

## TABLE OF CONTENTS

|   |    |
|---|----|
| FOREWORD.....   | 2  |
| THE ECONOMICS OF ENVIRONMENTAL SECURITY: INTRODUCTION.....        |    |
| Introduction/context.....   | 4  |
| Principal environmental security issues facing OECD nations ..... | 5  |
| Climate change (global) .....                                     | 6  |
| Stratospheric ozone depletion (global) .....                      | 6  |
| Biodiversity (global) .....                                       | 6  |
| Viruses, micro-organisms (global) .....                           | 7  |
| Fisheries (global, regional, and local) .....                     | 7  |
| Transboundary air pollution (regional) .....                      | 8  |
| Transboundary water pollution (regional) .....                    | 9  |
| Land degradation and desertification (regional) .....             | 9  |
| Water scarcity (regional).....                                    | 10 |
| Nuclear power plants (regional).....                              | 11 |
| Oil, natural gas, and mineral deposits (regional) .....           | 12 |
| Introduction of alien species (regional and local) .....          | 12 |
| Natural disasters (regional and local).....                       | 13 |
| Disposal of hazardous wastes (local) .....                        | 13 |
| Oil and other spills (local, regional).....                       | 14 |
| Summary .....   | 14 |
| Organisations working on environmental security issues .....      | 15 |
| Economic dimension of environmental security problems .....       | 15 |
| Climate change .....  | 15 |
| Stratospheric ozone depletion .....                               | 17 |
| Biodiversity .....  | 18 |
| Viruses and other micro-organisms .....                           | 19 |
| Fisheries .....   | 19 |
| Transboundary air pollution.....                                  | 20 |
| Transboundary water pollution .....                               | 21 |
| Land degradation and desertification .....                        | 21 |
| Nuclear power plants.....   | 22 |
| Oil, gas and minerals .....                                       | 22 |
| Alien species .....   | 22 |
| Hazardous waste disposal in developing countries .....            | 22 |
| Oil spills .....  | 23 |
| Strategies for minimising costs .....                             | 23 |
| Future efforts.....   | 24 |
| A short-term agenda .....   | 24 |
| A longer-term agenda.....   | 25 |
| REFERENCES .....  | 27 |
