Contents

1. Introduction 1

2. The Basics 2
   2.1 Multiplication 2
   2.2 Orders of Operations 2
   2.3 Factorials, Summations, and Subscripts 3
   2.4 Expected Value, Variance, and Standard Deviation 4
   2.5 Use of Normal Distribution Table 5

3. Break-Even Quantities 8

4. Quality Control 9
   4.1 Control Charts 9
      4.1.1 Mean (x-bar) chart and Range (R) chart 9
      4.1.2 p-chart 11
      4.1.3 c-chart 13
   4.2 Process Capability 14

5. Reliability 16

6. Forecasting Models 19
   6.1 Simple Moving Average 19
   6.2 Weighted Moving Average 20
   6.3 Exponential Smoothing 22
   6.4 Trend Adjusted Exponential Smoothing 23
   6.5 Forecast Error, MAD, and MSE 25
   6.6 Linear Trend Line 26
   6.7 Linear Regression 28
      6.7.1 Correlation Coefficient 30

7. Location Models—Center of Gravity—Load Distance 32
   7.1 Center of Gravity 32
   7.2 Load Distance Model 33
      7.2.1 Rectilinear Distance 33
   7.3 Load Distance Model for Location Analysis 34

8. Layout Models—Load Distance—Assembly Line Balancing 37
   8.1 Load Distance Model 37
      8.1.1 First Example—Single Summation Sign 37
      8.1.2 Second Example—Double Summation Signs 38
   8.2 Assembly Line Balancing 40

9. Time Studies 43
9.1 Standard Times 43
9.1.1 Allowance Factor Based on Job Time 46
9.1.2 Allowance Factor Based on Time Worked 47
9.2 Work Sampling 48

10. Independent Demand Inventory Models 50
10.1 Transportation Inventory 50
10.2 Inventory Turnover 50
10.3 Weeks, Days, and Hours of Supply 50
10.4 Economic Order Quantity (EOQ) 51
10.5 Economic Production Quantity (EPQ) 53

11. Project Planning—PERT 56
11.1 Expected Activity Completion Time 56
11.2 Variance of an Activity 57
11.3 Completion Date Estimates 58

12. Waiting Line Models 60
12.1 Single Server Waiting Line (M/M/1) 60
12.2 Multiserver Waiting Line (M/M/s) 61

13. Decision Analysis 65
13.1 Decision Making under Uncertainty 65
13.1.1 Maximax Criterion 65
13.1.2 Maximin Criterion 65
13.1.3 Minimax Regret Criterion 65
13.1.4 Hurwicz Criterion 66
13.1.5 Equal Likelihood (LaPlace) Criterion 66
13.2 Decision Making under Risk 67
13.3 Expected Value of Perfect Information (EVPI) 67
13.4 Decision Tree (Sequential Decisions) 68

Appendix: The Standard Normal Distribution 71
