Ack	nowledgments	X1	
Intr	Introduction		
2 Stress and deprivation during the years of growth and			
d	evelopment and adulthood	6	
2.1	Introduction	6	
		8	
2.3	Growth and development: dental	23	
2.4	Skeletal and dental pathological markers of deprivation	29	
2.5	Adult stress	56	
2.6	Summary and conclusions	61	
Exposure to infectious pathogens			
3.1	Introduction	64	
3.2	Dental caries	65	
3.3	Periodontal disease (periodontitis) and tooth loss	77	
3.4	Nonspecific infection	82	
3.5	Specific infectious diseases: treponematosis, tuberculosis,		
	and leprosy	93	
3.6	Summary and conclusions	107	
Injury and violent death			
4.1	Introduction	109	
4.2	Accidental injury	110	
4.3	Intentional injury and interpersonal violence	119	
4.4	Medical care and surgical intervention	152	
4.5	Interpreting skeletal trauma	154	
4.6	Summary and conclusions	159	
Activity patterns: 1. Articular and muscular modifications			
5.1	Introduction	161	
5.2	Articular joints and their function	162	
5.3	Articular joint pathology	162	
	Intr Stree d 2.1 2.2 2.3 2.4 2.5 2.6 Exp 3.1 3.2 3.3 3.4 3.5 Inju 4.1 4.2 4.3 4.4 4.5 4.6 Act 5.1 5.2	Introduction Stress and deprivation during the years of growth and development and adulthood 2.1 Introduction 2.2 Growth and development: skeletal 2.3 Growth and development: dental 2.4 Skeletal and dental pathological markers of deprivation 2.5 Adult stress 2.6 Summary and conclusions Exposure to infectious pathogens 3.1 Introduction 3.2 Dental caries 3.3 Periodontal disease (periodontitis) and tooth loss 3.4 Nonspecific infection 3.5 Specific infectious diseases: treponematosis, tuberculosis, and leprosy 3.6 Summary and conclusions Injury and violent death 4.1 Introduction 4.2 Accidental injury 4.3 Intentional injury and interpersonal violence 4.4 Medical care and surgical intervention 4.5 Interpreting skeletal trauma 4.6 Summary and conclusions Activity patterns: 1. Articular and muscular modifications 5.1 Introduction 5.2 Articular joints and their function	

	5.4 5.5	Nonpathological articular modifications	185
	5.6	pathological collections relating to activity	188
		Summary and conclusions	193
6		ivity patterns: 2. Structural ada ptation	195
	6.1	Bone form and function	195
	6.2	Cross-sectional geometry	197
	6.3	Histomorphometric biomechani cal adaptation	219
	6.4	Behavioral inference from whole bone measurements	220
	6.5	Summary and conclusions	224
7	Mas	sticatory and nonmasticatory functions: craniofacial	
	ac	daptation	226
	7.1	Introduction	226
	7.2	Cranial form and function	227
	7.3	Dental and alveolar changes	242
	7.4	Dental wear and function	247
	7.5	Summary and conclusions	268
8	Isoto	opic and elemental signatures of diet and nutrition	
	8.1	Introduction	270
	8.2	Isotopic analysis	270
	8.3	Elemental analysis	271
	8.4	Methodological issues in bioarch aeological chemistry	290 300
	8.5	Summary and conclusions	300
9	Histo	orical dimensions of skeletal variation: tracing genetic	
	rel	ationships	302
	9.1	Introduction	302
	9.2	Classes of biodistance data	305
	9.3	Biohistorical issues: temporal perspectives	310
	9.4	Biohistorical issues: spatial perspectives	324
	9.5	Summary and conclusions	331
10	Chan	ges and challenges in bioarchaeology	333
		Introduction	333
		Sample representation	334
		Data recording standards	340
	10.4	Bioarchaeology and cultural patri mony	341
	Refere	nces	343
	Genera	al index	432
