Discussion ..... 268

The papers are printed in the same order in which they were listed in the Program, with the exception of Doz. Bäckman's paper, which reached later the present Editor. Prof. Bergman and Dr. Drobin were not able to submit the final manuscript of their papers in time for publication in this volume. Prof. Piccaluga's paper will constitute a part of a more extended publication by the same Author. Dr. Monaco's paper was presented *in absentia*.
