

4. Infinite Dimensional Systems

J.S. BARAS				
Algebraic Structure of Infinite Dimensional Linear Systems in Hilbert Space...	....	....	....	193
A. BENSOUSSAN, M.C. DELFOUR, S.K. MITTER				
Representation Theory for Linear Infinite Dimensional Continuous Time Systems	....	....	....	204
P. DEWILDE				
L <sup>2</sup> Systems Theory: Some Applications	....	....	....	226
P.A. FUHRMANN				
Algebraic Ideas in Infinite Dimensional System Theory	....	....	....	237
E.W. KAMEN				
Finiteness in Infinite-Dimensional Systems Applied to Regulation	....	....	....	252
L. PANDOLFI				
Exponential Stabilization of Functional Differential Equations....	....	....	....	266

5. Coding and Filtering for Sequential Systems

J.M. GOETHALS				
Codes as Elements in a Group Algebra	....	....	....	277
G. LONGO				
An Introduction to Algebraic Coding Theory	....	....	....	284
S.I. MARCUS, A.S. WILLSKY				
Algebraic Structure and Finite Dimensional Nonlinear Estimation	....	....	....	301
A.S. WILLSKY				
Filtering for Random Finite Group Homomorphic Sequential Systems....	....	....	....	312

6. General Dynamical Systems and Categorical Approach to Systems

H. EHRIG, H.J. KREOWSKI				
Categorical Approach to Graphic Systems and Graph Grammars	....	....	....	323
J.A. GOGUEN				
Correctness and Equivalence of Data Types.	....	....	....	352
H.J. KREOWSKI, H. EHRIG				
Minimization Concepts of Automata in Pseudoclosed Categories...	....	....	....	359
J.L. KULIKOWSKI				
Logical and Algebraical Models of the Networks of Activities....	....	....	....	375
F. PICHLER				
General Dynamical Systems: Construction and Realization...	....	....	....	393
