PREFACE	III
CONTENTS	V
I. EXPERIMENTAL ECONOMICS	
Reinhard Tietz	3
Experimental Economics: Ways to Model Bounded Rational Bargaining Behavior - Introductory Remarks to the Fourth Conference on Experimental Economics -	
Daniel Kahneman	11
Experimental Economics: A Psychological Perspective	
II. UNILATERAL DECISIONS	
Monika Isis Ksiensik and Dirk Wendt	21
Normative and Individual Strategies in Social Dilemmata	
Friedel Bolle	37
Learning to Make Good Predictions in Time Series	
John D. Hey and Valentino Dardanoni	51
A Preliminary Analysis of a Large-Scale Experimental Investigation into Consumption under Uncertainty	
Oswald Huber	66
Mental Representation in Multistage Decision Making	
III. BILATERAL DECISIONS	
Thomas R. King and J. Keith Murnighan	85
Stability and Outcome Tradeoffs in Asymmetric Dilemmas: Conditions Promoting the Discovery of Alternating Solutions	
Ulrich Schulz	95
The Influence of Social Orientation and Generalized Expectancies on Decision Making in Iterated Experimental Games	
Werner Güth and Reinhard Tietz	111
Ultimatum Bargaining for a Shrinking Cake - An Experimental Analysis -	
Otwin Becker and Stephan Huscens	129
Bounded Rational Strategies in Sequential Bargaining: An Experiment and a Learning by Evolution Strategy	
Reinhard Tietz, Werner Daus, Jürgen Lautsch, and Peter Lotz	142
Semi-Normative Properties of Bounded Rational Bargaining Theories	
Peter J.D. Carnevale, Karen L. Harris, Jacqueline R. Idaszak, Rebecca A. Henry, Jerry M. Wittmer, and Donald E. Conlon	160
Modeling Mediator Behavior in Experimental Games	
IV. AUCTIONS AND MARKETS	
Ronald M. Harstad	173
Dual Ceteris Paribus Comparisons: Some Initial Thoughts on Laboratory Isolation of Equilibrium Forces in Auction Markets	

John H. Kagel and Douglas Dyer Learning in Common Value Auctions	184
