

TABLE OF CONTENTS

Introduction.....	4
Part 1. Modern Agricultural Biotechnology.....	6
General Issues.....	6
Adoption of genetically engineered varieties.....	11
Preliminary Assessment of Producer Benefits.....	17
Herbicide Resistant varieties.....	18
Insect Resistant varieties.....	22
Recombinant Bovine Growth Hormone.....	25
Part 2 Market Issues.....	28
Dimensions of Consumer Response.....	28
Labelling.....	29
Market Outlook.....	36
Part 3 Conclusions.....	37
References.....	39
Appendix 1.....	48
Appendix 2.....	51
Appendix 3.....	52

Boxes

Box 1. Modern Agricultural Biotechnology and Developing Countries Food Needs	7
Box 2. What is in the pipeline ?	8
Box 3. Intellectual Property Rights (IPR) and R&D: economic issues	9
Box 4. Biotechnology and Micro-nutrients for Developing countries	10
Box 5. Economic Welfare effects of genetically engineered crops	17
Box 6. Quantitative analysis of farm-level effects of adopting herbicide resistant varieties	21
