

## TABLE OF CONTENTS

### PART I: INTRODUCTION

Chapter 1: Overview and Summary.....	2
--------------------------------------	---

### PART II: ECONOMETRIC SPECIFICATIONS OF THE DISEQUILIBRIUM MODEL

Chapter 2: Previous Specifications.....	6
2.1: The Standard Disequilibrium Specification.....	6
2.2: The Stochastic Min Specification.....	11
2.3: Explicit Aggregation.....	14
Chapter 3: The Exact Excess Demand Specification.....	18
3.1: The Basic Model of Exact Excess Demand.....	18
3.2: Dynamic Links.....	20
3.3: An Endogenous Price.....	21
3.4: Testing for Equilibrium.....	24
3.5: Multiple Indicators.....	26
3.6: Extension to Multimarket Models.....	27
Chapter 4: Evaluating the Exact Excess Demand Specification.....	31
4.1: A Likelihood Ratio Test of the Exact Indicator.....	31
4.2: Misspecification and Tractability of Estimation.....	37
Appendix A: Linear Spillovers.....	41

### PART III: ESTIMATION OF A SINGLE MARKET DISEQUILIBRIUM MODEL

Chapter 5: Model Structure -- Labor Demand and Labor Supply.....	44
Chapter 6: Excess Labor Demand Indicators.....	48
Chapter 7: Estimation and Results.....	56
7.1: Exact Indicator Results.....	56
7.2: Testing the Exact Indicator.....	64
Appendix B: Definition of Variables in Part III.....	71

### Part IV: ESTIMATION OF A MULTIMARKET DISEQUILIBRIUM MODEL

Chapter 8: Model Structure I -- Behavior of Agents.....	74
8.1: Household Behavior.....	75
8.2: Firm Behavior.....	80
Chapter 9: Model Structure II -- Market Interaction.....	86
9.1: Labor Market.....	86
9.2: Capital Goods Market.....	87
9.3: Consumer Goods Market.....	88
Chapter 10: Excess Demand Indicators.....	92
10.1: Labor Market.....	92
10.2: Capital Goods Market.....	94
10.3: Consumer Goods Market.....	97
Chapter 11: Estimation and Results.....	101
Appendix C: International Trade.....	110
Appendix D: Definition of Variables in Part IV.....	113

### PART V: CONCLUSION

Chapter 12: Whither Disequilibrium?.....	116
