1 INTRODUCTION	1
<i>Appendix 1</i>	8
2 THE BASE MODEL	10
<i>The model</i>	11
<i>Financial liberalization and the supply of credit to         the private sector</i>	19
<i>Financial liberalization and private investment</i>	21
<i>Concluding remarks</i>	25
<i>Appendix 2</i>	26
<i>Appendix 3</i>	28
3 ROLE OF FOREIGN AID AND THE GOVERNMENT	30
<i>The fiscal response to foreign aid</i>	31
<i>The model when government expenditures and taxes are         endogenized</i>	34
<i>Financial liberalization when foreign aid is exogenous</i>	38
<i>The role of foreign aid when aid is endogenized</i>	42
<i>Conclusions</i>	45
<i>Appendix 4</i>	47
4 THE ROLE OF INFORMAL FINANCIAL MARKETS	50
<i>Different types of informal financial intermediaries</i>	51
<i>Theories on the working of informal financial markets</i>	54
<i>Role of interest rate deregulation in the presence of curb         markets: A brief survey</i>	58

# CONTENTS

<i>The model</i>	60
<i>Financial liberalization and private investment</i>	63
<i>Conclusions</i>	67
<i>Appendix 5</i>	67
5 ALLOCATIVE EFFICIENCY AND FINANCIAL DEREGULATION	69
<i>The Galbis model</i>	70
<i>Some empirical evidence</i>	71
<i>The model</i>	75
<i>How to measure the improvement of the allocative efficiency?</i>	79
<i>The impact of deregulation of the formal deposit rate on the allocative efficiency</i>	79
<i>Conclusions</i>	85
6 BANKING EFFICIENCY AND PRIVATE INVESTMENT	86
<i>The Viaene model</i>	87
<i>The model</i>	87
<i>Banking efficiency and private investment if the private sector is credit constrained</i>	89
<i>Banking efficiency and investment if the private sector is not credit constrained</i>	93
<i>Concluding remarks</i>	94
7 SOME SIMULATION RESULTS	96
<i>The model</i>	97
<i>The simulation strategy</i>	107
<i>The simulation results</i>	113
<i>Concluding remarks</i>	142
<i>Appendix 6</i>	143
8 FINANCIAL REPRESSION AND FISCAL POLICY	146
<i>The simulation strategy</i>	147
<i>The simulation results</i>	147
<i>Concluding remarks</i>	164
9 SUMMING UP	166
<i>Notes</i>	168

7.2	Base model simulations	115
7.3	Base model simulations	116
7.4	Base model simulations	117
7.5	Base model simulations	118
7.6	Base model simulations	119
7.7	Alternative simulation 1: no substitution between deposits and capital	121
7.8	Alternative simulation 1: no substitution between deposits and capital	122
7.9	Alternative simulation 2: only investment is credit constrained	123
7.10	Alternative simulation 2: only investment is credit constrained	124
7.11	Alternative simulation 3: consumption not affected by real interest rates	125
7.12	Alternative simulation 3: consumption not affected by real interest rates	126
7.13	Alternative simulation 4: higher wealth effect in investment equation	128
7.14	Alternative simulation 4: higher wealth effect in investment equation	129
7.15	Alternative simulation 5: higher reserve requirements in formal banking sector and only investment credit constrained	130
7.16	Alternative simulation 5: higher reserve requirements in formal banking sector and only investment credit constrained	131

# FIGURES

7.17 Alternative simulation 5: higher reserve requirements in formal banking sector and only investment credit constrained	132
7.18 Alternative simulation 6: aid increases with 5%	134
7.19 Alternative simulation 6: aid increases with 5%	135
7.20 Alternative simulation 6: aid increases with 5%	136
7.21 Alternative simulation 6: aid increases with 5%	137
7.22 Alternative simulation 7: aid increases with 5% and government investment positively affects private investment ( $\gamma_1 = 0.3$ )	138
7.23 Alternative simulation 7: aid increases with 5% and government investment positively affects private investment ( $\gamma_1 = 0.3$ )	139
7.24 Alternative simulation 7: aid increases with 5% and government investment positively affects private investment ( $\gamma_1 = 0.3$ )	140
7.25 Alternative simulation 7: aid increases with 5% and government investment positively affects private investment ( $\gamma_1 = 0.3$ )	141
8.1 Tax on bond interest income: private investment	149
8.2 Tax on bond interest income: government investment	150
8.3 Tax on bond interest income: government consumption	151
8.4 Tax on bond interest income: inflation	152
8.5 Tax on bond interest income: private wealth	153
8.6 Borrowing at concessional rates: private investment	154
8.7 Borrowing at concessional rates: government investment	155
8.8 Borrowing at concessional rates: government consumption	156
8.9 Borrowing at concessional rates: inflation	157
8.10 Borrowing at concessional rates: private wealth	158
8.11 Higher reserve requirements for formal banks: private investment	159
8.12 Higher reserve requirements for formal banks: government investment	160
8.13 Higher reserve requirements for formal banks: government consumption	161
8.14 Higher reserve requirements for formal banks: inflation	162
8.15 Higher reserve requirements for formal banks: private wealth	163

# TABLES

2.1 The accounting framework of the model	11
3.1 Effects of aid on government expenditures and taxes	34
4.1 The accounting framework of the model including informal financial markets	62
5.1 Costs of borrowing of 68 manufacturing industries	72
5.2 Costs of borrowing for 28 industries in Turkey	73
5.3 Measures of efficiency of the allocation of investment in Indonesia	74
5.4 Measures of efficiency of the allocation of investment in Ecuador	74
7.1 Notations and definitions used in the model	97
7.2 The accounting framework of the model	99
7.3 Parameters of the asset demand equations and private consumption	111
7.4 Parameters of the government equations, initial values and exogenous variables	112
8.1 Effects of financial repression	164
