Table of Contents

PART ONE ORGANIZATIONAL FOUNDATIONS OF INFORMATION SYSTEMS 1

Chapter 1 The Information Systems Revolution: Transforming Business and Management 2

InPart Delivers Digital Parts on the Internet 3

1.1 Why Information Systems? 4

The Competitive Business Environment, 4 • What Is an Information System?, 7 • **Window on Technology:** UPS Competes Globally with Information Technology, 9 • A Business Perspective on Information Systems, 10

1.2 Contemporary Approaches to Information Systems 12

Technical Approach, 13 • Behavioral Approach, 13 • Approach of this Text: Sociotechnical Systems, 13

1.3 The New Role of Information Systems in Organizations 14

The Widening Scope of Information Systems, 14 • The Network Revolution and the Internet, 16 • **Window on Management:** Asian Netpreneurs Thrive on the Internet, 18 • New Options for Organizational Design: The Networked Enterprise, 18 • Electronic Commerce and Electronic Business, 23 • **Window on Organizations:** Internet Trading Heats Up, 24

1.4 Learning to Use Information Systems: New Opportunities with Technology 27

The Challenge of Information Systems: Key Management Issues, 27 • Integrating Text with Technology: New Opportunities for Learning, 29

Management Wrap-Up 30 • Summary 30 • Key Terms 31 • Review Questions 31 • Group Project 31 • Tools for Interactive Learning 31 • Case Study: Battling Information Overload: A New Business Is Born 32

Chapter 2 The Strategic Role of Information Systems 34

Orchids Paper Products Moves Back on Course 35

2.1 Key System Applications in the Organization 37

Different Kinds of Systems, 38 • Six Major Types of Systems, 39 • **Window on Technology:** Canadian Oil Companies Make Data Flow, 43 • Relationship of Systems to One Another: Integration, 47

2.2 Information Systems and Business Strategy 48

What Is a Strategic Information System?, 48 • Business-Level Strategy and the Value Chain Model, 49 • **Window on Organizations:** Mining for Profitable Customers, 54 • Firm-Level Strategy and Information Technology, 56 • Industry-Level Strategy and Information Systems: Competitive Forces and Network Economics, 58 • **Window on Management:** British Consumer Companies Pool Their Data, 60

2.3 Using Systems for Competitive Advantage: Management Issues 61

Managing Strategic Transitions, 61 • What Manager Can Do, 62

Chapter 3 Information Systems, Organizations, and Business Processes 68
 Schneider Responds to the New Rules of the Trucking Game 69

3.1 The Relationship Between Organizations and Information Systems 71
 The Two-Way Relationship, 71 • What is an Organization, 72

3.2 Salient Features of Organizations 73
 Why Organizations Are So Much Alike: Common Features, 73 • Why Organizations Are So Different: Unique Features, 75 • Business Processes, 78 • Levels of Analysis 79

3.3 How Organizations Affect Information Systems 80
 Decisions About the Role of Information Systems, 82 • Information Technology Services, 82 • Why Organizations Build Information Systems, 84 • Window on Organizations: Euro Currency Conversion Creates a Systems Nightmare, 85

3.4 How Information Systems Affect Organizations 86
 Economic Theories, 86 • Behavioral Theories, 87 • **Window on Technology:** Oil Companies Go Virtual, 88 • The Internet and Organizations, 90 • **Window on Management:** Learning to Share Knowledge, 91 • Implications for the Design and Understanding of Information Systems, 91

Management Wrap-Up 92 • Summary 93 • Key Terms 93 • Review Questions 93 • Group Project 94 • Tools for Interactive Learning 94 • Case Study: Utilities Deregulation Sparks Big Business Changes 94

Chapter 4 Information, Management, and Decision Making 96
 Can Marks and Spencer Spark a Comeback? 97

4.1 What Managers Do 98
 Putting Management and Information Systems in Context, 98 • Three Schools of Management, 99 • The Technical-Rational Perspective, 100 • The Behavioral Perspective, 101 • **Window on Technology:** Schwab's Managers Turn to the Internet, 104 • The Cognitive Perspective and Postmodern Era, 106

4.2 Introduction to Decision Making 109
 Levels of Decision Making, 109 • Types of Decisions: Structured vs. Unstructured, 109 • Types of Decisions and Types of Systems, 109 • **Window on Management:** Managers Look to the Future, 110 • Stages of Decision Making, 110

4.3 Individual Models of Decision Making 112
 The Rational Model, 112 • Bounded Rationality and Satisficing, 113 • "Muddling Through" 113 • Psychological Types and Frames of Reference, 114

4.4 Organizational Models of Decision Making 115
 Bureaucratic Models, 115 • Window on Organizations: Blockade by the Book, 116 • Political Models of Organizational Choice, 116 • "Garbage Can" Model, 116

4.5 How Information Technology Has Changed the Management Process 117
 Traditional and Contemporary Management, 117 • Implications for System Design, 118

Management Wrap-Up 120 • Summary 120 • Key Terms 121 • Review Questions 121 • Group Project 122 • Tools For Interactive Learning 122 • Case Study: A Tale of Two Cities' Information Systems 122

Chapter 5 Ethical and Social Impact of Information Systems 124

Health Files on the Internet: What Price for Convenience? 125

5.1 Understanding Ethical and Social Issues Related to Systems 127

A Model for Thinking about Ethical, Social, and Political Issues, 127 • Five Moral Dimensions of the Information Age, 127 • Key Technology Trends That Raise Ethical Issues, 128

5.2 Ethics in an Information Society 130

Basic Concepts: Responsibility, Accountability, and Liability, 130 • Ethical Analysis, 130
• Candidate Ethical Principles, 131 • **Window on Technology:** Are the Cookies Eating Your Privacy? 132 • Professional Codes of Conduct, 132 • Some Real-World Ethical Dilemmas, 132

5.3 The Moral Dimensions of Information Systems 134

Information Rights: Privacy and Freedom in an Information Society, 134 • Property Rights: Intellectual Property, 136 • **Window on Management:** Did Reuters Steal from Bloomberg?, 137
• Accountability, Liability, and Control, 140 • Window on Organizations: Employee Guidelines for Using Software, 141 • System Quality: Data Quality and System Errors, 143 • Quality of Life: Equity, Access, Boundaries, 144 • Management Actions: A Corporate Code of Ethics, 150

Management Wrap-Up 150 • **Summary** 151 • **Key Terms** 151 • **Review Questions** 151 • **Group Tools for Interactive Learning** 152 • **Case Study: Profiling You!** 152

Part One Case Study: Daimler Chrysler and GM: Organization Technology and Business Processes in the U.S. Auto Industry 154

Case Study Questions 159

PART TWO TECHNICAL FOUNDATIONS OF INFORMATION SYSTEMS 160

Chapter 6 Computers and Information Processing 160

Navigation Canada Takes Flight with New Computers 161

6.1 What Is a Computer System? 162

How Computers Represent Data, 163 • Time and Size in the Computer World, 164
• Computer Generations, 165

6.2 The CPU and Primary Storage 166

Primary Storage, 166 • Types of Semiconductor Memory, 168 • The Arithmetic-Logic Unit and Control Unit, 168

6.3 Computers and Computer Processing 168

Categories of Computers, 168 • **Window on Technology:** Mainframes Learn to Serve the Web, 170 • Microprocessors and Processing Power, 171 • Computer Networks and Client/Server Computing, 173 • Network Computers and Total Cost of Ownership, 174

6.4 Secondary Storage 175

Magnetic Disk, 175 • **Window on Management:** Network Computers: A New Management Option, 176 • Window on Organizations: Selecting Laptop Computers: The Bottom Line for Organizations, 177 • Optical Disks, 178 • Magnetic Tape, 179

6.5 Input and Output Devices 180

Input Devices, 180 • Batch and On-Line Input and Processing, 182 • Output Devices, 182

6.6 Information Technology Trends 184

Interactive Multimedia, 184 • Superchips and Fifth-Generation Computers, 185 • Smart Cards and Microminiaturization, 186 • Social Interfaces, 187

Chapter 7 Information Systems Software 192

Software Helps Norway's National Hospital Deliver Better Care 193

7.1 What is Software? 194

Software Programs, 195 • Major Types of Software, 195

7.2 System Software 196

Functions of the Operating System, 196 • Multiprogramming, Virtual Storage, Time Sharing, and Multiprocessing, 196 • Language Translation and Utility Software 198 • Graphical User Interfaces, 199 • PC Operating Systems, 200 • Window on Organizations: Should Businesses Switch to Linux?, 203

7.3 Application Software 203

Generation of Programming Languages, 203 • Popular Programming Languages, 204 • Fourth-Generation Languages and PC Software Tools, 206

7.4 New Software Tools and Approaches 213

Object-Oriented Programming, 213 • Java, 215 • **Window on Technology:** Banque Generale Luxembourg Competes with Object Technology, 216 • Hypertext Markup Language (HTML) and XML, 217

7.5 Managing Software Assets 217

Software Trends, 217 • **Window on Management:** Adding Java to the Programming Mix, 218 • Software Maintenance and the Year 2000 Problem, 219 • Selecting Software for the Organization, 220

Management Wrap-Up 221 • Summary 222 • Key Terms 223 • Review Questions 223 • Group Project 224 • Tools for Interactive Learning 224 • Case Study: The Year 2000 Problem, 224

Chapter 8 Managing Data Resources 226

Saab Centralizes Customer Data 227

8.1 Organizing Data in a Traditional File Environment 229

File Organization Terms and Concepts, 229 • Accessing Records from Computer Files, 230 • Problems with the Traditional File Environment, 233

8.2 The Database Environment 234

Database Management Systems, 235 • Logical and Physical Views of Data, 236

8.3 Designing Databases 237

Hierarchical Data Model, 237 • Network Data Model, 238 • Relational Data Model, 239 • Advantages and Disadvantages of the Three Database Models, 239 • Creating a Database, 241

8.4 Database Trends 242

Distributed Databases, 243 • Object-Oriented and Hypermedia Databases, 244 • Multidimensional Data Analysis, 245 • **Window on Technology:** La Scala's Multimedia Database, 246 • Data Warehouses, 246 • **Window on Management:** Canned Data Marts on the Rescue, 249 • Linking Databases to the Web, 249

8.5 Management Requirements for Database Systems 250

Data Administration, 250 • Data Planning and Modeling Methodology, 251 • Database Technology, Management, and Users, 251 • Window on Organizations: DNA Databases: Crime Fighters or Threats to Privacy?, 252

Management Wrap-Up 253 • Summary 253 • Key Terms 254 • Review Questions 255 • Group Project 255 • Tools for Interactive Learning 255 • Case Study: The EPA Cleans Up Its Own Mess with a Data Warehouse 256

Chapter 9 Telecommunications and Networks 258

Manitoba Insurance Goes Wireless 259

9.1 The Telecommunications Revolution 260

The Marriage of Computers and Communications, 261 • The Information Superhighway, 261

9.2 Components and Functions of a Telecommunications System 261

Telecommunications System Components, 261 • Types of Signals: Analog and Digital, 263
• Communications Channels, 263 • Communications Processors and Software, 267

9.3 Communications Networks 268

Network Topologies, 268 • Private Branch Exchanges and Local Area Networks (LANs), 270
• Wide Area Networks (WANs), Valued-Added Networks (VANs), and Network Services, 271 •
Window on Organizations: Banco do Brasil Competes with a Multiservice WAN, 274
• Enterprise Networking and Standards, 274

9.4 Electronic Commerce and Electronic Business Technologies 277

Facilitating Applications, 277 • **Window on Management:** Monitoring Employees on
Networks: Unethical or Good Business?, 278 • **Window on Technology:** Videoconferencing
on the Internet, 281 • Electronic Data Interchange and Electronic Commerce, 281

9.5 Management Issues and Decisions 282

The Challenge of Managing Enterprise Networking, 282 • The Telecommunications Plan, 284

Management Wrap-Up 286 • Summary 286 • Key Terms 287 • Review Questions 287 • Group Project 288 • Tools for Interactive Learning 288 • Case Study: State Street Banks on Networks to Stay Competitive 288

Chapter 10 The Internet: Electronic Commerce and Electronic Business 290

Tiny Firms Become International Giants on the Internet 291

10.1 The Internet 292

What is the Internet?, 292 • Internet Technology and Capabilities, 293 • The World Wide Web, 296 • Intranets and Extranets, 298 • Internet Benefits to Organizations, 299

10.2 The Internet and Electronic Commerce 302

Internet Business Models, 302 • Customer-Centered Retailing, 305 • **Window on Technology:**
Interacting with the Customer, 307 • Business-to-Business Electronic Commerce: New
Efficiencies and Relationships, 307 • Electronic Commerce Support Systems, 310

10.3 Intranets and Electronic Business 311

How Intranets Support Electronic Business, 311 • Intranets and Group Collaboration, 312
• Intranet Applications for Electronic Business, 313 • Coordination and Supply Chain
Management, 315 • Window on Organizations: The Supply Chain Goes Global, 317

10.4 Management Challenges and Opportunities 317

Unproven Business Models, 317 • Business Process Change Requirements, 318 • Technology
Hurdles, 318 • **Window on Management:** Avoiding Channel Conflict, 319 • Legal Issues, 320
• Security and Privacy, 320

Management Wrap-Up 321 • Summary 321 • Key Terms 322 • Review Questions 322 • Group Project 322 • Tools for Interactive Learning 323 • Case Study: Bidding the Profits of Web Companies Lower 323

PART THREE BUILDING INFORMATION SYSTEMS: CONTEMPORARY
APPROACHES 330

Chapter 11 Redesigning the Organization with Information Systems 330
Grupo Financiero Bital Moves to Private Banking Systems 331

11.1 *Systems as Planned Organizational Change* 333

Window on Organizations: How a Call Center Changed a Company, 333 • Linking Information Systems to the Business Plan, 334 • Establishing Organizational Information Requirements, 334

11.2 *Systems Development and Organizational Change* 338

The Spectrum of Organizational Change, 338 • Business Process Reengineering, 340 • **Window on Technology:** Redesigning with the Internet, 341 • Process Improvement and Total Quality Management (TQM), 344

11.3 *Overview of Systems Development* 346

Systems Analysis, 347 • System Design, 348 • Completing the Systems Development Process, 351

11.4 *Understanding the Business Value of Information Systems* 353

Capital Budgeting Models, 354 • Case Example: Primrose, Mendelson, and Hansen 356 • Nonfinancial and Strategic Considerations, 361 • **Window on Management:** Extranet ROIs: Figuring the Payback, 362

Management Wrap-Up 363 • **Summary** 364 • **Key Terms** 364 • **Review Questions** 365 • **Group Project** 365 • **Tools for Interactive Learning** 365 • **Case Study: Greasing Mobil's Orders** 366

Chapter 12 Approaches to Systems-Building 368
Euro Brokers Lures New Clients on the Net 369

12.1 *The Traditional Systems Lifecycle* 370

Stages of the Systems Lifecycle, 371 • Limitations of the Lifecycle Approach, 372

12.2 *Alternative System-Building Approaches* 372

Prototyping, 372 • Application Software Packages, 374 • **Window on Technology:** Enterprise Resource Planning Systems: Benefits and Headaches, 377 • End-User Development, 377 • Outsourcing, 381 • **Window on Management:** VISA's Outsourcing Triumph, 382

12.3 *System-Building Methodologies and Tools* 383

Structured Methodologies, 383 • Object-Oriented Software Development, 388 • Computer-Aided Software Engineering (CASE), 389 • Rapid Application Development (RAD), 391 • Software Reengineering, 391 • Window on Organizations: Gulf Canada Refines Budgeting with Object-Oriented Software, 392

Management Wrap-Up 393 • **Summary** 393 • **Key Terms** 394 • **Review Questions** 395 • **Group Project** 395 • **Tools for Interactive Learning** 395 • **Case Study: Can a German Software Giant Provide Enterprise Solutions?** 396

Chapter 13 System Success and Failure: Implementation 398
Lights Go Out for Washington State's LAMP Project 399

13.1 Information System Failure 400

Information System Problem Areas, 401 • Window on Organizations: Facing Up to ERP Software, 402 • Measuring System Success, 403

13.2 Causes of Information System Success and Failure 404

The Concept of Implementation, 404 • Causes of Implementation Success and Failure, 406 • **Window on Management:** Are the Users Involved in Your Project?, 408 • **Window on Technology:** Boston Tunnel's Data Gridlock, 410 • The Challenge of Business Process Reengineering (BPR) and Enterprise Planning (ERP), 412 • The Implementation Process: What Can Go Wrong, 413

13.3 Managing Implementation 414

Controlling Risk Factors, 414 • Designing for the Organization, 418 • Sociotechnical Design, 419

Management Wrap-Up 420 • Summary 420 • Key Terms 421 • Review Questions 421 • Group Project 421 • Tools for Interactive Learning 422 • Case Study: Healthcon's Healthcare System Struggle 422

Part Three Case Study: System Modernization at the Social Security Administration 424

PART FOUR MANAGEMENT AND ORGANIZATIONAL SUPPORT SYSTEMS 432

Chapter 14 Managing Knowledge 432

Shell Wakes Up with Knowledge Management 433

14.1 Knowledge Management in the Organization 434

Information Systems and Knowledge Management, 435 • Knowledge Work and Productivity, 435

14.2 Information and Knowledge Work Systems 436

Distributing Knowledge; Office and Document Management Systems, 437 • **Window on Management:** Managing Building Projects with the Internet, 439 • Creating Knowledge: Knowledge Work Systems, 440 • Sharing Knowledge: Group Collaboration Systems and Intranet Knowledge Environments, 442

14.3 Artificial Intelligence 444

What Is Artificial Intelligence?, 444 • Window on Organizations: Multimedia Education for Learning Organizations, 445 • Why Business Is Interested in Artificial Intelligence, 446 • Capturing Knowledge: Expert Systems, 446 • Organizational Intelligence: Case-Based Reasoning, 451

14.4 Other Intelligent Techniques 453

Neural Networks, 453 • **Window on Technology:** Case-Based Reasoning Teams Up with Intranets, 454 • Fuzzy Logic, 456 • Genetic Algorithms, 458 • Intelligent Agents, 460

Management Wrap-Up 462 • Summary 462 • Key Terms 463 • Review Questions 463 • Group Project 464 • Tools for Interactive Learning 464 • Case Study: Booz, Allen's Quest for Knowledge Management 464

Chapter 15 Enhancing Management Decision Making 466

Foiling Bad Forecasts with a DSS 467

15.1 Decision-Support Systems (DSS) 468

DSS and MIS, 469 • Types of Decision-Support Systems, 469 • Components of DSS, 471
• Examples of DSS Applications, 472 • **Window on Technology:** Utilizing Barclay's Bulging
Data Warehouse, 475 • Web-Based DSS, 476 • Window on Organizations: Bond Network:
A Web-Based Financial DSS, 478

15.2 Group Decision-Support Systems (GDSS) 478

What Is a GDSS?, 478 • Characteristics of GDSS, 479 • GDSS Software Tools, 480 • How
GDSS Can Enhance Group Decision Making, 482

15.3 Executive Support Systems (ESS) 483

The Role of ESS in the Organization, 484 • Developing ESS, 484 • **Window on Management:**
Netting Information on Your Competition, 485 • Benefits of ESS, 485 • Example of ESS, 486

*Management Wrap-Up 488 • Summary 488 • Key Terms 489 • Review Questions 489 • Group
Project 490 • Tools for Interactive Learning 490 • Case Study: Premier Inc. Learns to Make
Healthier Decisions 490*

Part Four Case Study: Can Boeing Fly High Again? 492

PART FIVE MANAGING CONTEMPORARY INFORMATION SYSTEMS 496

Chapter 16 Information Systems Security and Control 496

The Pacific Exchange Invests in Uptime 497

16.1 System Vulnerability and Abuse 498

Why Systems Are Vulnerable, 498 • **Window on Organizations:** Internet Hackers on the Rise,
500 • Concerns for System Builders and Users, 501 • **Window on Management:** Disaster
Recovery in the Information Age, 502 • System Quality Problems: Software and Data, 503

16.2 Creating a Control Environment 506

General Controls, 506 • Application Controls, 509 • Security and the Internet, 511 • **Window
on Technology:** Building a Security Infrastructure for Electronic Commerce, 515 • Developing
a Control Structure: Costs and Benefits, 516 • The Role of Auditing in the Control Process. 517

16.3 Ensuring System Quality 518

Software Quality Assurance, 518 • Data Quality Audits, 519

*Management Wrap-Up 520 • Summary 520 • Key Terms 521 • Review Questions 521 • Group
Project 522 • Tools for Interactive Learning 522 • Case Study: Did the FAA Fly Off Course? 522*

Chapter 17 Managing International Information Systems 526

Kellogg Seeks Global Coordination 527

17.1 The Growth of International Information Systems 528

Developing the International Information Systems Infrastructure, 529 • The Global
Environment: Business Drivers and Challenges, 530 • **Window on Organizations:** Marine
Power Europe's Extranet Challenge, 533 • State of the Art, 534

17.2 Organizing International Information Systems 534

Global Strategies and Business Organization, 534 • Global Systems to Fit the Strategy, 536
• Reorganizing the Business, 537

17.3 *Managing Global Systems* 537

A Typical Scenario: Disorganization on a Global Scale, 537 • Strategy: Divide, Conquer, Appease, 538 • Implementation Tactics: Cooptation, 540 • The Management Solution 541

17.4 *Technology Issues and Opportunities* 541

Main Technical Issues, 541 • **Window on Management:** Developing an International Web Strategy, 544 • **Window on Technology:** Virtual Private Networks to the Rescue, 546 • New Technical Opportunities and the Internet, 547

Management Wrap-Up 548 • *Summary* 548 • *Key Terms* 549 • *Review Questions* 549 • *Group Project* 549 • *Tools for Interactive Learning* 549 • *Case Study: Pirelli's Drive Toward a Global Strategy*, 550

Chapter 18 **Managing Firm Infrastructure and Enterprise Systems** 552

Coca-Cola Creates an Extended Enterprise 553

18.1 *Managing IT Infrastructure and Architecture: Enterprise Computing* 555

Basic Concepts of Enterprise Computing, 556 • Industrial Networks and Transenterprise Systems, 558 • Business Drivers: The Changing Business Environment, 559 • Technology Drivers: The New Networked Environment, 562 • An Ideal Model of Enterprise Computing, 562

18.2 *Managing the New IT Infrastructure* 563

Elements of the New IT Infrastructure, 563 • **Window on Technology:** Harley-Davidson Fights Back with its IT Infrastructure, 563 • Key Infrastructure Decisions, 565 • Connecting Infrastructure to Strategy: Governance, 567 • Dealing with Mergers and Acquisitions, 567 • **Window on Management:** Bank Mergers: More Than Meets the Eye, 569

18.3 *Enterprise Systems* 570

Enterprise Systems: The Vision, 570 • Enterprise Systems: The Reality, 571

18.4 *Industrial Networks and Extended Enterprise Systems* 573

Window on Organizations: Extending the Supply Chain, 574 • Industrial Networks: The Vision, 574 • Industrial Networks: The Reality, 576 • Steps to Building and Managing Enterprise Systems and Industrial Networks, 577

Management Wrap-Up 579 • *Summary* 579 • *Key Terms* 580 • *Review Questions*, 580 • *Group Project* 580 • *Tools for Interactive Learning* 581 • *Case Study: Using a Shoehorn to Fit in an ERP System* 581

Part Five Case Study: When Two Titans Merge: Management, Organization, and Technology Challenges at Citigroup 584

International Case Studies ICS 1

Case Study 1: Geelong & District Water Board to Barwon Water: An Integrated IT Infrastructure

Joel B. Barolsky and Peter Weill, University of Melbourne (Australia)

Case Study 2: Ginormous Life Insurance Company

Len Fertuck, University of Toronto (Canada)

Case Study 3: Analysis to Interface Design—The Example of Cuparla

Gerhard Schwabe, Stephan Wilczek, and Helmut Krcmar, University of Hohenheim (Germany)

Case Study 4: Citibank Asia-Pacific: Rearchitecting Information Technology Infrastructure for the Twenty-First Century

Boon Siong Neo and Christina Soh, Information Management Research Center (IMARC), Nanyang Business School, Nanyang Technological University (Singapore)

Case Study 5: Heineken Netherlands B. V.: Reengineering IS/IT to Enable Customer-Oriented Supply Chain Management

Donald A. Marchand, Thomas E. Vollmann, and Kimberly A. Bechler, International Institute for Management Development (Switzerland)
