REGULATION, INDUSTRY STRUCTURE AND PERFORMANCE IN THE ELECTRICITY SUPPLY INDUSTRY	5
1. Summary and conclusions	5
2. The electricity supply industry.....	8
2.1 Functional decomposition of the electricity supply industry	8
2.2 Technological developments in the electricity supply industry	10
3. Regulatory framework and regulatory reform	10
3.1 Motivation for change	10
3.2 Reform patterns	11
3.3 Summarising regulatory reform for empirical analysis	14
4. Evaluating the effects of regulatory reform on performance in the electricity supply industry	17
4.1 The empirical approach	17
4.2 Performance data.....	18
4.3 Empirical difficulties	20
4.4 Empirical Results.....	21
5. Directions for future research	25

Boxes

1. Using multivariate data analysis to assess regulation patterns
2. Panel data estimation techniques
