226
10. COMPETITION AMONG APPLICANTS FOR JOB OPENINGS Peter A. Rogerson	229
10.1 Introduction	229
10.2 Job Search Theory and Human Capital Theory	230
10.3 Job Competition	233
10.4 Summary	242
References	243
PART C: CURRENT TRENDS	
11. NEW TRENDS IN THE SUPPLY AND DEMAND PATTERNS OF LABOUR IN WESTERN ECONOMIES William F. Lever	249
11.1 Introduction	249
11.2 The International Movement of Labour	251
11.3 The Operation of Regional Labour Markets	253
11.4 Urban Labour Markets	257
11.5 Recent Changes in Dual Labour Market Theories	260
11.6 Women in the Labour Market	263
11.7 Conclusions	265
References	265

	Page
12. DYNAMICS IN SPATIAL VARIATIONS IN UNEMPLOYMENT	269
David Gleave	
12.1 Introduction	269
12.2 The Nature of the Labour Market	270
12.3 Technical Change and Labour Demand	272
12.4 An Unemployment Typology	273
12.5 Regional Unemployment Trends in Britain	276
12.6 Policy Implications	286
References	287
13. INDUSTRIAL ORGANISATION AND REGIONAL LABOUR MARKETS	289
F.E. Ian Hamilton	
13.1 Recognition of the Issues	289
13.2 Industrial Systems and Regional Labour Markets: Definitions	289
13.3 Dualism and Segmentation	294
13.4 Industrial System Dynamics	298
13.5 Organisation and the Post Industrial Society: Selected Issues	302
13.6 Some Unresolved Issues	308
References	309
14. THE GROWTH OF SERVICE CLASS LABOUR MARKETS: THE CASE OF GREAT BRITAIN	313
Nigel Thrift	
14.1 Introduction	313
14.2 The Concept of Service Class	314
14.3 The British Service Class	315
14.4 The Geography of Service Class Labour Markets	322
14.5 Conclusions	339
References	340
15. THE ROLE OF WOMEN IN TECHNICAL CHANGE	345
Lata Chatterjee and T.R. Lakshmanan	
15.1 Introduction	345
15.2 Effects of Technical Change on Women	347
15.3 Sex Segregation in the Workplace	353
15.4 Woman's Household Production and Technology	355
15.5 An Interpretation of Woman's Role in Technical Change	358
15.6 An Agenda for Research	362
References	364
