

TABLE OF CONTENTS

	<u>Page</u>
FOREWORD	†††
PART I	
Introduction	1
Organization of the Guidelines	2
CHAPTER 1: INTRODUCTION	
The Concept of Prevention	3
Modalities of Primary Prevention	5
Evaluation of Prevention	6
CHAPTER 2: MODEL FOR EVALUATION	
Introduction	8
Need for a Model	10
Evaluation Parameters	11
Levels of Evaluation	11
Information Type	12
Target Area	12
Systems Change Using Evaluation: Program Development	13
Evaluation Plan	14
Analysis of Decision-Making Activity	16
Analysis of Program Activity	16
Development of Alternative Evaluation Designs	17
Initial Selection of an Evaluation Design	17
Putting the Evaluation Design Into an Operating Context	17
Field Test of the Evaluation Plan	18
Revise Evaluation Design	18
Routine Data Collection and Analysis	18
Utilization	18
Decision-Making Activity	19
Procedural Guidelines for the Evaluator	20
Conceptual Guidelines	20
Sociopolitical Guidelines	20
Contractual/Legal Guidelines	21
Technical Guidelines	21
Utility Guidelines	22
Administrative Guidelines	22
Moral/Ethical Guidelines	23
Conclusion	24
Endnotes	24
References	25
PART II	
Introduction	26
CHAPTER 3: PROCESS EVALUATION-INDICATORS AND MEASURES	
Introduction	28
Program Inputs	29
Human Resources: Staff and Participants	29
Attitudes, Values, Beliefs, and Knowledge	30
Physical Resources	31
Contextual Variables	32
Program Variables	33
Organizational Structure and Patterns	33
Program Service Delivery	35
Participant-Program Relationships	36
Participant-Staff Relationships	37
Staff-Staff and Staff-Program Relationships	37
Endnotes	38
References	39

CHAPTER 4: OUTCOME EVALUATION-INDICATORS AND MEASURES

Introduction	40
Objectives	40
Specifying Program Objectives	40
Outcome Indicators	41
Ultimate Indicators	41
Intermediate Indicators	42
Data Sources	43
Issues in Prevention Measurement	44
Self-Report, Archival, and Observational Measures	44
Measures of Drug and Alcohol Abuse	44
Protection of Human Subjects	45
Safeguarding Anonymity	45
Examiner-Respondent Interaction	46
Consistency Scores	46
Weighted Scoring	47
Drug Abuse	47
Target Group Characteristics	48
Instrumentation for Cultural and Ethnic Minorities	49
Multiple Indicators	50
References	51

CHAPTER 5: IMPACT EVALUATION-INDICATORS AD MEASURES

Introduction	53
Considerations for Impact Evaluation	55
Alternative Definitions of Community	55
Intended and Unintended Effects	55
Delay and Durability of Impact	56
Identification of Net Impacts	56
Double Counting and Limits of Counting	56
Impact Cannot Be Assumed	57
Primary Indicators of Drug and Alcohol Prevention Programs -	
Change in Use and Related Attitudes	57
Decrease in Drug Use and Alcohol Related Problems	57
Change of Attitude Toward Drug and Alcohol Usage	59
Secondary Indicators of Drug and Alcohol Prevention Programs -	
Change in Social Behavior, School, and Work Performance	60
Reduction of Socially Undesireable Behavior	60
Improvement in School and Work Performances	61
Economic Indicators	62
A Review of Primary and Secondary Impact Indicators by	
Social Structure	62
References	65

PART III

Introduction	66
References	68

CHAPTER 6: PROCESS METHODOLOGY

Needs Assessment	69
Identification of Objectives	70
Analysis of Inputs	70
Nonmonetary Assessment	70
Monetary Evaluation-Costs	71
Special Consideration for Cost Estimation	71
Analysis of Process	73
Qualitative Assessment	73
Organization Assessment	75
Quantitative Assessment	76
References	78

	<u>Page</u>
CHAPTER 7: OUTCOME STUDIES IN EVALUATION RESEARCH	
Introduction	80
Selecting an Evaluation Research Design	80
Issues Regarding the Evaluation Research Context	81
Issues of Theory Application	81
Issues of Measurement	82
Issues of Sampling	82
Issues of Statistical Validity	82
Issues of Generalizability and Replication	82
The Validity of Experiments	83
Internal Validity	83
External Validity	85
True Experiments	87
Notation for Describing Designs	88
Design 1: The Pre-test/Posttest Control Group Design	88
Design 2: The Pre-test/Posttest Control Group Design With an Additional Control Group, Posttest Only	90
Design 3: The Solomon Four-Group Design	91
Design 4: The Posttest-Only Control Group Design	92
Design 5: Factorially Organized, Pre/Post Controlled Design	94
Design 6: Factorially Organized, Repeated - Measurements Controlled Design	95
Quasi-Experimental Designs	97
Design 7: The Time-Series Experiment	98
Design 8: The Nonequivalent Control Group, Pretest/Posttest Design	100
Design 9: The Time-Series Design With a Nonequivalent Control Group	101
Qualitative Strategies in Evaluation Research	103
Observational Methods	104
Case History Methods	105
Interview Methods	106
Anecdotal Data	108
Methodological Issues	110
References	112
CHAPTER 8: METHODS FOR THE STUDY OF IMPACT	117
Epidemiologic Studies	119
Retrospective (Case Control) Study	119
Prospective (Cohort) Study	120
Historical Prospective Study	120
Panel Studies	121
Survey Methods	123
Choosing the Population	123
Surveying Approaches	125
Questionnaire Design	126
Pilot Tests	127
Uses of Social Area Research as an Impact Methodology	127
Identifying Target Groups	127
Archival Data	128
Existing Programs	130
Service Utilization	130
Criteria of Effect	130
Cost Benefit/Cost Effective Analysis	131
Summary	135
Endnotes	135
References	136
CHAPTER 9: EVALUATION RESEARCH DESIGN AND DATA ANALYSIS	
Introduction	139
Issues in Research Design	139

	<u>Page</u>
Power Analysis	139
Multiple Comparisons	140
Optimum Inference Strategies	142
Population Sampling	143
Sampling Designs	145
Instrumentation	148
Issues in Data Analysis	150
Exploratory Data Analysis	150
Multiple Populations	156
Analyzing Qualitative or Categorized Data	158
Likelihood Inference	161
Nonparametric Statistics	162
Models Underlying Nonparametric Tests	163
New Approaches to Multivariate Regression	164
Multicollinearity	165
Autocorrelation or Serial Correlation	166
Structural Equation Models (Path Analysis)	166
Causal Modeling of Qualitative Variables	167
Computing Resources for Statistical Analysis	167
Introduction	167
Overview of Computing Resources for Data Analysis	167
The Availability of Computing Resources: Advances in Hardware and Software	167
Types of Data Analysis Software: Some Basic Categories	168
Criteria for Evaluating Statistical Programs	168
General Purpose Programs	170
Special Purpose Programs	175
Other Computing Tools	177
Subroutine Libraries	177
Interactive Programs	177
Other Data Analysis Aids	177
Locating Computing Resources	178
Endnotes	179
References	180
 CHAPTER 10: UTILIZATION AND TRANSFER OF EVALUATION RESULTS	
Introduction	189
Attributes of the Findings	189
Characteristics of the Audience	190
Characteristics of the Organization	192
Presentation of the Findings	194
Dissemination of Innovations	194
References	197
 APPENDIX TO PART II: INSTRUMENTS AND DATA SOURCES	
Introduction	198
Assessment and Interpretation of Reliability	198
Validity	199
Reliability and Validity vs. Relevance	200
Conclusion	200
Organization of the Appendix	201
References	202
Review of Instruments	203
Multiscale Batteries	203
Intrapersonal Scales	207
Interpersonal Scales	220
Substance Scales	235
A Review of Instrument and Data Sources	245
Instrument Sources	245
Data Sources	248
