

TABLE OF CONTENTS

| CHAPTER | PAGE |
|--|------|
| 1 INTRODUCTION | 1 |
| Motivation and Overview | 1 |
| Motivation | 1 |
| Overview | 5 |
| Justification of Methodology | 10 |
| Organization of the Study | 11 |
| 2 HISTORICAL PERSPECTIVE AND LITERATURE REVIEW | 15 |
| Historical Perspective | 15 |
| 1880-1900 | 16 |
| 1900-1930 | 18 |
| 1930-1940 | 20 |
| 1940-1960 | 22 |
| 1960-1980 | 24 |
| Summary | 25 |
| Literature Review | 25 |
| 3 HUMAN ERROR AND EMPLOYEE FUNCTION | 32 |
| Human Error | 32 |
| Employee Function | 34 |
| 4 THEOREMS AND LEMMAS | 37 |
| Lemma One | 37 |
| Theorem One | 38 |
| Theorem Two | 38 |
| Lemma Two | 38 |
| Theorem 3.1 | 39 |
| Theorem 3.2 | 39 |

TABLE OF CONTENTS (CONTINUED)

| CHAPTER | PAGE |
|---|-----------|
| 5 SINGLE AGENT MODEL—COMPLETE INFORMATION | 40 |
| General Discussion | 40 |
| Employee Strategies, Notation, and Assumptions | 42 |
| Firm Strategies, Notation, and Assumptions | 46 |
| Model Analysis | 48 |
| Lemma One | 49 |
| 6 TWO AGENT MODEL—COMPLETE INFORMATION | 53 |
| General Discussion | 53 |
| Employees' Strategies, Notation, and Assumptions | 54 |
| Firm Strategies, Notation, and Assumptions | 55 |
| Model Analysis | 56 |
| Case 1 | 58 |
| Case 2 | 59 |
| 7 N-AGENT MODEL—COMPLETE INFORMATION | 61 |
| General Discussion | 61 |
| Employees' Strategies, Notation, and Assumptions | 62 |
| Firm Strategies, Notation, and Assumptions | 64 |
| Model Analysis | 65 |
| Case 1 | 67 |
| Case 2 | 67 |
| Theorem One | 70 |
| 8 N-AGENT MODEL—INCOMPLETE INFORMATION | 71 |
| General Discussion | 71 |
| Employees' Strategies, Notation, and Assumptions | 71 |
| Firm Strategies, Notation, and Assumptions | 72 |
| Model Analysis | 73 |
| Theorem Two | 75 |

TABLE OF CONTENTS (CONTINUED)

| CHAPTER | PAGE |
|---|------|
| 9 N-AGENT MODEL—PRODUCTIVITY ASSUMPTION RELAXED | 76 |
| General Discussion | 76 |
| Firm Strategies, Notation, and Assumptions | 79 |
| Model Analysis | 81 |
| Theorem 3.1 | 85 |
| Theorem 3.2 | 85 |
| 10 CONCLUSION AND FUTURE RESEARCH | 86 |
| Conclusion and Implications | 86 |
| Future Research | 89 |
| TABLES | 92 |
| FIGURES | 100 |
| APPENDIX | |
| A NUMERICAL EXAMPLES | 113 |
| B PROOFS | 118 |
| REFERENCES | 129 |
| VITA | 136 |

LIST OF TABLES

| Table | | Page |
|-------|--|------|
| 1 | Fraud Reservation Amount—One-Agent Model | 92 |
| 2 | Total Firm Cost—One-Agent Model | 93 |
| 3 | Agent One's Reservation Amount—Two-Agent Model | 94 |
| 4 | Agent One's Reservation Amount—N-Agent Model | 95 |
| 5 | The Possible Effect of SOD on Firm Costs | 96 |
| 6 | The Possible Effect of SOD on Firm Costs Assuming New Employees are Added to Maintain Productivity | 96 |
| 7 | Comparison of Firm Cost Without SOD and With SOD | 97 |
| 8 | Fraud, Fraud Controls, and Fraud Motivators | 99 |

LIST OF FIGURES.

| Figure | | Page |
|--------|--|------|
| 1 | Illustration of Lemma 1 | 100 |
| 2 | Illustration of Lemma 1 | 100 |
| 3 | Illustration of Lemma 1 | 100 |
| 4 | Single Agent Problem | 101 |
| 5 | Agent One's Collusion Problem | 102 |
| 6 | Agent Two's Collusion Problem | 103 |
| 7 | Agent Two's Rejection Problem | 104 |
| 8 | Agent One's Problem | 105 |
| 9 | Possible Paths for $n = 3$ Agents | 106 |
| 10 | Firm's Problem with Two Types of Employees | 107 |
| 11 | Surface Graph of SOD Effectiveness | 108 |
| 12 | Sub-Task Configuration | 109 |
| 13 | Sub-Task Configuration | 109 |
| 14 | Sub-Task Configuration | 109 |
| 15 | Possible Effect on Errors When SOD Increases | 110 |
| 16 | Possible Effect on Errors When SOD Increases | 110 |
| 17 | Possible Effect on Errors When SOD Increases | 110 |
| 18 | Expected Value Tree For Fraud | 111 |
| 19 | Values of A with $n_0 = 10$ and m varied | 112 |
