

## *Contents*

Chapter I	Non-linear Time Series Models . . . . .	7
Chapter II	Bilinear Models in Economics . . . . .	14
Chapter III	Methodology of Time Series Analysis . . . . .	18
Chapter IV	The General Bilinear Model and Stability Analysis . . . . .	31
Chapter V	Superdiagonal Models . . . . .	39
Chapter VI	Diagonal Models . . . . .	49
Chapter VII	Subdiagonal and Other Models . . . . .	61
Chapter VIII	Forecasting and Invertibility . . . . .	67
Chapter IX	Estimation and Applications . . . . .	84
Chapter X	Conclusions . . . . .	89
Abstract	. . . . .	90
Zusammenfassung	. . . . .	91
Résumé	. . . . .	92
Bibliography	. . . . .	93
